## Canada 'Gives Thought' To OAS Participation

### Pearson Backs Link With OAS

WESTPORT, Ont. (UPI)—Opposition leader Lester B. Pearson today backed President Kennedy's call for increased Canadian participation in Latin American affairs.

Pearson, starting a swing through three eastern ridings at stake in the May 29 byelections, said the time has come for Canada to "consider very sympathetically" joining the Organization of American States.

"If we are going to increase our contacts with these Latin American nations, we should be ready to increase our assistance to the underdeveloped countries among them," Pearson said.

The former external affairs minister and Nobel Prize winner said he could not comment on Kennedy's remarks in regard to a NATO nuclear force "until we can find out what he meant by control." Pearson added, however, that he felt strongly that "we should not disperse nuclear weapons any more widely than at present."

OTTAWA (CP)—The possibility of Canada joining the Organization of American States remains under consideration, Prime Minister Diefenbaker said today, and he indicated Canada will be represented at the Inter-American Economic Conference in Uruguay in July.

Mr. Diefenbaker, giving the Commons a report on his talks with President Kennedy, told Gordon Aiken (PC Parry Sound-Muskoka) that he discussed the economic meeting with Mr. Kennedy as well as the whole question of Canadian participation in OAS.

Mr. Diefenbaker said he anticipated an invitation to Uruguay for the July 15 meeting and anticipated also that Canada would be represented. It remained to be determined whether Canada would sit as an observer or active delegate.

He said Canada made no commitment about joining OAS as Mr. Kennedy had urged in public and private conversations.

The prime minister was asked whether the Canadian decision about OAS would be taken before July 15.

"That will be determined in due course," said Mr. Diefenbaker.

But Canada's position has not changed since late last month, he said, when External Affairs Minister Green told the House that "the decision should be taken only when it is fairly clear that the majority of people are in favor of this being done."

Mr. Diefenbaker added today:

"It is still in that category and of course no commitments were made or would be made without Parliament being made aware in advance of any decision."

**RED CHINA ISSUE**

The question of Red China's admission to the United Nations was discussed with Mr. Kennedy in private and there was agreement to "consult further over the next few months," Mr. Diefenbaker said. He noted that the issue will not come up in the UN until September.

Mr. Diefenbaker said today's announcement of a Vienna meeting June 3 and 4 between Mr. Kennedy and Soviet Premier Khrushchev raises hopes for amelioration of the world situation.

It was hoped there would be "a degree of agreement which so often has been the expectation and hope of mankind since 1946."

## WIRE BRIEFS

### Lookout for Satellite

HALEAKALA, Hawaii, (UPI)—An observatory here was under request today to help track a "suspected, unpredicted, bright satellite." Clifton Marsh, head of the observatory, said the Smithsonian Institution had alerted its network of high powered, telescopic cameras to spot and photograph the mystery satellite, if it exists.

### Rangers Bid on Harvey

MONTREAL (UPI — The New York Rangers today requested and were granted permission by the Montreal Canadiens to re-open negotiations with defenceman Doug Harvey for the coaching job of the Rangers.

### Leonard Warned

SAN FRANCISCO (UPI) — Arnold Palmer, Gary Player, and Stan Leonard were warned today they would be fined $500 and suspended from the PGA tour for six months if they skipped the Memphis Open golf tourney in favor of the Canada Cup matches.

### Sugar Ban Studied

WASHINGTON (CP)—The United States may withhold a total import quota of about 3,800 tons of Canadian sugar this year because of a new American law which forbids imports of Cuban sugar either directly or indirectly through some third country.

## $15 Million In Mortgages Offered

OTTAWA (CP) — Central Mortgage and Housing Corporation will make an initial offering of $15,000,000 worth of mortgages on or about June 1, Works Minister Walker announced in the Commons today.

## 'Unworthy' Suggestion —Fleming

**OTTAWA (CP) — Finance Minister Fleming denied today that he is delaying the 1961-62 budget until after four federal byelections May 29.**

**He was asked in the Commons by Paul Martin (L—Essex East) whether he would agree with the widely held view that he is delaying the budget on this ground.**

**"I do not agree," Mr. Fleming said. "The suggestion is unworthy of any member of this House."**

### NEW PARTY FIGHT LOOMS

## Argue to Run For Leadership

(Times News Services)

OTTAWA—National CCF Leader Hazen Argue formally announced today that he will be a candidate for leadership of the New Party at its founding convention here this mid-summer.

Argue told a news conference he was "encouraged" to stand for the top office by between 400 and 500 unsolicited letters which he has received in recent weeks, many of them from trade unionists and farm leaders, although none from labor organizations or farm organizations as such.

Many of the Saskatchewan letters, Argue said, expressed the view strongly that Premier T. C. Douglas, who also will contest the New Party leadership, should not be allowed to leave the province.

Queried on how he felt about winning over Douglas, Argue told newsmen frankly:

"It's going to be a hard fight. But I have been in five election fights and I have never found any one that was easy—and I have won them all. I believe I have a good fighting chance."

Asked if he would serve under Douglas if the New Party should return the Saskatchewan premier as leader, Argue said he would.

Mr. Argue said he will go to British Columbia next week, stopping in Edmonton on the way, and visit the Maritime provinces the following week. Detailed plans for his campaign have not been made and depend on his work in the Commons, he added.

## Advance Voting Opens Saturday

Advance polls of the Esquimalt-Saanich Federal byelection open Saturday at 9 a.m. in three locations.

Polls will be open until 9 p.m. at St. Luke's Church, St. Martin's-in-the-Field Church, for voters on the urban lists, and at Sanscha Hall, Sidney, for rural voters.

Anyone who expects to be absent from the Esquimalt-Saanich riding on voting day, May 29, is eligible to cast his ballot in the advance poll.

Returning officer S. S. Penny said today he had received one complaint from Shawnigan Lake loggers about location of the rural advance poll, which serves the entire rural voting list, scattered from coast to coast on southern Vancouver Island.

Mr. Penny said regulations of the Canada Elections Act specify that rural advance polls must be held in an incorporated village.

Sidney is the only incorporated village in the riding.

The three advance polls will be open again Monday from 9 to 9.

Mr. Penny said there had been complaints from some of the political parties that Monday is a holiday—Victoria Day.

"That was the date specified by the chief electoral officer," he said "and I telephoned him to check on it."

Mr. Penny said that the two urban polling stations are open today for revision of the voters lists.

Anyone who isn't on the lists can register either today or Saturday.

Voters in rural areas who are not on the list do not need to register. They can qualify to vote on voting day by obtaining a certificate in which any registered voter vouches for them.

## Meet in Vienna On June 3, 4

WASHINGTON (AP) — President Kennedy and Premier Khrushchev will meet in Vienna June 3 and 4 for a "general exchange of views" on major world issues, the White House announced today.

The announcement ruled out any effort to reach agreement on "the major international problems that involve the interest of many other countries."

"The meeting will, however, afford a timely and convenient opportunity for the first personal contact between them and a general exchange of views on the major issues which affect the relationship between the two countries," the announcement said.

The announcement of the meeting was made simultaneously in Washington, Moscow and London.

It disclosed officially what had been rumored for some time—that after a meeting with President de Gaulle in Paris May 31 to June 2, the president will go directly to Vienna.

White House press secretary Pierre Salinger said Kennedy will make the trip on the morning of June 3.

Some time on June 4—Salinger did not know the hour—the president will fly from Vienna to London for a visit with Mrs. Kennedy's sister and her husband, Prince Stanislas Radziwill.

### Opportunity for Talks With Mac

This London stopover gives the president an opportunity to meet with Prime Minister Macmillan after the talk with Khrushchev. The White House statement disclosed that meeting will occur at a luncheon June 5.

Buckingham Palace in London announced that President and Mrs. Kennedy will dine with the Queen that day.

Kennedy, the statement said, "will depart London for Washington late in the evening" of June 5, while Mrs. Kennedy will remain with her sister in London for several days.

The announcement said the agreement between Kennedy and Khrushchev to meet in Vienna followed "discussions through diplomatic channels which began last March and an exchange of communications."

Diplomatic officials say privately Kennedy's primary interest in having a talk with Khrushchev at this time is to try through direct personal diplomacy to save the Geneva negotiations on a nuclear weapons test ban. The talks among the United States, Britain and Russia have been deadlocked for many weeks.

In addition, the president is said to feel that it would be useful for him at this time to make clear to Khrushchev that despite the reverses to U.S. interests in the Cuban and Laotian crises the United States is determined to stand by various commitments to prevent free nations from being taken over by international communism.

Salinger said Thursday that Kennedy does not plan to stop off at Bonn, West Germany. There had been some speculation that he might stop briefly at Bonn to talk with Chancellor Konrad Adenauer.

### SUMMIT REACTION

## Allies Approve, Not Too Hopeful

LONDON (UPI) — America's allies around the world expressed guarded approval today of the idea of a meeting between President Kennedy and Premier Nikita Khrushchev but warned against any expectation that it would produce notable results.

Russia and its satellites were expected also to welcome the idea on the theory that the Communist world had nothing lose and might perhaps gain something from such a meeting.

U.S. allies in Europe were publicly optimistic about the Kennedy-Khrushchev talks, but expressed private concern over the possibility that they would be bypassed in "Big Two" dealings with world affairs.

French President Charles de Gaulle, who believes he is entitled to a decisive share in shaping western policy, was believed to be cool to the idea of the meeting.

**APPREHENSIVE**

Allied officials in Geneva and at Atlantic pact headquarters in Paris were apprehensive about the possibility that a Kennedy-Khrushchev meeting could lead to similar individual approaches to the Kremlin by other western leaders, giving the Russians a chance to undermine western unity.

Country by country, the reaction was:

Britain — Foreign undersecretary Joseph Godber said such a meeting would provide an "opportunity of clearing the air." Some top-level officials were disappointed by the fact that Prime Minister Macmillan would not attend.

Russia — One newsman thought it was "too early for such a meeting," but added that "we've always maintained . . . that top-level meetings can help solve outstanding problems."

West Germany—Chancellor Adenauer told a visiting American publisher Wednesday that he regards it as "necessary and good."

Spain—The Spanish foreign office expressed general approval.

Italy—Italian reaction was generally favorable.

Scandinavia — Officials in Sweden, Denmark and Norway agreed that the meeting might provide a useful opportunity to remove "misunderstanding and mistrust."

Austria—In Vienna, where the two men are to meet, Chancellor Gorbach said Austria "strongly advocates" the idea of the conference.

### MOTHER BLAMES 'RELIGION'

## Maniac Stabs 2 to Death

HOUSTON, Tex. (UPI) — Mrs. Velma White blames a "religious missionary" for driving her son out of his mind.

Charles E. White, 36, described by those who know him as a "nice guy," had a mental collapse at work Wednesday and was taken to Methodist Hospital. That night he went berserk.

Somehow, he had smuggled a knife into the hospital and he ran amok with it. He killed two people, wounded four others, and two of them were still in serious condition today. All the while he quoted scriptures and sang hymns.

Police and the hospital kept a heavy guard on him. When he came out from under sedation Thursday, he was in another rage and doctors had to subdue him and put him back to sleep with more drugs.

Mrs. White said she knew for days that something was wrong with her son but did not believe he would become violent, however.

"He showed signs . . . when a religious missionary got him all confused about being saved," she said. "He told me he had to be saved. That's what went wrong with him. "The last time he slept was Sunday . . . and the veins were standing out on his head."

Police Thursday filed two charges of murder against White, and four charges of assault to murder. A homicide lieutenant said he doubted, however, that White would ever stand trial for his actions.

James E. Newton, 61, an orderly, was killed instantly when White attacked him. Mrs. Gladys Lucille Foreman, 50, a nurse, went to see what was wrong and White plunged the knife into her chest. She was able to spread the alarm before she died.

CITY NEWSPAPERS ATTACKED

# 'Conspiracy of Silence'

## 'Democracy Damaged'

The New Party's only MP and its Esquimalt - Saanich candidate joined Thursday to attack the Times for what they called lack of responsibility and unfair political coverage.

Peterborough MP Walter Pitman and byelection candidate Glen Hamilton told 62 persons in Mount View High School that the New Party was not getting "a fair break" in Victoria's newspapers.

"Good government depends on a responsible press," said Mr. Pitman. It should not just give every party good coverage, but every candidate the same coverage, he added.

"Our whole democratic process is based not only on freedom of the press but responsibility of the press," he said.

"I am disappointed that a man I have long respected, whose books I have bought and read, whose articles I have studied and quoted should publish polls," said Mr. Pitman.

**CREATE RESULT**

"They are a damage to the democratic system. They are used to create the result they predict."

(The Times this week ran a Page 1 story on a survey which showed a Liberal lead in popularity in Esquimalt-Saanich.)

Mr. Pitman and Mr. Hamilton were joining Premier W. A. C. Bennett, who was the first to hit out at the newspaper in protest.

"This lack of a responsible press," said Mr. Pitman, "can make an unknown country deserve to be unknown."

Mr. Pitman said the press of Victoria was "a facade of a horse race in which the horses are all owned by the same person."

**BASIC ETHICS**

Mr. Hamilton said the two Victoria newspapers have "an editorial policy that is in my estimation violating the basic ethics of journalism."

"If the Conservative and Liberal parties nominated wooden dummies these two papers would rally to their support and write long editorials."

Mr. Hamilton said the two papers are owned by the same company (Victoria Press Ltd.)

"This is characteristic of the two parties they represent. Both parties are owned by the same company."

He added: "Our political parties are the same parties as existed 100 years ago and as far as I can see they have the same ideas as 100 years ago.

"They still talk about free trade and free enterprise.

He said free enterprise equals "freedom to establish monopolies; freedom to fix prices; freedom to misrepresent products."

"It's pretty darned expensive."

## Hahn Meetings Not Reported?

B.C. Attorney-General Robbert Bonner Thursday accused Victoria newspapers of "a conspiracy of silence" against the Social Credit candidate in Esquimalt-Saanich.

He told a byelection campaign meeting at Cordova Bay community hall that the press was not reporting all speeches by George Hahn "probably because what our candidate says is commonsense."

Mr. Bonner said the campaigns being waged by the "old-line" parties were an insult to the intelligence of the voters, because they ignored the problems of the present.

**PARADE**

"There has been a steady parade of cabinet ministers through this riding, promising the future and pointing to the past," said Mr. Bonner. "Not one has dealt with the problems of the present."

He said the Conservative government had failed to create the northern development envisioned by the prime minister in 1958.

"The only northern development in the whole of Canada is being carried out by this provincial government," said Mr. Bonner.

Mr. Hahn told the meeting that Ottawa was not giving B.C. "a reasonable share" of assisance in such fields as forest protection and resource development.

He said Ottawa should assist B.C. in the Columbia River power project the same way it did for the South Saskatchewan Dam, which got a $75,000,000 grant.

"The Conservative candidate has said this was for drainage, but I was born in the area and lived in Saskatchewan 20 years and I can't recall any drainage problem. It's irrigation, and the federal aid will assist the largest industry in Saskatchewan which is agriculture.

"But the Columbia is going to assist big industries in B.C. so we have a double claim for federal aid."

# Green's Prodding Gets Laos Action

GENEVA (CP) — Under prodding by Canada, the Soviet Union agreed today to help solve the urgent problem of supplying the international control commission in Laos with equipment needed to preserve the peace.

The 14-nation conference here sent a message to the commission asking what it needed in the way of planes, helicopters, trucks and communications equipment for patrolling the Laotian jungles.

External Affairs Minister Green of Canada brought up the question of supply, declaring the need is imperative. Conference sources said he put the issue squarely up to Soviet Foreign Minister Andrei Gromyko.

Rather than assume a stalling attitude before the conference, Gromyko agreed to Green's proposal, these sources said.

Green stressed to the morning session that Canada regarded the question of providing the commission with the necessary facilities to operate effectively as vitally important.

He said the commission request for $200,000 had been granted.

India's delegate V. K. Krishna Menon told reporters Indian and Canadian pilots could fly Western aircraft and Poles the Soviet machines.

India, Canada and Poland make up the control commission.

Green, British foreign minister Lord Hume and French foreign minister Maurice Couve de Murville all left for home after the morning meeting.

Home disclosed to Thursday night's session that the right-wing Laotian delegation had submitted a formal complaint that the leftists were violating the cease-fire. He said the control commission would submit a report on the alleged violation.

**CRITICIZED U.S.**

Meanwhile, the pro-Communist Pathet Lao delegation used the conference as a platform for new attacks on the United States.

Phao Phoumi Vongvichit, leader of the delegation, charged that the United States was threatening the peace in Laos.

Menon, meanwhile, suggested setting up study groups to examine the East-West proposals for a settlement of the Laotian problem.

The Western Big Three, meanwhile, drew up a 4-point plan designed to rid Laos of the North Vietnamese, who they claim sparkplug the rebel Pathet Lao fighters.

## S.A. BANS ALL PUBLIC GATHERINGS

CAPETOWN (CP) — The South African government today banned all public meetings except church services and some other specially permitted gatherings throughout South Africa and South-West Africa for six weeks.

The period—May 19 to June 26—covers the last three days of May when South Africa's non-whites have been called by their leaders to stage work strikes and country-wide protest demonstrations against the proclamation of a new South African republic on May 31.

The Rand Daily Mail said Thursday that the All-African Action Council had ordered non-whites to stockpile food and said the council was considering prolonging the "strike" to 14 days.

## 600 Negroes Behind Wire

JOHANNESBURG (Reuters) — More than 600 Negroes rounded up in a police drive Wednesday against "idler elements" filled barbed wire cages behind a court here Thursday awaiting trial.

It was the biggest number of Negroes arrested for identity document offences since 1,500 persons were detained last year for refusing to carry the documents.

An earlier report said that "several thousand" persons were seized in Wednesday's country-wide roundup and "hundreds" more were arrested Thursday.

There were five cages measuring about 35 feet by 12 feet. The accused were separated into various cages according to the alleged offences.

UN TROOP MOVEMENTS PROTESTED

# Katanga Army Forced Back

ELIZABETHVILLE (AP)—UN troop movements in north Katanga have brought new and heated complaints from the Katanga government.

Charging that UN units have taken over airstrips and are trying to "force the retreat of the Katanga army," Interior Minister Godefroid Munongo said Thursday:

"There are grave differences of opinion between Katanga and the United Nations over the movement of Indian and Malayan troops into the big centres of Northern Katanga.

"It seems these troops are getting direct orders from UN headquarters in Leopoldville and that neither the Katanga government nor the United Nations representative in Elisabethville are being kept informed."

UN sources confirmed that Indian or Malayan troops had taken over the airstrips at Albertville and Nyunzu and said there was "danger of a clash at Nyunzu, where Indian troops are now taking over from the Malayans." But they said Katanga forces apparently have withdrawn from Albertville.

Munongo said the troop movements directly contradict past agreements between Katanga and the UN. He expressed hope that negotiation will resolve the issue.

## Talks Stalemated

BAN NAMONE, Laos (AP)—Laotian peace talks were stalemated again today when the right-wing government changed its position and said that ceasefire details should be discussed before negotiations to form a coalition government.

GENEVA (Reuters)—Russia said today it could not accept the Western draft treaty banning nuclear weapon tests and the sooner the West realized it the better.

# Power Export Not Ruled Out

VANCOUVER (CP)—The federal government has the question on export of electric power under serious consideration and discussion, Trade Minister Hees said Thursday.

"We haven't shut the door for all time against the export of electrical energy," Mr. Hees told a trade conference here in answer to a question from the floor.

He said the government is motivated in its thinking on this subject by the needs of industry developing in Canada.

It was determined to avoid a situation such as cropped up in the past when export of electrical energy was allowed on what was thought to be a short-term basis, but later became an indefinite thing.

When Canada had needed the power concerned, the United States had threatened drastic tariff changes if the export was cut off.

British Columbia Trade and Industry Minister Bonner was asked to comment on the matter, and said only that "I hope the national government in considering this question will remember that we are exporting now 75 per cent more in BTU's (an energy measurement) in gas and oil than we are currently producing in electricity in our entire province".

Export of electrical power has become the topical subject in British Columbia, which has schemes estimated to cost more than $1,000,000,000 to produce hydro-electric energy on the Peace and Columbia Rivers.

## Shortage Due by '66

WASHINGTON (AP)—Congressmen were told Thursday the United States Pacific northwest's current power surplus will disappear by 1966 and a shortage will continue until electricity is available from water stores in Canada.

This report was made to the Senate-House atomic energy committee by Charles F. Luce, Bonneville power administrator.

He urged an early start on nuclear production of power to fill the expected gap.

Mr. Luce said Canada is withholding approval of the water shortage agreement with the United States until its impact on British Columbia can be determined.

CALGARY (CP)—Four food stores in Calgary have issued a form of trading stamps in a challenge to a bill passed at the last session of the Alberta legislature.

## 'HIGH PRICE FOR PRESTIGE'

# TCA Spending Blasted By Vancouver Tories

OTTAWA (CP) — Government supporters sharply questioned the operations of the publicly-owned Trans-Canada Air Lines Thursday in the Commons.

A steep price appears to have been paid for TCA—world's seventh-largest airline—becoming the first all-turbine fleet, said Ernest Broome (PC—Vancouver South.

"Surely we should take a serious look at what certain of these crown corporations are doing—and I refer particularly to TCA," said William Payne (PC—Coast-Capilano).

Mr. Broome said a deficit of $2,600,000 has been mentioned for TCA while the $6,842,000 surplus of last year appeared to have vanished to cover losses on piston-driven craft retired before their time to make way for jets.

Said Mr. Broome:

"Perhaps we are paying a high price for the prestige of having the first all-turbine fleet in the world. Perhaps we are paying a high price for forcing the obsolescence of aircraft such as 12 Super-Constellations."

These have been prematurely consigned to retirement, probably for sale below their real value, he suggested, and "all that surplus of 1960 must have gone because of the fact they had not been in service long enough for the normal depreciation . . ."

**POSITION INFERIOR**

Moreover, a privately-owned competitor, Canadian Pacific Airlines, had a distinctly inferior position beside TCA.

It seemed to be treated like a foreign line, banned from passenger carriage at many points on domestic runs and forced to land at Amsterdam from Vancouver so that west coast passengers flocked to American lines for direct flights to London.

Mr. Payne said TCA was sinking $250,000,000 worth of public funds in new aircraft when CPA — for one — was ready, experienced and able to do the job.

"Surely this is a direction in which the spending of public money is not justified . . .

Should we be paying $250,000,000 for aircraft which private enterprise could provide on a competitive basis for our external and internal air services or should we spend the money on the port facilities of this nation in order to increase the efficiency of our export industry?"

Mr. Payne complained that the port of Vancouver is hog-tied in its efficiency by lack of co-ordinated planning, and said the interests of the railways should be acquired if necessary to facilitate steps necessary to make the harbor into the outlet its present and future demand.

The largest fish caught on a rod and line was a bluefin tuna weighing 977 pounds taken in Nova Scotia waters in 1950.

# Invitation From Mr. Kennedy

IN HIS ADMIRABLE SPEECH to Parliament Mr. Kennedy reminded Canada of its vital interests in the affairs of the western hemisphere. That reminder was needed. The whole region from the Rio Grande southward has been too long a blind spot in Canadian eyes but the Cuban episode should have warned us that we are not immune to events in Latin America.

With a candor unusual in a state visit, the President invites Canada to join the Organization of American States and thus extend its scope throughout the hemisphere.

It would appear from the government's rather cautious statements that it already is considering membership in the OAS. The Liberal opposition has gone further, Mr. Pearson asking whether we can longer afford to evade our hemispheric responsibilities. Mr. St. Laurent, an elder statesman respected in all parties, advises Canada to join the OAS without delay.

The pressure for membership is rapidly building up. Of course there are strong arguments against it. There are strong arguments against any venture in foreign affairs or any additional responsibility, but good reasons must yield to better. The best reason for our presence in the work of the OAS is that we cannot contract out of the hemisphere and its problems and we could contribute something to their solution without weakening our ties with the Commonwealth, NATO or the United Nations.

The United States, says its President, would welcome our membership not because Canada would always agree with American policies—as undoubtedly it would not—but because it would bring a fresh and distinctive viewpoint into the organization. He has good reason to know, from the attitude of both our political parties in the Cuban episode, that Canada will not hesitate to express independent opinions, some of them inconvenient to its powerful neighbor.

But membership in the OAS, as Mr. Kennedy says, would be only one part of the expanding responsibilities, and costs, that cannot be evaded in any case.

He asks us to play a larger part in the affairs of the North Atlantic region and to contribute more to the economic support of the underdeveloped countries. It is a formidable agenda but inescapable for all the free nations if they seriously intend to win the struggle for the world.

The price of our freedom, indeed our survival, will come higher than most Canadians yet realize. The price of failure will come higher still and by its present methods the free world plainly is failing.

About that there can be no argument and fortunately there is no basic argument of principle between our two political parties. It is always difficult, however, to persuade the Canadian, or any other people, that they must invest money, work and risk now to earn dividends later.

Mr. J. M. Macdonnell, a thoughtful Conservative member of Parliament, often sounds like a voice crying in the wilderness when he says that vast new markets would be opened to Canadian goods if the poorer nations could raise their annual per capita income by as little as a dollar a year.

In the meantime—a fact we usually forget—most of the money spent by Canada on foreign soil will be used to provide jobs for Canadians. To take a simple instance, a Canadian locomotive given to India will be built by Canadian workmen of Canadian materials.

All these things, the increasingly complex affairs of the western hemisphere, trading community of the North Atlantic, the progress of the backward peoples, represent those new frontiers of Mr. Kennedy's vision.

In Cuba a young President has suffered a tragic reverse but it is peripheral and temporary and it has not discouraged him from his purposes. He visited Ottawa not to complain or to excuse a grave blunder but only to ask Canada's help in much larger areas and more hopeful projects. Within our means, which are also much larger than we think, Canada dare not, and cannot afford to play less than its full part.

# A Debt By Any Other Name . . .

WHEN MR. BENNETT SAYS British Columbia is out of debt, he can make a technical case to prove his point. At the same time, he knows that the people of British Columbia have never before faced an obligation to pay off as large an amount of provincial borrowings as they do now.

The facts are presented in a sober article, "Public Debt Operations in British Columbia since 1952" written in The Canadian Journal of Economics and Political Science by Mr. Alfred E. Carlsen.

Mr. Carlsen opens his piece with the statements: "In 1952, when a Social Credit Government assumed office in British Columbia, the net public debt stood at $190 million. On August 1, 1959, the public debt was declared nil . . ."

A page or two later he says: "The guaranteed debt in 1952 amounted to approximately $39 million; In 1959 it stood at $540 million, of which over $250 million could be attributed to expenditures considered under previous regimes as direct liabilities."

How has this situation come about? By various fiscal devices and practices introduced by Mr. Bennett. Chief among them is the transfer of new obligations from the column of direct debt in the pre-Social Credit government ledgers to contingent liabilities in the new.

This means that debts previously acknowledged by the province are now debts contracted by the P.G.E., the Toll Authority and the local school boards—with provincial guarantees supporting them.

They still have to be paid by the people of British Columbia, in one form or another.

Mr. Carlsen, the economist, has made his analysis and come to the conclusion often expressed here before—a public debt contracted for provincial services is still a public debt to be met by British Columbians, no matter what form the book-keeping takes or how the interest costs are collected from the public.

# The Losing Fight

REPORTS FROM THE PORTUGUESE west African colony of Angola indicate that the government has embarked on a reign of terror to put down native protests. Whole villages have been ruthlessly wiped out, and one policeman is quoted as saying they are prepared to kill 100,000 natives if necessary to restore "peace."

The Portuguese rule of Angola has been notoriously deficient. There are said to be schools for only one child in a thousand; there has apparently been no attempt to raise the living standards and conditions of the people; the colony has been mined, not developed.

Now Angola, far behind by twentieth century standards, is caught up in the movement that is sweeping Africa and Asia — the swelling demand of backward peoples for a larger share of this century's advantages. The movement can be fought—as it is being fought in Angola and South Africa—but it will not be halted more than temporarily. Portugal is fighting a rear-guard action in Angola.

# Why Sweep It Under the Rug?

SCHOOL TRUSTEE RICHARD Reeve thinks it is unfortunate that newspapers gave publicity to the outbreak of vandalism in Victoria High School which caused $1,593.90 worth of damage.

"We don't normally make incidents of this kind public—not because we deny the right of the public to know, but because by keeping it secret we are in a sense defeating the attempts of these youths to gain some kind of notoriety."

Mr. Reeve automatically raises two questions in the minds of taxpaying Victorians. How many other cases of extensive damage have occurred in the city schools? And how do you keep secret destruction that is apparent to something over 1,000 young students?

Let's have the full glare of publicity on this type of misbehaviour—not to feed the ego of a few punks, but to create the kind of public opinion which will insist on suitable treatment for the offenders. As long as they are making unpunished "heroes" of themselves to the people of their own age, is there much likelihood that they will behave better? Or is there any hope of closer parental supervision if parents are not informed?

### NO TIME TO WAIT

# The Ultimate Will be Instant Instants

THE story has never been told and probably never will be of the two clergymen who went out to the wilds of the South Pacific to minister to the natives. Eventually one of the clergymen died. His body was cremated and his friend undertook to carry the jar of ashes back to this continent. Hardly had the journey started, however, than the small passenger ship foundered. The only survivor was the clergyman, who was able to make his way to a nearby island clutching the jar of ashes. There, to his horror, he found himself surrounded by cannibals. He was led to the village, and a fire was lighted under a huge cauldron. One of the cannibals took the jar from him and handed it to the chief. The chief looked at it, read the name inscribed on the brass plate, took off the lid, poured some of the ashes into his palm and shouted: "Hey, look! Instant missionary!"

Tobin

If the story proves anything and that could be debatable it is that no part of the earth today is safe from the trend toward instant this and instant that. Nobody can wait for anything to mature; nobody has time for completion of processes; possible loss of quality means nothing compared with loss of minutes.

In New York State a small town grocer advertised in his window: "Instant Water." For only 85 cents a quart can, this water, he said, was fine for making instant coffee and was unmatched for outdoor cooking. Apparently he sold quite a few tins to customers eager to save what time might be involved in its use.

In Russia, wine experts announce that they have perfected instant champagne. In only three weeks, they say, they can produce what normally takes three years. Apparently they can make the wine age as rapidly as an agriculture commissar trying to explain to Mr. Khrushchev why he failed to achieve his quota.

With so many instant foods and beverages available today, it is obvious that the idea will spread. But we need not think that the principle is a new one: many examples of it have been with us for a long time.

Though many people do not recognize it, they have been using instant time all their lives. They use it in the form of instant hours, which come broken down into tiny seconds, only one of which needs to be lived at a time.

Then we have instant space. Space in large quantities would be very difficult to manage and would take extra time as well. By a very handy arrangement, we have instant space, which enables us to restrict our worry only to the space that we occupy—a very small portion of the whole.

These aspects, of course, require no effort on our part. Of more practical consideration are the various ways in which we could utilize the same principle in the activities of mankind.

How about instant political political speeches? These might prove a great boon. Political speeches with all the moisture, guff, exaggeration, misstatement, boasting, evasion and just plain lies removed would obviously be reduced to a very small size and would, in this form, save much of the listener's time. The danger here, of course, would be that some speeches would disappear altogether.

Equally a boon would be instant advertising spiels, instant after-dinner addresses, instant royal commission reports, instant personal advice and—hmmm—instant editorial-page columns.

### FROM WASHINGTON

### By WALTER LIPPMANN

# The Problem of Adjusting One's Pride

WITH the Secretary of State at Geneva worrying about the internal politics of Laos and with the Vice-President doing a whirlwind tour of Southeast Asia, it may be useful to try if we can to see the American involvement in its historical perspective. Laos and South Vietnam are two fragments—the other two being Communist North Vietnam and neutralist Cambodia—of what used to be the French colonial empire of Indo-China. Japan overran this empire after the collapse of France in 1940, and although the empire was restored to France after the Japanese surrender in 1945, the defeat of a Western by an Asian power had, as the event proved, fatally destroyed the prestige of France.

Lippmann

During the Japanese occupation the Communist-Nationalist Viet-Minh gathered force, and if it had not been opposed from outside Vietnam, would have controlled the country. A French Expeditionary Corps fought the Viet-Minh from 1945 to 1954, until the costly war was ended by the Geneva agreement of 1954.

By 1953, in the first year of President Eisenhower's administration, it had become plain that the French were losing the Indo-Chinese war. At the turn of the year Secretary Dulles realized that French power was doomed, and that only intervention by the United States could prevent the whole of Indo-China from falling into the hands of the Communists, backed by Red China.

## Dulles Doctrine

It was at this critical juncture that Mr. Dulles proclaimed the celebrated doctrine of "massive retaliations."

The immediate and primary purpose of his speech was not, as has often been said, to save money, to balance the budget, to get "a bigger bang for a buck." The purpose of Mr. Dulles's speech was to protect the fragments of the Indo-Chinese empire against Communist domination without involving American troops in another Korea.

This will be clear to anyone who reads the speech in the light of our current troubles. Mr. Dulles said, for example, that "it is not sound military strategy permanently to commit United States land forces to Asia to a degree that leaves us no strategic reserves."

The Dulles policy, then, was to protect Indo-China by the threat of dropping nuclear bombs on China or Russia or both.

In 1954 this was a workable policy. For while the Soviet Union had broken our nuclear monopoly in 1949, in 1954 it was just about to master the hydrogen bomb and it had no missile force comparable with the bombers of the American Strategic Air Force.

But in the years immediately after 1954, the Soviet Union began to acquire missiles and nuclear weapons in sufficient quantity to change the world balance of power, achieving nuclear parity in place of U.S. supremacy. This was the new situation which caused Churchill and Eden to persuade Eisenhower that an attempt must be made "at the summit" to negotiate a truce in the cold war.

No truce was achieved. But the fact that by 1959, or thereabouts, the United States was no longer supreme, undermined the Dulles doctrine of defending Indo-China by threat of massive retaliations. By 1961 Mr. Kennedy was confronted with the fact that the Eisenhower-Dulles defence of Indo-China was no longer available.

For five or six years they had been able to defend Indo-China without using American troops because of our nuclear supremacy. The problem for Kennedy now is how the fragments of Indo-China could be defended without the nuclear threat and without engaging our troops in another Korean war.

There are some among us who think that Laos and Vietnam could be defended by the threat of opening an American front for another Korean war. They think that Mr. Khrushchev can be intimidated. They are mistaken.

## Nuclear Threat

Eisenhower and Dulles were in a position to use the threat of nuclear weapons because they had a monopoly of nuclear weapons. But Kennedy and Rusk cannot threaten to fight a land war because the Chinese and the Soviets are overwhelmingly superior to any land forces we could engage.

Our threat to fight another Korean war would be bluff which would immediately be called. If we were to send a brigade of Marines into South Vietnam, the Chinese would have no trouble at all in sending two brigades into North Vietnam.

What then can Mr. Kennedy do? Since he cannot defend the old Indo-China by massive retaliations or by committing land forces, he must do what he has been trying to do in Laos since he took office.

He must do what the British and the French and the Indians want him to do. He must try to induce the Soviet Union anl Red China to settle for a "neutralization,' that is to say, an agreement by the great powers not to fight the cold war by proxy inside Laos. Almost certainly it will not be a satisfying arrangement. But does anyone know of a better alternative?

## With Philosophy

We should, I feel, look upon all this with a certain philosophy. As a result of the defeat of both France and Japan in Indo-China we became, without in the least wishing it, the heirs, or let us say, the receivers, of the collapsed and broken Indo-Chinese empire. Since the end of the World War, especially since 1954, we have, without enjoying any of the benefits of empire, experienced all its costs, risks, and frustrations.

We now have to face the problem which the British have faced in their empire, the French in theirs. It is the problem of adjusting one's pride to a recognition that protectorates must go, and then of providing for the independence of the colonial people over whom they are no longer the protectors.

## So Why Hire Them?

I was interested in your article of May 10 edition, under caption "Commercial Grads Deficient—Junior Beatniks Beat the Boss. . . ."

Having worked in offices with this type of young office workers, I am quite familiar with their deficiencies—stenographers with wrongly transcribed notes such as "Your note will be due at maternity," the Left-handed Governor," and other such errors which drive an employer almost to distraction.

Given time and experience many errors will no doubt disappear with continued employment, but in the meantime if business enterprise is not satisfied with the quality of its office help, why does it employ the young and inexperienced in preference to the older and experienced applicants? Any woman today who has reached or passed the age of 40 years, when making application for a position, seldom gets beyond the interview because of the age barrier, regardless of her qualifications.

On one occasion I heard a business man remark while referring to employing older help "I have a woman in my office who is 65 years old and she's a dandy!" It is gratifying to know that one employer recognizes and prefers knowledge, experience, ability and stability in perference to sophisticated youth.

TOO OLD.

## Take It From Scott

The other evening in the Times columnist Norman Cribbens, quoted a story by a Mr. Ward about a Mr. Stuart and his hatred of Campbells. I hasten to set the record straight. The gallant Clan Stuart has never been massacred as all Scots know. The story of the Glencoe Massacre was ably set down by Sir Walter Scott in a poem of that name. I quote:

"A Campbell was he, of a hated clan,
God's curse be on his name
Who to Macdonald's lordly glen
In traitor's errand came.
He had the old man's niece to wife
A love that should have ended strife
And held his hand in kindly proof
And slept beneath his friendly roof."

It may be, of course, that Mr. Stuart was one of the older Scots like my grandfather who would never be under the same roof as a Campbell, although he had no clan kinship with the Macdonalds. And this was less than forty years ago.

Norman Cribbens seldom makes mistakes, and I enjoy his column very much indeed. Long may he be with us.

A CANNY SCOT.

## What Douglas Said

Your pages have recently carried news of the debate presently raging about the "anti-Americanism" of Premier Douglas of Saskatchewan. The discussion on this matter seems largely to have centred around the remarks made by Premier Douglas on the topic of Cuba at the recent New Party banquet. On reading over the transcript of his address, I, for one, gain the impression that it was not so much anti-American as anti-Tory and anti-vested interest. The day that "Tommy" Douglas ceases to be "anti" these things will be a sad one for Canada.

In order that your readers may judge for themselves on this matter, the full transcript of Premier Douglas' comments on Cuba is given below.

"You and I have witnessed some pretty sad things. We saw the rape of Hungary when the Soviet Union moved in. We saw what the Americans did in Guatemala in 1956, when the United States openly supported a revolution to overthrow a government of which they didn't approve. We know what's happened in Cuba.

"A lot of people forget what happened in Cuba. They had a liberal government with a small 'l' under Dr. Martin Ora: the American financial interests with, undoubtedly, the . . . connivance and support of the state department, put Mr. Batista, Sergeant Batista, in charge—the cruellest dictator Cuba ever had.

"They talk now about being worried about dictators. Batista didn't worry them all the years he was in office with his cruel fascist dictatorship.

"Then Castro came along. And Castro got along fine until the day he decided to take over some of the great tracts of land that had been stolen by the United States Fruit Company and give it back to the peasants—and immediately his sugar market was cut off. And when he refused to be dictated to by the Standard Oil Company, an economic embargo was placed on him. Then they began to train troops in Guatemala and Puerto Rico, and even Miami, to invade him.

"I'm not saying Castro is a democrat; he certainly hasn't acted like a democrat. What I am saying is that the main thing against Castro has not been his political actions; they've never minded dictatorships in banana republics.

"The place where Castro got himself in trouble was when he crossed the vested interests of the United States; and the United States now wants to make the world safe for the United Fruit Company and the Standard Oil Company (laughter and applause); and they want to do it under the guise of making the world safe for democracy.

"Laos has been the same story. . . ."

THE LIGHTER SIDE — By DICK WEST

# Lo, the Lowly Peanut

WASHINGTON (UPI)—The House agriculture committee held a hearing recently on a bill whose heading I had to read twice to make certain it wasn't a myopic illusion.

West

According to its title, the measure would "amend the agricultural adjustment act of 1938, as amended, to extend for two years the definition of peanuts."

Well, sir, I have been around Washington since the Truman administration and I am not easily nonplussed. But this bill, I'll admit, had me temporarily flabbergasted.

I couldn't figure out any logical reason why Congress should be involved in the definition of peanuts. Under our free enterprise system, that sort of thing is usually left to the dictionaries.

It was Rep. D. R. (Billy) Matthews, a Florida Democrat and peanut connoisseur, who eventually enabled me to see the light.

In writing farm legislation, Matthews explained, Congress does not necessarily go along with Webster, who defines the peanut as "an erect Brazilian herb with bijugate leaves, hairy stem, and bright-yellow flowers."

For price support purposes, he said, peanuts are defined as all peanuts produced except those produced for "consumption exclusively as boiled peanuts."

The purpose of defining peanuts in this manner is to exempt boiled peanuts from acreage controls.

In the south, Matthews continued, boiled peanuts are regarded as a "delicious delicacy." Many southerners think they are even superior to cracklings as snacks or appetizers.

Peanut farmers have found, however, that they can make more money by growing peanuts for roasting, or for use in peanut candy, peanut butter and peanut oil.

So what they do is plant their entire acreage allotments in peanuts for these uses. Then, taking advantage of the congressional definition of peanuts, they plant a few unallotted acres to satisfy the regional craving for the boiled variety.

That cleared that up, but it left me puzzled on another point. Although I lived in Georgia and Florida for several years and thought I had sampled every southern dish known to man or mammy, I never even heard of boiled peanuts before.

I asked my wife about this and she said it probably was because I lived in big cities. My wife used to be the belle of Siloam, Ga., which is down the road apiece from Social Circle.

She concurred in Matthews' opinion that boiled peanuts are delicious beyond description. Just the mention of them had her taste buds whistling "Dixie."

If you are one of those benighted souls who have never tasted this ambrosia of the peanut belt, you may be pleased to learn that relief is on the way. A couple of firms now are putting boiled peanuts on the market in cans.

BATTLE OF GIANTS LOOMS

# CNR Chief to Face Critics

**By ROBERT RICE**

OTTAWA (CP)—CNR President Donald Gordon comes to the capital soon to confront his parliamentary critics.

DONALD GORDON
. . . 'formidable foe'

For the 12th time, the fighting Scot will step before the sessional Commons committee on railways, air lines and shipping — probably some time in the next two weeks.

But this time—perhaps more than ever before—the 59-year-old ruler of a $3,000,000,000 rail empire faces a rough ride from MPs.

There will almost certainly be a strong "Gordon must go" group among the 26 MPs on the committee.

Some of them have been arming themselves with information for a real slugfest with the outspoken president of the publicly-owned railway.

Many of his critics wil come from the government side of the Commons.

**GIANTS MAY CLASH**

But in the public mind, it seems to be shaping up as a battle of the heavyweights — Donald Gordon, six-foot, four inches, 240 pounds, versus Douglas Fisher, six-foot, five inches, 265 pounds.

It could be a paradoxical conflict, with free enterpriser Gordon defending the publicly-owned railway as a business firm against socialist Fisher who has confessed to "grave doubts" about the management of the CNR.

Mr. Gordon enters the ring with a $67,300,000 deficit for 1960 around his neck—a loss he blames on a continent-wide drop in surface shipments last year.

He also may face his critics as a man whose job has not been formally renewed by government. When the Progressive Conservative government decided to add five new directors to the CNR board, it left his reappointment standing open.

There has been speculation lately, however, that Mr. Gordon will be confirmed again in the post he first took on in 1950—a date, he once confessed to MPs, "that is engraved in my heart."

MPs admit he is a formidable man to confront in committee.

**ISSUED CHALLENGE**

"Nobody ever did anything worthwhile by pussy-footing," Mr. Gordon once said.

And, at another time, he told the Commons committee:

"Is the management of the CNR an efficient management or otherwise? If you come to the conclusion it is not, for God's sake tell us and fire the lot of us."

Thursday night in the Commons, Jack H. Horner (PC—Acadia) compared Mr. Gordon with the coach of a demoralized, losing ball team.

"They are always firing coaches to improve the morale and get the winning spirit back in the team," he said.

"I think this applies to the CNR. We must fire the coach to improve the morale of the team."

Whether MPs will act on such advice remains to be seen when the committee meets.

HOME GARDEN — By HILDA BEASTALL

# Case of the Missing Seedlings

Gardeners in many districts are being frustrated by having certain of their young seedling plants practically disappear overnight after being set out into the garden.

Hilda

Some of the plants which have been mentioned are lettuce, marigolds and even tomatoes.

When things of any kind disappear during the night, the sensible action to take is to lay in wait for the marauders.

There are two predators of garden plants which work at night—slugs and earwigs.

During these first warm days the chief offenders are young earwigs. They are out in droves, and all are hungry. They will eat succulent tips and leaves of practically any plant, especially those which have been raised indoors.

They spend the days in the top inch of dry, warm soil or beneath the low leaves of any plant, but after dark they come out to dine.

A few visits with a flashlight after dark, between 10 and 12 p.m. to young plants in an area in which trouble has been noticed will usually disclose these small pests feeding.

Young earwigs do not closely resemble the adults, at least to my eyes. They are about a half inch long, and of a greyish brown color.

Once they are discovered to be the cause of the trouble, a freshly made earwig bait which is available at some of the feed stores should be put into small cans lying on their sides near the plants.

In the morning, dead earwigs will be found. The cans prevent birds from being attracted by the bran which is one of the ingredients of the bait.

A spray containing chlordane will protect young plants, and I have found dead adult earwigs among the seedlings thus treated. The plants soon grow large enough and strong enough to resist the odd bite.

Slug bait may be put down near lettuce in a similar manner if either the large or small slugs are found to be the trouble. The metaldehyde contained in slug bait does not actually kill the pests, but renders them inactive until morning, when the gardener must make the rounds to dispose of them by whatever means most suited to his or her temperament!

## 'Some Lands Flooded'

OTTAWA (CP)—Citizenship Minister Fairclough said Wednesday some Indian reservation lands and graveyards may be flooded as a result of Columbia River development in the Okanagan area of British Columbia. But, she said, details will not be known until formal applications are made and the land involved is surveyed. She was replying in the Commons to Frank Howard (CCF—Skeena).

# Economic Trouble Faces Red China

WASHINGTON (UPI)—Red China is in serious economic trouble, according to information received in Washington.

American officials said today that the Peking regime was being forced by successive crop failures into greater dependence on Russia.

There are some indications that Moscow is making sure that its Far East partner acknowledge this dependence and all that it means to Sino-Soviet relations.

Red Chinese leader Mao Tse-tung's "great leap forward industrialization drive, already slowed by earlier difficulties, will stall unless Soviet premier Nikita Khrushchev comes to the rescue, officials here believe.

**RECESSED**

Negotiations on this year's Soviet aid agreement were recessed in Peiping in March, resumed in Moscow in April and still have not been concluded.

Possibly because of this delay, the annual spring announcement of Communist China's production achievements for the previous year and goals for the new year still has not been made.

Red China's bare foreign exchange treasury and prospects of mounting trade deficits leave it no alternative but to seek more help from Moscow, U.S. official said.

American officials do not interpret these troubles for the Communist regime as indication that its days are numbered. They are inclined to dismiss as wishful thinking the notion that hard times in China will touch off popular revolt.

# Pacific Pete Out to End Red Ink

By GORDON BELL
Times Business Editor

Gordon Bell

Determination of the new Pacific Petroleums Ltd. management to turn the long-standing red ink on the account books into black is reflected in the statement of president John Getwood in the annual report that "Pacific will reach a profit position in the current fiscal year."

After more than a decade of rapid expansion which has put this largest Canadian independent into second rank among Canadian gas producers and eighth in production of crude oil, as well as showing sizeable yearly deficits, it is apparent that a great consolidation movement is taking place.

It has been no secret that many shareholders, particularly those south of the border, have been growing more impatient each year with a situation which has brought about continued growth but no return on shareholder investment.

With the acquisition by Pacific of the Phillips Petroleum and Sunray Oil Canadian properties and the placing of Mr. Getwood a Phillips man in charge, the change in direction of the company was started.

**HIGHEST IN HISTORY**

Report for the fiscal year ended Feb. 28 showed a 66 per cent increase in the company's cash income which rose from $11,428,450 in 1959-60, to $18,972,287 last year. Cash earnings increased 85 per cent and were the highest in company history while net loss was reduced 37 per cent from $3,921,895 to $2,856,604.

Oil production is expected to be considerably boosted when the new crude oil and products line is completed from the Peace River to Vancouver and intensive drilling will be done this summer to develop the company's oil holdings in B.C. Initial Pacific deliveries when the new pipeline is in operation are expected to be 4,000 barrels daily.

Proved reserves as of Feb. 28 were 112 million barrels of crude and natural gas liquids and 1.3 trillion cubic feet of natural gas compared with 76 million barrels of oil and .5 trillion cubic feet of gas.

Mr. Getgood served notice that Pacific intends to expand its manufacturing and marketing operations which are now mostly confined to the Peace River area and along the Alaska Highway.

**PRODUCTION UP**

The company reported substantial increases in production. At the end of the fiscal year daily average gas production was at the rate of 156,400,000 cubic feet, more than double that of the preceding February. Crude oil production was up 31 per cent at 14,398 barrels. Much of the increase, of course, was accounted for by the Phillips and Sunray properties.

Even with increased sales, gas and oil reserves were both increased substantially during the year.

Report from All-Canadian Dividend Fund and All-Canadian Compound Fund in Vancouver shows an increase of 20 per cent in net value per share for the first four months of 1961.

According to D. W. Mitchel, vice-president and managing director of Capital Management Ltd., manager of the two funds, the performance so far this year points to increased dividend income predicated, of course, on continuing recovery of the North American economy.

★ ★ ★

Although none of the West Coast grain elevator operators are anxious on their own to increase capacity to handle the Red China wheat deal, there seems to be a chance that the federal government will step in and boost capacity by as much as 25 per cent on its own hook—using public revenues of course.

The operators apparently are not convinced that the long-term outlook for the grain trade warrants additional investment in terminal facilities, particularly in view of the fact that no firm contract for grain to China exists beyond the end of this year.

Some of the present mainland elevators were built by the National Harbors Board and leased to private operators and it is on these facilities that expansion will likely take place.

A boost of 25 per cent in capacity would give a total capacity of about 29 or 30 million bushels.

Interim report from Westates Petroleum Company for the first quarter of this year shows an increase of 10 per cent in earnings compared with last year's first quarter.

Net was $201,073 or about 3½ cents per common share after provision for preferred stock.

The report says Westates plans to participate in an expanded program of exploratory drilling and plans to acquire additional undeveloped acreage.

Torwest Resources has issued a report saying development on its 72-claim Marb group adjoining Craigmont is proceeding on time and directors are confident of proving up an ore body.

MARKET SUMMARIES

# Toronto, Wall St. Witness Recovery

Both Toronto and Wall Street markets recovered today from Thursday's decline as the result of profit-taking.

On the plus side at Toronto, General Motors rose ¾ to 48 as did Canadian Bank of Commerce to 67. Bank of Montreal gained ½ to 65.

Trading was moderate at New York as Dupont was up 4 and Consolidated Denison around 2. Ford rebounded from Thursday's setback and rose about 2. Steels were mostly higher.

**AT TORONTO** mining trading was heavy. Falconbridge fell ⅝ to 56⅝, and Denison ¼ to 10¼. Consolidated gained ⅛ to 26¼ and Gunnar 20 cents to $8.70.

Gold trading was light with few major changes.

In western oil trading, Calgary and Edmonton rose ⅛ to 17½, while Dome fell 15 cents to $7.95 and Central Del Rio five cents to $6.85.

**AT NEW YORK** among Canadian issues, Walker Gooderham was off ½, Granby Mining ¼ and Hudson Bay Mining ⅜. International Nickel gained ½.

American exchange prices advanced in fairly active trading. Jupiter Oils and Brazilian Traction were up ⅛ and Canadian Marconi was off the same fraction in a narrowly mixed Canadian list.

**AT MONTREAL** pipe lines and refining oils jumped ahead on the stock exchange today in active trading. Other sections improved fractionally.

**AT LONDON** the stock market ended the week with generally unsettled conditions. Losses in equities were light but fairly widespread.

Industrials were generally lower but losses were mostly small. Interest in gilt-edged securities remained low.

**AT VANCOUVER** mines were varied and prices mixed during the morning. Oils showed some activity. Industrials were quiet. Charter moved at $1.17. Vantor was at 22. Bralorne went to $6. Pacific Nickel traded at 85. Trojan went at 16½. Massey-Ferguson sold at $13.75.

# TODAY'S GRAIN

WINNIPEG (CP) — Flax prices were firm in moderately active trade today on the Winnipeg grain exchange.

Trading was on a domestic basis on the oats and barley markets.

The sale of 600,000 bushels of wheat to Austria was also reported.

Overnight export loadings of Canadian wheat: China 905,000, Czechoslovakia 800,000, Norway 175,000, United Kingdom, a small lot.

Lakehead prices for class two, IWA and domestic wheat were all unchanged from Thursday.

### B.C. TRADE CONFERENCE TOLD

# U.S. Defence Business Open to Us

VANCOUVER (CP)—Canadian manufacturers are sharing in United States defence business and have every opportunity to get a larger share, a federal defence production department officer said here Thursday.

"Defence production sharing is off the ground," said T. J. R. Robinson, west coast representative for Canada's defence production department.

He was addressing more than 200 British Columbia businessmen at a one-day trade conference, where Trade Minister Hees and 18 members of his staff from Ottawa, including his deputy minister and various departmental officers, took part in discussions of ways of improving both domestic and export trade.

"The defence-production industry in the U.S. has all kinds of money," Mr. Robinson said, "and we can get some of it. All we have to do is bid competitively."

He illustrated his remarks by placing before the conference specifications for three defence-production jobs in the U.S. and asking anyone there interested to pick them up and enter bids. Two were for small lumber-supply contracts for use in ship construction at Bremerton, Wash. The other was a large electrical-supply order involving 96 units. Mr. Robinson didn't identify it further.

He said his office in Los Angeles covers 11 western states and Texas and within that area there are four fields through which Canadian firms can bid for U.S. defence production contracts—the department of defence production procurement agencies; the army ordinance corps; the U.S. Navy; and the prime defence contractors.

He said $8,000,000,000 was spent last year in the U.S. for purchase of defence supplies, exclusive of the money spent on maintaining the armed forces.

# 'Industry Must Show Initiative'

VANCOUVER (CP)—Canadian business and industry must show the initiative and imagination necessary to meet world trade competition or face the possibility of a socialist economy, federal Trade Minister Hees warned Thursday.

He said in a luncheon address to 200 businessmen attending an industrial and trade promotion conference here:

"If we don't show the initiative, willingness to work harder and take a chance, then we are opening the door wide for a different kind of economic system . . . based on rigid economic control."

There were two fields in which businessmen could expand their sales if they were willing to produce quality products at a competitive price and to get out and do some selling.

One was the export market where Canadian trade commissioners would guarantee sales of competitive goods. The other was the domestic market where Canadian industry must produce quality goods that the Canadian people want to buy.

He said the era when customers clammered for Canadian products is gone forever. Canada must now learn by the example of the countries which once were her best customers but now are her strongest competitors.

Japan and Western European countries had come back from almost 100 per cent unemployment to full employment in 15 years, he said.

They did it by co-operation between government, management and labor and they did it on a practical, not theoretical basis.

He said the industrialists in these countries did not lie back and call on government to solve their problems as so many people in Canada are doing.

# BOND ISSUE SUCCESS

OTTAWA (UPI)—Finance Minister Fleming said today the federal government's new $200 million short-term bond issue has been a success.

The 3½ per cent bonds due Dec. 15, 1962, were offered at a price of 98.75 per cent to yield about 4.35 per cent to maturity.

Fifty million dollars of the issue had been previously sold to the Bank of Canada. The remaining $110 million was offered for cash and Fleming said the offer was over-subscribed.

*DUNCAN SURVEY RESULTS*

# Shoppers Suggest Store Improvements

DUNCAN—Stores here have been rated by district shoppers as behind those of Victoria, Nanaimo and Vancouver, according to a survey conducted by the retail section of Duncan-Cowichan Chamber of Commerce.

However, 60 per cent of the cross-section of residents "quizzed" for the survey said the shopping facilities are "average."

The shoppers complained of cluttered aisles in grocery stores; expressed a need for elevators or escalators in two-story buildings, and said they would like a greater selection of goods. About 70 per cent agreed that the handling of complaints is inadequate.

Suggestions for improving the situation included provision of an all-day parking area for local workers, an all-night restaurant, and uniform closing hours.

The chamber is sending copies of the report to Duncan city council and North Cowichan municipal council. It will set up a special committee to analyze the report and determine steps to be taken to implement its recommendations.

## Eight Island Nurses Graduate At Vancouver

Eight Island girls are included in a list of graduates from the Vancouver General Hospital School of Nursing, among them four from Victoria.

Wendy Bedford Bigelow, Donna May Krasney, Pearl Anne Raels and Louise Winterburn, all of Victoria, were among the graduates, as were Faith Agnes Louise D'Arcy, of Parksville; Patricia Cairney, of Port Alberni; Linda Irene Dahl, of Yarrow; Solvieg Ruth Kristian, of Nanaimo.

# ISLAND DIGEST

## Powerboat Racing Plan Approved

CHEMAINUS — Despite objections from lakeside residents, Chemainus Kinsmen Club and Chemainus-Crofton Chamber of Commerce, North Cowichan council this week agreed to support powerboat racing on Fullers Lake July 2.

It stipulated, though, that safety precautions be taken, and that racing be restricted to between noon and 6 p.m. on the one day.

Sponsor of the race program is the Chemainus July 1 Celebrations Committee.

James Irving, who appeared before council on behalf of the race organizers, said he was amazed at the objection from the Kinsmen Club.

"I had charge of a petition in favor of the races, and at least 20 members of the Kinsmen Club signed it," he said. Noise from the boats will be "nil," he said.

## Rites Saturday For Former Hospital Head

DUNCAN—Ferguson Hoey, former administrator of King's Daughters' Hospital, died this week in the Veterans' Hospital in Victoria.

He was employed by J. H. Whittome & Co. for almost 30 years, and until his retirement to Victoria recently, was manager of the stocks and bonds department.

He was best known for his service to the hospital. He was a director from 1948 to 1951, administrator from 1951 to 1955, then a director for another two years.

His two sons, Trevor and Major Charles F. Hoey, VC, were killed in the Second World War. Surviving are the widow, 1231A Beach Drive, Victoria; and six grandchildren.

A private funeral will be held at Port Alberni Saturday.

## Everett Band To Parade

PORT ALBERNI — Annual Victoria Day parade, which promises to be the largest in the 27-year history of the celebration, will start here at noon and finish at Stirling Park in Alberni.

Feature of the afternoon program will be the crowning of May Queen Sherry Green.

Everett High School Band from Washington will take a large part in the program. Its dance orchestra will play at Alberni Athletic Hall Saturday night, and the whole band will appear with Alberni Valley High School Band in a concert Sunday afternoon. Both will march in the parade.

Children's sports are set for Saturday afternoon and finalists in the Elks' talent show will be on the Monday program.

Sponsors of the three-day holiday event are the Elks and ladies of the Royal Purple.

## GYMKHANA PLANNED AT PT. ALBERNI

PORT ALBERNI — A gymkhana will be held June 11 at Recreation Park under joint auspices of Alberni Valley Riders' Club and the Junior Chamber of Commerce.

Committee in charge of the event, expected to be the largest gymkhana ever staged here, includes Dave Smith, chairman; Bill McKenzie, treasurer, and Mrs. Pat Gardener, secretary.

Judge will be Bob Shanks, Victoria, and Bob Batty of Duncan will represent the Canadian Horse Shows' Association.

### EVEN BEFORE PEACE

# Planned Economy Need for Canada

Canada must build a new, planned economy to get back "in touch" with the rest of the world, New Party MP Walter Pitman said here Thursday.

He told an Esquimalt-Saanich byelection campaign meeting at Mount View High School that other countries have got fine welfare services which politicians in Canada describe as "pie in sky."

"They've done it through planning. We can do fabulous things in science and technology, but we can't put food into the mouths of hungry people."

To redirect the home economy will mean sacrifices, said Mr. Pitman.

**SACRIFICES**

"We'll have to make sacrifices if we're going to win the race against Communism."

At the moment, said Mr. Pitman, immediate disarmament would throw 2,000,000 Canadians out of work. "A planned economy must precede a peaceful economy," he said.

"We must prove first we can solve our problems at home."

In the meantime, Canada should give her excesses to needy nations abroad.

New Party candidate Glen Hamilton said while Canada's enterprise is "bursting at the seams," public enterprise—social capital for schools and services—is starving.

On the international scene, he said: "We must abandon present defence policies based on the implication we are going to fight the third world war."

"War is now completely obsolete."

The United Nations should be the world's true peacekeeper, and Canada should contribute her armed forces as a UN police force.

## Randolph Churchill Divorces 2nd Wife

LONDON (UPI)—Sir Winston Churchill's journalist son, Randolph, 49, is petitioning for divorce from his 38-year-old second wife, June, for desertion, it was disclosed Thursday.

The Churchills were married in 1948 and have an 11-year-old daughter.

Randolph's first marriage, to the former Pamela Digby, ended in divorce on the same grounds in 1946 after seven years.

## EXILES FAVOR CASTRO DEAL ON CAPTIVES

MIAMI, Fla. (AP)—Cuban exiles today favored taking up Fidel Castro's offer to free the invasion captives for 500 American bulldozers, but they differed on who should do it.

An anti-Castro school teachers organization pledged $800—$1 for each member—Thursday toward buying the bulldozers.

A Cuban editor in exile had a different reaction.

Sergio Carbo, editor of Prensa Libre, said the United States should take up Castro's offer at once and suggested Kennedy "take Castro's offer into consideration without delay."

### VOLUNTEER APPEARANCE

# Washington Bands Perform for Veterans

Two of the out-of-town bands making their first appearance at a Victoria Day parade Monday are from Washington State.

Seattle's Evergreen Senior High School band and Edmonds High School band are among the groups which have volunteered to perform for patients at Veterans' Hospital Sunday.

They appear at 2 p.m. with Ballard Girls' drill team and the 36-member Vernon Girls' Trumpet Band.

The familiar Cleveland High School band, also from Seattle, will appear Sunday evening at DVA hospital, to accompany its drill team in an exhibition.

Miss Victoria and her princesses will go to DVA sometime during the day, and to Queen Alexandra Solarium to see crippled children.

The queen's first appearance Sunday will be at Beacon Hill Park band concert, immediately following her coronation in front of the legislature.

## Quebec Jurist Dies

QUEBEC (CP)—Hon. Albert Sevigny, 80, a dominant figure of Quebec's judiciary for 40 years, died Sunday in hospital of a cerebral haemorrhage. The tall, wiry lawyer, whose brilliant political career in the Conservative party was cut short by the anti-conscription upheaval in Quebec in 1917, was appointed to the Quebec Superior Court in 1921. He became chief justice in 1942.

# New Laws Asked In Hotel Strike

TORONTO (CP)—The Toronto District Labor Council Thursday night called for emergency legislation outlawing strikebreakers as the Royal York Hotel announced its success with replacements for strikers.

The council urged the Ontario Federation of Labor to seek strong legislation outlawing strikebreakers and called on the Canadian Labor Congress to have all its members shun the hotel.

As the strike entered its 25th day, the gulf between management and strikers widened. Angus MacKinnon, manager of the hotel, sent a telegram hinting that most of the 1,200 strikers have already lost their jobs.

The telegram replied to a union proposal for renewal negotiations Wednesday. Local 299 of the Hotel and Club Employees Union (CLC) made a bid for peace talks after 900 strikebreakers were reported running the 1,600-room hotel smoothly.

The manager said the hotel would resume negotiations only on the understanding that the strikers would return as jobs became available, with seniority erased.

A. R. Johnstone, Canadian vice-president of the union, said the telegram has turned enthusiastic strikers into dedicated strikers.

The striking employees want a 10-cent hourly wage increase over three years, but the hotel has refused to offer more than 2½ cents.

# Worth Saves Again

As long as Art Worth remembers to bring his right arm to the ball park, Transport Workers are going to be difficult to get along with in the Senior Amateur Baseball League.

He used it in relief—for a second straight time—against Naval Vets Thursday. The result was a narrow 12-11 victory at Royal Athletic Park.

Manager-relief hurler Worth came on in the fifth inning Naval Vets threatened to blow the game apart.

Vets picked away at him but he held on just long enough for Transports to post their second straight win.

A split doubleheader is scheduled Saturday. Transports play unbeaten Douglas Hotel at 2 p.m. Vets and Wakeman Trimble tangle in the second at 6.30 p.m. Both games are at Royal Athletic Park.

# Game for Every Palate On Holiday Sports Card

## SIDELINE SLANTS BY Doug Peden

Don't be too quick to blame the rookies for the number of goals racked up against our lacrosse club this season.

Nobody predicted the Vics were going to set the inter-city circuit on fire this summer and the new recruits have been faring as well as had been expected. At least they have been hustling both ways, along with some of the hold-overs.

But defensive work by a trio of experienced campaigners has been pathetic and is hurting. Collecting goals is only part of the game and scoring records of past seasons aren't going to scare any of the other guys this year.

Return of Whitey Severson next week should certainly help to settle the Vics down on attack. Tom English may be back and rugged-checking Tommy Druce is also thinking of stepping back into the boxla battles. Another big boost would be in the return of Al Gill, the best collector of loose balls in the loop and a talented two-way workman, but Al says he hasn't time to consider a comeback.

However, just bringing back veterans isn't going to fashion a winning club. They can help, but coach Arnie Ferguson is working on a team for the future. This has to be mainly a youthful squad and the younger veterans and rookies must form the backbone.

As expected, Fergie has injected new discipline and spirit into the club and the Vics, even while losing, are more interesting to watch than they were last year. If they can acquire confidence to go along with their hustle, they could lure a number of former boxla fans back into Memorial Arena.

### Colorful and Champion Promoter

Another link with the boisterous, colorful days of sports was severed this week with the death in Ottawa of Tommy Gorman, perhaps the champion of Canadian entertainment promoters.

A quick-thinking, always-optimistic man, Gorman quit a job as sports editor because pounding a typewriter didn't produce enough money and went on to cash in on the promotion end of hockey, baseball, horse racing, and even figure skating.

Tommy, then manager of the Canadiens, was a good friend to me when I spent the winter of 1939 in Montreal. He always seemed happy, usually bubbled with ideas and old-timers can tell you dozens of stories about his colorful career.

They might mention the time while Gorman was managing Chicago Black Hawks and the teams had arrived in Montreal for a game.

* * *

**Chicago left-winger Paul Thompson looked up from a paper he was reading and remarked:**

**"They certainly like you in this town. This paper says you're a genius and one of the greatest hockey managers in history."**

**"Not surprising at all," said Tommy, who never forgot how to use a typewriter. "I wrote that story myself."**

* * *

Perhaps the one Gorman's former cronies like to tell best is of the time he went to New York to manage the old New York Americans for Tex Rickard.

He wrote stories for the Manhattan papers about a full-blooded Indian who could really scorch the ice and didn't mind using a hockey stick for a tomahawk. Hockey was new in the big city and New Yorkers eagerly absorbed Tommy's tales.

Before the opening game, he had a couple of ambulances parked outside Madison Square Garden. Just a precaution, Gorman explained, because a lot of blood might be spilled.

Tommy's Indian was a flop, the ambulances were not needed, but the Garden was jammed to the rafters.

While in Toronto for a television show a couple of months ago, Tommy said he was writing a book. Here's hoping he finished it, because it should make interesting reading.

* * *

**WRAPPING IT UP:** Joe Gorman, brother of Tommy, once worked as sports editor with **The Daily Times,** arriving in **Victoria** when pro hockey started in the city in 1911. Joe served in the **RAF** during the **First World War** and was killed in **Italy** while demonstrating a new type of machine . . . **Lynn Eves,** Victoria sprinter who competed in last summer's **Olympic Games** at Rome, is being touted as the outstanding freshman on **Oregon State** track team . . . **Emile "The Cat" Francis,** who once kept goal for **Victoria Cougars,** is reported a prime candidate for the job of coaching the new **Los Angeles** club in the **Western Hockey League** . . . Perhaps it's just about time for somebody to suggest that **Coley Hall**—who can have a WHL franchise at **San Francisco** but may not have any ice if **Cow Palace** directors keep stalling about installing an ice plant—consider placing a team in Victoria next winter.

### British Cricketer Slows Up Aussies

CAMBRIDGE, England (Reuters) — Mike Brearley, 19-year-old wicketkeeper promoted to No. 1 from No. 8 in the Cambridge University batting order, led a successful fight by his side to stave off defeat by the Australian cricket touring team Thursday.

He batted magnificently for 73 out of his side's 230 in the first innings and was 69 not out at the close when Cambridge were 120 for three and still needed 99 runs to avoid an innings defeat.

Victoria sports fans can run a gauntlet of games during the Victoria Day weekend.

There's both variety and quantity. The schedule of events ranges from softball and baseball to auto racing, boxing, cricket, soccer and even boxing.

And, of course, those who shun spectator sports can find their pleasure seeking salmon or playing golf.

Boxing, generally regarded as a winter season activity, elbows into the crowded holiday program with a 10-bout card at Royal Athletic Park on Monday.

Sponsored by Sertoma Boxing Club, it will be the first outdoor card promoted in Victoria in more than 10 years.

Soccer stays on the scene with Victoria All-Stars, continuing their warmup campaign in preparation for a June date with Birmingham City of the English League, meeting an all-star aggregation from Seattle in an exhibition match at Macdonald Park Saturday afternoon.

**COMBINED MEET**

Car racers will also have their fling.

A combined stock-sprint car doubleheader will feature auto dashes at Western Speedway Saturday night and Monday afternoon.

Cyclists will wheel around Beacon Hill Park for their annual Victoria Day weekend meet on Saturday and the cricket fraternity will hammer in stumps for regular league matches.

And wherever there's a park available, the balance of the schedule will be dominated by the ball hawks. The usual lengthy list of minor baseball games will be reeled off, but the highlight is a senior Amateur League doubleheader at Royal Athletic Park on Saturday.

The minute details, including time and place, may be found in the sports menu printed elsewhere on these pages.

### Jock Suspended

VANCOUVER (CP) — Jockey Celestino Dominguez Thursday was handed a three-day suspension by Exhibition Park racing stewards for a careless ride in last Monday's two-year-old race. Dominguez' mount came third. A newcomer to Vancouver he will be unable to accept mounts May 20, 22 or 24.

### MITT CARD MONDAY

## Do You Wanna Step Outside?

Victoria fight fans who like their boxing without the customary "smoke screen" of indoor auditoriums have an opportunity Monday to see their first outdoor fight program here in the last 10 years.

A 10-bout card has been scheduled by Sertoma Boxing Club for Royal Athletic Park. First bout starts at 2.30 p.m.

Promoter Bert Wilkinson has been negotiating with some of Vancouver's top amateur boxers to share the ring spotlight with the cream of the local crop.

There will be two five-round bouts and eight three-round scraps.

Canadian Army light-heavyweight champion Larry Cardinal will be tested by Victoria's talented Dan McDonald, runner-up in the B.C. finals, in one five-rounder.

The second will pit Sertoma's Al Curtis, a former champion and B.C. Golden Boy against Bob McNeill of PPCLI, army champion, in a middleweight match.

In three other bouts:

Lightweight Tom Black, Victoria, former B.C. champion and 1961 Island champion and Golden Boy, meets Stan Williams of Vancouver; Mike Caird of Victoria swaps blows with Dave Valleau of Colwood, and Harry Hinz, Sertoma middleweight, tests Sig Fischer of Vancouver.

LARRY CARDINAL . . . in action Monday

LOS ANGELES—Tony Herrera, 126 Los Angeles, outpointed Irish Johnny Cate, 125, San Francisco, 10.

### Susan Loses In Doubles

PARIS (AP)—America's Ron Holmberg advanced to the fourth round of the French international tennis tournament Thursday along with Italy's Nicola Pietrangeli, Australia's Rod Laver and other touring stars.

Holmberg needed four sets to dispose of Chaldi Lachen, of Morocco, 3-6, 6-1, 6-0, 6-3, in a third-round match.

Pietrangeli, star of Italy's Davis Cup upset victory over the United States last year, defeated John Newcombe, of Australia, 6-2, 6-2, 6-4.

Laver, beaten by Pietrangeli in four sets in the finals of the Italian tournament at Turin, Monday, eliminated Eduardo Soriano, of Argentina, 6-2, 6-3, 10-8.

Canada's entry in the women's doubles, Susan Butt, of Victoria, and Eleanor Dodge, of Montreal, lost their first-round match to France's Maud Galtier and Danielle Wild, 6-3, 4-6, 7-5.

### PREAKNESS STEEPED IN TRADITION

## 'Cart Horse' Started it

By OSCAR FRALEY

NEW YORK (UPI)—They'll run a race Saturday which is named after "a cart horse" who was shot to death by an English duke in a fit of anger.

It's the Preakness, to be staged at Baltimore's Pimlico race course. And it's run by the Maryland Jockey Club, whose races were attended by George Washington and of which Andrew Jackson was a member.

So maybe it isn't strange, at that, in its having a more fully chronicled history than most families.

Preakness, the horse, never had won a race when he captured Pimlico's inaugural stakes event in 1870. Prior to the canter he was referred to by one contemporary journalist as a "cart horse." Subsequently he was sent to England and purchased by the Duke of Hamilton, who, enraged by the horse's fractiousness, shot him dead in his stall.

Known as "Old Hilltop," Pimlico has a number of rather delightful Preakness Day customs.

During the race, a painter waits beside the metal weather-vane of horse and jockey atop the clubhouse. As soon as the race ends, the winner's colors are painted on the metal jockey.

Also, the winner is draped in a blanket of state flowers, namely black-eyed Susans. But, at this time of year, these flowers are not in season. The "black-eyed Susans" are wild daisies painted the appropriate colors—with shoe polish.

Carry Back, winner of the Kentucky Derby, is favored to win this year's Preakness which will be carried by CBS radio and television at 2.45 p.m., PDST.

# Skip Feels Sting Of Tommy's Whip

### MacKay Receives Fine, Suspension From Boxla Brass

NEW WESTMINSTER—Nanaimo's lacrosse supporters, who found cause to gripe at what was termed "sissified officiating" earlier this season, are ready to fire more verbal barbs at the Inter-City League's officialdom.

Most of them, probably, will be directed at ICLL commissioner Tommy Gordon, who Thursday night set down Nanaimo's skip MacKay with the stiffest penalty ever meted out by the league.

Gordon, putting teeth into his pre-season warning that the league was going to crack down on rough play and referee-baiters, suspended MacKay for 12 games and also fined the Nanaimo defenceman $200 for striking referee Doug Bamborough in a game in Victoria on May 11.

**SECOND TIME**

Earlier, MacKay was given a three-game suspension for a high-sticking mix-up in an earlier game this season.

And if the suspension wasn't enough, the Nanaimo club suffered more indignity by dropping a 19-10 decision to New Westminster.

The setback, before about 2,500 fans in New Westminster, was the fifth in seven games for the Island team. It was the seventh straight victory for the Royal City.

**TIED AT HALF**

Nanaimo opened fast Thursday and took a quick three-goal lead in the first five minutes. The Island club led 4-2 at the end of the first period, but New Westminster struggled back to a 6-6 tie by the end of half time.

The third period was all New Westminster's as they scored seven unanswered goals to make it 13-6 going into the last session.

Rookie Doug Wallsmith was top scorer for New Westminster with four goals. Captain Cliff Sepka has three goals and four assists and linemate Ivan Stewart had three goals and two assists.

Lisle Scott, Roy Bianco, Don Ashbee and Tom McVie—playing his first game—each had two goals for Nanaimo.

Goalie Les Norman, who was uncomfortable in the opening stages for New Westminster, grew stronger as the game wore on and stopped a total of 46 shots, including 17 in the third period. At the other end, Merv Schweitzer handled 37 New Westminster shots.

### Slammer Leading Festival

WHITE SULPHUR SPRINGS, W. Va. (AP)—Ageless Sam Snead shook off the rain and carved a five-under-par 65 Thursday to take a two-stroke lead in the first round of the Sam Snead Golf Festival.

The 46-year-old home professional was two strokes ahead of Bob Watson, a 37-year-old club professional from Elmsford, N.Y. Another stroke back were Gary Player of South Africa, Peter Thomson of Australia and Mickey Homa of Rye, N.Y.

Those five, together with Bob Toski, who had a 69, were the only ones in the field of 71 to break par.

"I've won about as many tournaments in the rain, sleet and mud as I have in good weather," said Snead, who canned 20-foot and 12-foot putts for two of his six birdies but stuck most of his approach shots close to the pin.

Stan Leonard of Vancouver was one of the 10 golfers tied for 23rd place with 73.

### Cyclists Scramble

Victoria Motorcycle Club will hold a scramble at old Colwood race track Monday at 2 p.m. More than 25 entries are expected.

### GENE STANDS OUT

## Bosox' Conley Tames Tigers

He's six feet, eight inches tall and he stands out for the Red Sox this year like the Empire State Building on the Boston Common.

He's Gene Conley, of course, and he still maintains his touch as a star baseball pitcher even if his career as a pro basketball player is very much in jeopardy.

Conley, who helped Boston Celtics win the National Basketball Association championship last season and recently was picked up by the newly-formed Chicago Packers, isn't sure about his basketball future but his baseball skills are still sufficient to bring a smile to the face of the much-harassed Red Sox manager, Mike Higgins.

Conley demonstrated Thursday night that he still has the "star touch" in baseball with a brilliant four-hitter that earned the Red Sox a 1-0 victory over the American League leading Detroit Tigers. It was Conley's second win of the year and reduced the Tigers' first-place lead over the idle New York Yankees to four and a half games.

Kansas City Athletics edged out Minnesota Twins, 4-3, and Chicago White Sox beat Los Angeles Angels, 6-4, in the only other major league action.

**NIFTY MOUND CHORE**

Conley walked only two batters and struck out five for the weak-hitting Red Sox. He got the only run he needed in the fifth inning when Pete Runnels singled and Don Buddin followed with a long double to right field.

The Tigers, who had scored 29 runs in their three previous games, threatened in the fourth inning when Rocky Colavito walked with two out and Norm Cash singled. Conley, however, induced Steve Boros to fly to rightfielder Jackie Jensen for the final out.

Jensen had two doubles for the Red Sox who tagged AL strikeout king Jim Bunning with his fourth loss of the season compared to two wins.

McKEESPORT, Pa.—Freddie Martinovich, Pittsburgh, outpointed Dick Diveronica, Syracuse, N.Y., 10. Lightweights.

# TEE TOPICS

By ERNIE FEDORUK

Victoria's Inter-Club Golf League launches its third season next Wednesday, and the thing that continues to surprise me is the mounting enthusiasm that competitors display.

The hot-shots love this one.

Gorge Vale is defending the Willie Park Driver, donated by Walt Gravlin, and the Esquimalt course team is again regarded as the one to beat.

This year, there are two changes in the competition involving six-man teams from Gorge, Royal Colwood, Uplands and Victoria Club.

Matches will be played on Wednesday evenings instead of on Mondays as in past years, and the second inovation is the fact that the order of play is to be announced before the matches. The latter will give the public a chance to see who's playing whom.

Following is the inter-club schedule:

May 24—Colwood at Victoria; Gorge Vale at Uplands.
May 31—Victoria at Gorge Vale; Uplands at Colwood.
June 7—Colwood at Gorge Vale; Uplands at Victoria.

Colwood president Don Ross and R. A. (Robbie) Robison came up with aces on the same day at Oak Bay last week, and when you sum it all up the two veteran golfers waited a total of 110 years before recording their first hole-in-one.

Robbie waited 67 years before he dropped his tee shot into the cup on the eighth. Ross, playing in a foursome with George Bigelow, Roger Ross and Fred Ranson, ended a 43-year wait when he aced the 14th later the same day.

TCA executive Bob Kolb kept up the barrage this week by acing the second while playing with Art Ousman, Pat Lanigan and Jack Cook.

Another hole-in-one this week was credited to Archie McMillan. He connected on the 130-yard sixth at Cedar Hill while playing with Murray Macdonald.

Four experienced pros couldn't break par, and that may attest to the toughness of Bill Mattick's new pitch-and-putt course at Cordova Bay.

Ron MacLeod and Laurie Carroll combined for a one-under-par 26 in their best-ball match last week against Joe Pryke and Bill Court.

Perhaps the best tribute to Mattick's efforts was the remark one pro made after the official opening: "I thought I was going out to visit a cow pasture," he bluntly stated, "but the course really amazed me."

May Mattick forgive us all.

## Bye Bye BOGIES

by BOB ROSBURG

### Stroke-Saver

On pitch shots, always try to make the ball take its first bounce on the putting surface by playing it with a club that will clear the fringe of the green.

Always hit the ball with the clubhead accelerating. This will eliminate the tendency to baby the shot, which is by far the biggest fault the average golfer has with this type of approach. This can be done by shortening the backswing and making sure the wrists remain firm, but not rigid, throughout the swing.

Concentrate on the chip.

More strokes can be saved by its correct execution than by any other shot in golf.

# Farmer Firing Turns Jay Into Blue Bird

When Norm Curran and Stan Stewart are in a hitting mood there is little an opposing pitcher can do but throw and duck.

Larry Jay did a lot of throwing — and ducking — Thursday as Curran and Stewart stroked Farmers to a 9-3 victory over Sooke in a Senior A Men's Softball League game.

Curran poled a three-run homer and a triple for four runs-batted-in. Stewart slammed a homer, triple and single in Farmers' 14-hit attack on Jay.

The loss dropped Sooke from the unbeaten ranks and out of first place.

A seventh-inning single by Don Pimlott drove in the winning run as Half Way House nipped Navy 11-10 in a Senior B League squeaker at Heywood Park.

# Variety Runs At Speedway On Weekend

Casual drivers are warned to keep away from Western Speedway this weekend.

If they don't, they could easily be run over by stock cars, sprint cars and cyclists.

Fourteen stockers and 10 sprint cars are scheduled to burn the asphalt Saturday night. Gil Philardi, Ray Pottinger, Red Burke, Jack Milner and Bud Hopkins are among stock drivers due to make their first appearance of the season.

An added attraction will be an Olympic style bike race with 16 riders from Victoria and Vancouver competing.

A feature of the Monday program—time trials start at 1.30—will be the season's first demolition race.

# Tourney Demand For Name Pros Starts Rhubarb

WHITE SULPHUR SPRINGS, W. Va. (AP) — Everybody running a tournament these days wants Masters champion Gary Player of South Africa and U.S. Open king Arnold Palmer, and that's causing golf's biggest rhubarb of the spring.

Three tournaments are listed for June 1-4. They are the International Cup matches at San Juan, Puerto Rico, involving 34 countries, the Professional Golfers Association co-sponsored $30,000 Memphis Open and the PGA-unapproved $15,000 pro-amateur at Odessa, Tex. The Puerto Rico matches are sponsored by the International Golf Association.

"The conflict involves more than 20 players," J. Edwin Carter, PGA tournament director, said Thursday.

**NEED PERMISSION**

"Arnold Palmer, (U.S. Open champion), Gary Player (Masters champion from South Africa) and Stan Leonard (who is to represent Canada in San Juan) needed permission from both the PGA and Memphis Open officials to play in the cup matches.

"Mark Vorder Brueggs, president of the Colonial Country Club of Memphis, appeared before the PGA executive committee last Tuesday in Hollywood, Fla., and made a formal protest. He requested that the contract between the PGA and Memphis Open officials be lived up to the spirit and letter."

**HOW'S THAT**

What does this mean?

"It means," said Carter, "that the golfers involved are subject to six months' suspension from PGA play plus a $500 fine if they play in a tournament other than the Memphis Open two weeks from today."

"It seems this controversy centers around Snead and Palmer," Leonard said. "I've been asked to compete in the (international) matches and I told the Memphis people about two weeks ago that I was sorry I couldn't make it down there. So far, I haven't heard a thing from the PGA.

"But how can the PGA make fish of one and fowl of another? I do feel sorry for the Memphis people. At the same time, the other thing is an international tournament and I don't see how they (the PGA) could make anything stick by threatening penalties."

Player declined to discuss the PGA stand.

"I'm a foreigner . . . just a visitor here," Player said, "and I'd rather not say anything."

**CHANCE NEEDED**

Snead, golf's elder statesman, declared that the current hassle "shows the need for a change in the rules" of the PGA.

"These international matches should take precedence," Snead said. "They create goodwill for the United States and if those fellows are penalized for participating, it will hurt golf."

Palmer said he had "made no pledge at any time to play in Memphis."

"I think I owe it to the U.S. as a member of the defending championship team to play in the International," Palmer said.

"If it doesn't get settled, the boys can make more money with exhibitions than playing in tournaments if they're suspended," Snead declared.

# 'SHOE' ONLY ONE STEP FROM ELITE 4,000 CLUB

INGLEWOOD, Calif. (AP)—Jockey Willie Shoemaker scored with three mounts at Hollywood Park Thursday and now is only one victory away from reaching the 4,000-mark.

Shoemaker is about to join a select circle that includes Johnny Longden, granddaddy of them all, who has won more races than anyone; Sir Gordon Richards of England, and Eddie Arcaro.

Shoemaker is only 29 and the remarkable part of his brilliant career is that he will reach 4,000 in approximately 12 years on the race track. It took Longden and Arcaro 20 or more years to win 3,000.

(A PLUS) "TUNES OF GLORY" (Odeon): Any who appreciate the many ramifications of the art of acting cannot help but be amazed by the multi-facets of Sir Alec Guinness. Never is he the same in any two pictures and almost never is he Guinness.

In the English-made Lopert production, "Tunes of Glory," he turns in possibly one of the most powerful performances of his career as the ranker who arose to become colonel of his tradition-bound Scots regiment. It is small wonder, in retrospect, that he was nominated for a U.S. Academy Award.

But "Tunes of Glory" is more than a scale upon which Sir Alec demonstrates his art. It's a cracking good story about the fight for control of the regiment between the demoted Guinness and the new commanding officer, played superbly by John Mills. Between them they build up to high tension, the ranker versus the old school tie gentleman, one crude and rough, the other a disciplinarian and a master of manners.

To some the play may seem of small moment for the plot requires a certain understanding. Of love interest there is little, although Susannah York acquits herself nicely as Guinness' daughter in love with a ranker. And the ending is not calculated to leave anyone standing up cheering.

On the other hand others will sense in these professional soldiers who devote their lives to the defence of their country, the loneliness, frustrations, petty grievances and utter waste that abound in peace, the very paradoxes that make them so often so utterly superb in war.

## Guns to Fire Royal Salute For 'Patron'

A 21-gun royal salute to the memory of Victoria's patron Queen will be fired by 105 mm. guns of the 5th Independent Medium Battery on the stroke of noon Monday.

A detachment of gunners and four mobile guns in command of Lieut. J. A. Wilson will take up positions on the Causeway, following the Victoria Day parade, in which they and some 250 militia and cadet personnel will take part.

Four units of 25 Militia Group will march in the parade's biggest-ever military section.

Led by the 35-piece band of the 5th, wearing their blues and striking white pith helmets, the units will include a company of artillery, 25 Group Headquarters Unit, the Canadian Scottish Regiment (Princess Mary's) and pipe band, and the vehicles and personnel of 155 Canadian Army Service Corps who will march with women of the CWAC.

## PRIZE FILM BY CANADA KEPT HIDDEN

MONTREAL (CP)—The National Film Board has received word that it has won a grand prize at the International Film Festival at Cannes for its documentary film, The Days of Whisky Gap.

The film has not yet been seen by Canadians. It was scheduled on the CBC last fall, but had to be cancelled because of the World Series. It now is scheduled to be shown by the CBC June 7.

A spokesman for the NFB said the half-hour film deals with settlement of the Canadian West and the trek of the Northwest Mounted Police to Western Canada in 1874. The Mounties were called to restore law and order when whisky traders and horse thieves were causing trouble among the Indians and settlers.

## Well-Known Organist Plays Here

Another in a brilliant succession of organ solo recitals is scheduled for Saturday night at Christ Church Cathedral, this time by a distinguished Commonwealth musician, H. Hugh Bancroft, Mus. Bach., FRCO.

Mr. Bancroft is at present organist of All Saints Cathedral, Edmonton. His long and comprehensive experience in his art, however, has included the posts of organist at Sydney Cathedral in Australia, where he was also director of the Boys' Choir School, Nassau Cathedral in the Bahamas, St. Matthew's, Winnipeg, and Christ Church, Vancouver.

During the period he spent in Australia, Mr. Bancroft was a featured soloist at Sydney's Town Hall, performing on its famous organ at symphonic concerts under the baton of Sir Eugene Goossens.

**RECITALIST**

In Canada he is a well-known radio recitalist and is the composer of a number of anthems which are often sung in churches from coast to coast.

Outspoken in his searching comments on church music, he is a great believer in the value of training boys' voices in the church. In this field his work has been notably successful.

Saturday's recital will begin at 8.

CORNER ENTERTAINMENT

## Street Dancing On Parade Route

Championship square dancers will be taking part in pre-parade entertainment at six downtown intersections Victoria Day.

They are Doug George's Swinging 8s, who were Teen Town Festival senior champions at Nanaimo recently, and a combined group — Alma Squares and Colwood Square Wheels, who were pre-teen champions at Nanaimo.

The 48 dancers, aged 8 to 18, will perform in relays aboard a flat deck truck.

Another parade feature with a rural flavor will be a half-dozen sheep herded by two Border Collie dogs entered by trainer Michael Williams, of Langford.

There will also be a group of leashed Labradors escorted by pretty girls.

If the weather holds, the two-hour parade is expected to draw a record crowd.

To help those with cars, Victoria North Kiwanis Club will sponsor 25c parking at both Eaton's and Hudson's Bay Co. parking buildings.

## STUDENTS MUST REWRITE EXAMS

VANCOUVER (CP)—Thirty-five University of British Columbia engineering students whose examination papers were stolen last month will write them again in September.

The UBC Senate has ruled the students will be re-examined the week after the university opens Sept. 18.

Their papers were stolen from a professor's office last month, the day after they were written.

Authorities believe the culprit was a student who thought he flunked.

## AUDIENCE GOT LAUGHS NOT ACTORS

MONTREAL (CP)—Eugene O'Neill's three-act tragedy, Desire Under the Elms, turned out to have some humorous moments when it was performed at the Dominion Drama Festival Thursday night by the St. Catharines, Ont., Community Theatre.

For instance, the audience laughed at the climax when the old man pointed to his wife and his son and said to the sheriff "take them both."

Adjudicator Michel St. Denis told the audience "it was not entirely your fault if you laughed. The performance did not succeed in being the tragedy it should be."

## Goodwill Trip Off

SEOUL, South Korea (Reuters)—A planned goodwill visit by British and New Zealand warships to South Korea has been cancelled "because of the recent development in South Korea," the British Embassy said here today.

Most Rambler Salesmen are not on our payroll

When a new Rambler "Classic" arrives in the neighbourhood, it always seems to become the centre of attraction, and its owner never tires of showing it off. Soon all the neighbors know all about his Rambler's Single-Unit Construction, that does away with rattles even on the roughest roads. They learn how the Rambler "Classic's" convenient size and manoeuvrability makes for easy parking. They experience its comfort, with plenty of room for six big passengers and the reclining seats which make a ride in a Rambler "Classic" such a relaxing experience. They even find out about the low cost of owning a Rambler "Classic" in terms of purchase price, gasoline economy and maintenance. Rambler owners want to share their good fortune, that's why the first Rambler in the neighbourhood never stays alone for long. If you are reluctant to approach a Rambler owner directly see your nearest Rambler Dealer, who will be glad to introduce you to one. He and a ride in his car are sure to convince you that a Rambler "Classic" is the best value for your automobile dollar today.

# 'FRISCO 'QUAKE ORPHAN NEVER FOUND IDENTITY

**LOS ANGELES (UPI) — Mervin Collier, 55, who was found as a baby among the rubble of the San Francisco earthquake, died Thursday without ever having found out who he really was.**

**Mrs. Helen Wilson, a friend, said the Colliers found the baby among some rubble in San Francisco on April 18, 1906. Attempts to trace the infant's identity failed, so they named him Mervin Collier.**

**A few days before he died, Collier told Mrs. Wilson: "I guess who I really am doesn't matter much now."**

**SHE'S TOO FAT,** says Hollywood trade paper Daily Variety of actress Jo Morrow, and was fired for violating a unique contract with Columbia Studios which decreed her weight was not to exceed 132 pounds, her hips 37 inches and her waistline 24 inches. Jo and Columbia Studios deny the report and say the parting was amicable. According to Variety Jo's weight got up to 145 but Jo says it was only 138.

## Sent to Jail as Spy

KARLSRUHE, West Germany (Reuters) — A former refugee from Hungary during the anti-Communist uprising there in 1956 was today sentenced to two years hard-labor for betraying American military secrets to the Hungarian secret service.

The judge said 24-year-old Istvan Meszaros had "gravely endangered the security of the American armed forces in the federal republic of West Germany."

### TRANSISTOR RADIOS INCLUDED

# Japan to Extend Export Controls

OTTAWA (CP) — Japanese agreement to maintain for 1961 last year's export quota levels on most controlled textile products to transistor radios and radio and TV receiving tubes was announced in the Commons today by Finance Minister Fleming.

He also announced a sharp reduction in the agreed amount of imports of Japanese stainless steel flatware to 642,000 dozen pieces from 1,150,000 dozen last year.

The announcement followed extended negotiations on the 1961 "voluntary controls", to be applied by Japan on shipments of specified goods to Canada. These controls were begun several years ago after Canada complained her industries were being unduly hurt by certain Japanese imports.

Last fall Japan agreed to a complete embargo on transistor radios and radio and TV receiving tubes pending agreement on quota controls.

A letter from Japanese Ambassador Toru Hagiwara said export quotas for almost all of the textile products have been continued at 1960 levels, "taking into consideration the adverse conditions in the Canadian textile industry and the general economic situation in Canada."

"With the improvement of the situation in the Canadian market my government will naturally anticipate gradual increases in these export quotas in future years."

The new quota on transistor radios for 1961 provides for the import of a maximum 395,000 radios with three or more transistors. The quota for radio and TV receiving tubes was set at 2,500,000 units.

The Japanese note said, however, that it is understood this quota will not apply to tubes not manufactured in Canada.

# COURT RULES WOMAN NOT ANASTASIA

HAMBURG, West Germany (Reuters)—The Hamburg civil court has rejected the claim of Anna Anderson to be the grand duchess Anastasia, the only surviving descendant of the last Russian Czar and heir to the czarist millions.

The decision ended a three and one-half-year case in which 61-year-old Mrs. Anderson maintained she had escaped when the Czar and all his family were murdered during the Russian revolution.

## Veterans Oppose Separatist Move

MONTREAL (CP) — Veterans of Quebec's Royal 22nd Regiment Thursday night spoke out against the separatist movement advocated by three Quebec organizations.

L'Amicale du Royal 22nd Regiment passed a resolution "protesting energetically against this group of malcontents which aims at destroying everything we have built up with so many sacrifices."

## HANGINGS 'MURDER'

TORONTO (CP) — Warden John Braithwaite of Haney Correctional Institution in British Columbia Wednesday termed capital punishment the worst kind of premeditated murder known to mankind.

Mr. Braithwaite, here for the Canadian Congress of Corrections, said condemned prisoners are kept in perfect condition prior to execution, given specially nourishing food and examined by a physician three times daily.

He added he has found that relatives of murder victims seldom bear any hatred against the murderers and usually do not demand capital punishment.

## Prisons Should Hire More Women

TORONTO (CP) — Canada's youngest warden said Thursday he would like to see more women on the staffs of jails and penitentiaries.

Warden J. W. Braithwaite of Haney Correctional Institution in British Columbia made the statement in an interview at the Canadian Congress of Corrections here.

When men are isolated from any association with women, "their dress, behavior and attitudes are bound to slip," Mr. Braithwaite said.

In a talk earlier to administrators and wardens at the congress, Mr. Braithwaite said no field of public service suffers from as great a lack of public relations as corrections. He said penal institutions should advertise their successes because the press emphasizes their failures.

### EICHMANN TRIAL

## Nazis Blitzed Yugoslav Jews

JERUSALEM (AP) — Adolf Eichmann's commandos were geared to move at such lightning speed that they cracked down on Yugoslavia's Jews only two days after the German armies rolled in, a witness at Eichmann's trial testified today.

Alexander Arnon, 53, former Jewish leader in Croatia, testified that the German tanks smashed into Zagreb on April 9, 1941, "at 3 o'clock in the afternoon."

"At five o'clock Croatian independence was declared under martial law," he continued.

"On April 11, the Gestapo came to the Jewish community, seized all the money and placed everyone under arrest."

Anti-Jewish measures ensued with rapidity until most of Yugoslavia's 75,000 Jews were caught in one net or another.

In Croatia, the fascist ustachi, together with the "volks Deutsche"—citizens of German origin, collaborated in the Nazi program, the witness said.

**VOICE BITTER**

Arnon said with bitterness in his voice that the Nazi persecution destroyed Jewish life which had developed for generations.

His testimony together with that of another survivor, Dr. Hinko Salz, 55, was presented to depict events in Yugoslavia rather than as direct evidence against the defendant charged with directing the extermination of Europe's Jewry in the Second World War.

The link-up was provided in documents offered by Deputy Attorney-General Ya'akov Bar'or. These Nazi files showed the German Embassy in occupied Yugoslavia prodded Berlin for help in deporting Jews and Eichmann himself was sent there to speed things up.

## AIR CRASH KILLS SOVIET ARMY BRASS

MOSCOW (UPI) — The Soviet defence ministry announced Thursday the deaths of four Soviet generals and a colonel in an "aircraft accident" while "carrying out their duties."

The dead included army Gen. V. U. Kolpakchi, a Second World War army commander and hero of the Soviet Union. More recently, he had been an official at the defence ministry.

Others killed were: Colonel General S. N. Perevertkin, Lt.-Gen. of Artillery V. I. Goffe, Maj.-Gen. A. P. Morozov, and Col. V. M. Khilkhovsky.

## Surplus Fund Wanted for Auditorium

A suggestion that $14,000 remaining from Greater Victoria centennial committee funds in 1958 be saved for a civic auditorium was endorsed Wednesday night by Victoria Labor Council.

Discussion on the matter arose when a council delegate acting on the Senior Citizens' Campaign Council suggested the money go toward a recreation centre for the aged.

Another delegate proposed the sum be put toward a new senior citizens' housing unit on Tolmie Ave.

Secretary A. W. Toone suggested the auditorium as being a previously endorsed plan. The structure "is so badly needed in this area," and would benefit everyone, including older people, he pointed out.

## Foreign Minister Held Long Term

BERN (AP) — Max Petitpierre of Switzerland, dean of the world's foreign ministers, announced Tuesday he will retire June 30 after more than 16 years in office. Pettitpierre took over the federal political department, as Switzerland's foreign ministry is called, Feb. 2, 1945. Of the world's foreign ministers who were in office then, he is the only one still holding the post today.

# 'Chatterton Told To Dodge Issues'

Prime Minister Diefenbaker's public relations adviser, came to Esquimalt Saanich early in the byelection campaign to advise Conservative George Chatterton to dodge major issues, B.C. Liberal Leader Ray Perrault said Thursday.

"I am amazed and shocked to find that the government candidate in this riding is running pell mell from the key questions of this byelection," Mr. Perrault told a meeting at Langford community hall.

"For some reason and this must be government strategy from on high—he has avoided any and all discussion of the issues which are truly meaningful."

These issues include unemployment, trade and defence, and the government's record, said Mr. Perrault.

**'BY DEFAULT'**

By avoiding them, he said, Mr. Chatterton apparently hopes to win "by default."

Mr. Perrault said Allister Grosart, Mr. Diefenbaker's adviser, came to the riding "a few weeks ago" to bring the order to "lay low."

"The prime minister who brought in the Bill of Rights to guarantee free speech does not want his man to defend or even try to defend these policies," said Mr. Perrault.

"The Diefenbaker who promised there would be no unemployment or that no one would suffer from it, should visit some of the missions in Vancouver where there are hungry men getting meals every night. The prime minister should come here and see the 13 per cent unemployed."

The prime minister should come and see the effect on the B.C. economy of his government's "protectionist" trade policy which favors eastern Canada and fails on the international market, said Mr. Perrault.

Liberal candidate David Groos told the meeting the Conservatives had "squandered away our inheritance."

"We are in the position of a man with no money in the bank living beyond his means, owing and borrowing still more to keep going."

## BLUE-WATER SHIPS FROM GREECE, BRITAIN, ITALY VISITORS TO ISLAND DOCKS

International nature of shipping activity in Victoria area is highlighted by representatives of Greece, Britain and Italy. At Government Graving Dock in Esquimalt Harbor is giant Princess Sophie, pride of the Niarchos tanker hierarchy, undergoing annual scrape, paint and survey by Victoria Machinery Depot Ltd. Photo looking aft from bridge shows about two thirds of 860 foot length; beam of 115 feet left only 18 inches clearance at each side as ship was docked. Princess Sophie was built in Quincy, Mass., for $24,000,000, is of 71,282 tons, carries 550,000 barrels of oil from Persian Gulf to California refineries. Photo at right shows Royal Mail Lines' luxury freighter Loch Loyal, regularly employed in the U.K.-Pacific Northwest trade, and one of the newest Italian ships, Antonio Pacinotti, at Ogden Point. While both are primarily freighters, they are equipped with luxury passenger accommodation for those who enjoy leisurely voyaging. (Times Photos by Strickland and Halkett.)

## MONTE ROBERTS

Having been associated with the newspaper business for a year or two, or possibly even more, it is only natural that I am approached from time to time by young people asking:

**"What do you think about entering the newspaper business?"**

In each and almost every case, I reply as follows:

"Why not?"

However, I am told this reply is not sufficient to qualify me as a career counselor, so possibly I should elaborate—especially as College Graduates are now coming off the assembly line, loaded with knowledge, culture, and ambition.

My further, considered advice to those young people who think they would like to become associated with the newspaper business, is:

Specialize.

Learn a lot about a little, and you'll go a long way on short work.

**Just as one example, it is a little known fact that newspapers employ a specialist whose only job is to keep a keen eye out for heat waves.**

This may sound easy, at first glance, but it requires a great deal of perseverance combined with alertness and speed both of foot and of typing fingers.

The heat wave specialist on this newspaper, for instance (I will not name him, as anonymity is his stock in trade) must be trigger-fast to detect a heat-wave and get it into the paper before the rains come.

As this is written, the day before today, it seems entirely possible that our heat-wave editor will have to spring into action and record the hottest May 19 ever to fall on a Friday since records were kept except for the year the head meteorologist spilled his morning coffee on the thermometer.

This is an exacting, demanding job, yet I recommend it to young people interested in the newspaper business because it is so rewarding.

There is nothing quite so exciting as reading an eight column headline CITY SWELTERS IN RECORD HEAT over a story researched and written by you, yourself.

**Mind you, the next day you'll be putting on your rain hat, tying up your galoshes, and wishing for storm windows.**

But you will have the satisfaction of a job well done—the detection of a heat wave in time to record it in the public prints before it (the heat wave) goes away.

The heat wave editor has an enviable job—not too much to do other than pouncing quickly when the stats demand.

The only shortcoming to this job is a recent trend to make a heat wave editor double as the cold-snap editor.

**But this can be overcome by taking your holiday in the winter.**

A handbag containing approximately $155 has been stolen from a city woman's home.

City police said Mrs. B. M. Brown, 308 Montreal, reported the loss Thursday afternoon and thinks someone got into the house while she was gardening earlier in the day.

There was some $120 in a folder and $35 in a wallett. The handbag was in Mrs. Brown's bedroom.

**Mayor Percy Scurrah today said he hopes council will take speedy remedial action to correct downtown blight.**

**He said a recently-released urban renewal report on the area showed "things were much worse than anyone realized."**

**"As soon as we get the final report and recommendations this summer, I hope remedial action will be taken by council as far as our finances will allow."**

Western Heating Products Ltd., 825 Broughton, represented by S. T. Anderson, was fined $25 plus $3.50 costs in city police court today for failing to file a 1959 income tax return.

* * *

Victoria city police ambulance had a busy time for an hour this morning.

The emergency vehicle was called to 1465 Bay at 9.25 a.m. and took Mrs. Mary Luscombe, 51, to Royal Jubilee Hospital with a broken left ankle.

At 10.40 a.m. the car was called to 3021 Quadra and Mrs. Helen Young, 48, was taken to St. Joseph's Hospital with a cut on the right side of her head.

Mrs. Luscombe was held for X-rays and Mrs. Young was treated and released.

Monday's meeting of the Esquimalt Golden Age Club has been postponed until Wednesday at 2 p.m. in the Community Hall.

* * *

Donald C. Paterson, 1843 Crescent, was fined $50 in city police court today for failing to give a statement of earnings over a period of a week while collecting unemployment insurance benefits.

Several hundred Indians representing bands from scattered parts of B.C.'s coastal mainland and Washington, are expected to attend the Vancouver Island Indian Festival at Maple Bank Park, Sunday and Monday.

Chief John Albany said the program of entertainment will start each day at 1 p.m. and a "High Mass" will be held for the braves before the sports get underway.

Apart from spectacular war canoe races to be held in Esquimalt harbor, the festival will feature many types of ceremonial dances.

One of the dancers is 87-year-old Chief Charlie Jones of the Port Renfrew Band.

Failure of a main transformer Friday between 9.30 and 10.20 p.m., left hundreds of homes in Oak Bay and the northeastern part of the city without lights.

Power was restored by a B.C. Electric service crew. The faulty transformer was at King's Road and Rose Street.

# WATERS 'COMBED' FOR PAIR

## Many Search In Boat Mystery

A squadron of 14 boats and one aircraft today combed the waters adjacent to Sidney Island and other islands east of North Saanich for signs of a Victoria couple missing and feared drowned.

They were identified by RCMP as Robert M. Neaves, 24, a Liquor Control Board employee, and his wife, Helen, 19, of 123 South Turner Street.

Wednesday at 3 p.m. they left Randle's Landing on Shoal Harbor in a boat belonging to a friend, but powered by Neaves' outboard. At 8.30 p.m. it was spotted from the air by Lieut.-Cmdr. David Slader, commanding officer of VC922 reserve naval air squadron, who was attracted by the wake from the tight circles it was describing.

**VOLUNTEERS**

Taking part in the search today were the RCMP boats Victoria and Sidney, and the Victoria's high-speed tender which hunted along the shorelines; the RCMP Goose aircraft from Patricia Bay, and 11 private boats whose owners volunteered for the search.

According to Randle Mathews, proprietor of the landing, Neaves was a skilled cod fisherman who used to go fishing regularly with a friend, but he could not swim.

Mr. Mathews had given the couple two life jackets when they left, and they were found in the boat, along with salmon fishing gear and their seven-month-old German shepherd dog.

**SPORT FISHING**

Mr. Neaves and his friend built identical boats for their cod fishing — square-ended punts," Mr. Mathews explained. "The Neaves were planning on some sport fishing and took the friend's boat because it was drier."

It is believed that one of them went overboard, and the other was lost in trying to give help. Mr. Neaves was a good boatman, according to neighbors, and while his wife did little fishing, he had recently given her a trout rod.

Mr. Neaves' father, Charles, is at Bralone. His grandmother, Mrs. Eliza Neaves, was born on San Juan Island.

His wife was the daughter of Mr. and Mrs. Edward Klat, 915 Market, and worked at Henry Birks & Sons Ltd. on Yates Street. They were married last Oct. 1.

## *HEAT WAVE ENDING IN SIGHT*

**Temperatures soared to 80 in downtown Victoria at noon today, and the "modest" official thermometer on Gonzales Hill registered 74 for the second straight day, a record for this time of year.**

**But the end is in sight, temperature-wise.**

**Official forecasting from Victoria's weather man, William Mackie, indicates that the heat wave will gradually subside into more usual temperatures for May, and there may even be some clouds around if you get up early enough over the weekend.**

**Nevertheless, Victorians can look forward to good sunny weather over the holiday, with clear skies at least until everyone is safely back at work.**

## Premier Bennett Goes 'On Stage' In Campaign

Premier Bennett speaks tonight in an attempt to "whoop up" the Esquimalt-Saanich by-election campaign.

He is the star attraction at the type of rally which he holds in provincial elections—with band music and entertainment.

The meeting is a Belmont High School, Colwood. Doors open 7.30, entertainment to 8.30, then the premier and candidate George Hahn.

Another political meeting tonight at 8, will feature Dewdney MLA Dave Barrett and New Party candidate Glen Hamilton. It is at Mount Tolmie CCF Hall.

Don Poirier, the Socialist Party of Canada candidate, has meeting also at 8 at Luxton Hall.

## Quadra Preferred Over Blanshard

Strong opposition to proposed extension of Blanshard Street was voiced today in a surprise move by public works chairman Ald. Geoffrey Edgelow.

He expressed fears the project might sink almost $1,000,000 of city money into a development that benefitted a Saanich shopping centre more than it helped Victoria.

Ald Edgelow said Quadra Street was a much more logical artery for development as an alternate main route into the city.

"We need a new look at this whole Blanshard Street proposal for several reasons," he said.

**NO ACTION**

The proposal received generally favorable reaction from aldermen when it was first raised but council did not take any action on it at budget sessions. It was deleted from the budget recommendations of public works committee with the suggestion that the money should be raised by a money bylaw.

"I think there are a number of serious disadvantages to the Blanshard plan and several advantages to substituting Quadra," said Ald. Edgelow.

"First, the Blanshard extension would join Douglas alongside the Dominion Construction shopping plaza in Saanich and I don't think we should spend almost $1,000,000 to attract motorists and tourists there instead of to the city."

**DISADVANTAGES**

Ald. Edgelow said other disadvantages were:

"It would cause serious congestion at the Patricia Bay Highway-Trans Canada Highway-Douglas Street terminal; it was too close to Douglas Street; it would jeopardize S. J. Willis Junior High School and Topaz Park grounds, and it would create a financing problem.

"Saanich council's policy decision to widen and develop Quadra changes the picture entirely," he said. "They've already begun a program of widening their side of Quadra and we are doing our side."

**LOGICAL CHOICE**

Ald. Edgelow maintained Quadra was the logical artery for development of a second main entrance to Victoria because the government ferries have made Patricia Bay Highway the main route to the area instead of the Trans-Canada Highway.

"The provincial government already has begun widening a portion of the highway near the Quadra intersection to four lanes so it would be natural to peel off two two-lane roads at that point — one going down Douglas and the other down Quadra."

He pointed out the city would have practically nothing more to spend on developing Quadra into a second entrance and Saanich could qualify for substantial provincial government assistance for its portion of the development.

## Second Party Of Perjury Case Continues Today

A preliminary hearing into a charge of conspiring to perjure was still in progress in city police court at press time today.

Sandor and Winnifred Domokos, 670 Battery, are jointly charged with conspiring to perjure in the case of an alleged assault by Mr. Domokos against W. A. Scott, 1062 Newport, which was dismissed in city police court in March.

Charged with the same offence, in the same case, Mrs. Beryl Ann Fisher, 544 Simcoe, was committed for trial in a higher court Tuesday after a preliminary hearing last week.

## Library Closed

Victoria Public Library will be closed all day Monday owing to the Victoria Day holiday.

## Fewer Forest Fires This Year

Warm weather is gradually pushing up the fire hazard in B.C.'s forests, but damage and costs still are far below 1960's.

The B.C. Forest Service reported today that 34 fires across the province this week cost $2,660. There have been 119 fires since May 1, costing $9,220 compared with 208 fires costing $22,973 at this time last year.

The fire hazard today is low to moderate in the Vancouver, Prince Rupert and Prince George districts. Elsewhere it is low.

There are 31 fires still burning, but all are minor.

Although a warm weather forecast will increase the danger of fires, it is expected to be at least two weeks before the situation could become serious in any area.

## World-Wide Peace Posters Winners Here

Three Victoria area elementary pupils have won prizes in a world-wide poster contest on the theme of peace, it was learned today.

They are: Ryan Watt, a provincial correspondence pupil, who won a first prize in the grades one, two and three group;

Doris Jensen, another correspondence pupil, who took second in the grades four, five and six group;

And Mary-Lou Unwin, an Esquimalt Junior High School pupil, who took third in the grades six, eight and nine group.

The contest, which drew some 30,000 entries from 24 countries in various groups ranging from elementary to university students, was sponsored by the Latham Foundation of Stanford, Calif., which was established to foster humane education.

All three will receive cash prizes and certificates of merit.

Addresses of the correspondence pupils were not immediately available. Miss Unwin, 14, lives at 727 Front.

## ASK The TIMES

Q. Would you please correct grammatically the following sentence: "He hasn't been there, I don't believe." A. F.

**A. Because the two clauses of the sentence are inverted, i.e. are not in their customary order, the grammatically undesirable double negative has the appearance of being correct. If it were put back into the more usual form, the mistake is at once obvious, so that the sentence must read, "I believe that he was not there," hence, "He wasn't there, I believe."**

Q. If one wanted to write to a man on the U.S.S. Tingey, how would one go about it? I know the man's name and his ship. I. F.

**A. Write to him c/o Fleet Mail Office, U.S. Navy Yard, Bremerton, Washington.**

**Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask the Times" Editor. Questions and answers will be published daily.**

**All questions should deal with matters of fact and be of general interest. The Times does not undertake to solve conundrums or legal problems. Nor will it attempt to put a value on old coins, stamps or antiques. These should be submitted to a dealer.**

### *GOVERNMENT NO-TOBACCO DAY LIGHTS HOT REACTION*

# Where There's Smoke Ban There's Fire

A B.C. government proclamation which encourages people not to smoke today ignited some hot reaction.

The proclamation says that May 31 shall be non-smoking day. A cabinet order approved it today.

The order said the government was encouraging the aims of the Non-Smokers' Association of Canada, a Vancouver group of which Health Minister Eric Martin became the first member last year.

"It is deemed expedient to recognize the benefits that can be derived from non-smoking and to support the endeavors of the NSAC," says the order.

The proclamation goes further. It is "to designate May 31 non-smoking day in B.C. and to encourage non-smoking thereafter."

"It seems an extraordinary thing for the provincial government to interfere with any private industry," commented pipe-smoking Walter E. Hitchcox, manager of a Victoria tobacconist's.

"The federal government is very happy to get $30,000,000 to $40,000,000 a year in excise on tobaccos."

He said he expected that tobacco firms will retaliate, probably with advertising.

But apart from that, he said that smoking is a personal thing.

"I shall smoke my pipe if my wife doesn't mind," he added.

As for his business:

"I shall have to find some black crepe to hang on the door May 31."

The cabinet order says that the non-smokers' association recognizes "the benefits to be gained in the enjoyment of good health and for the sake of the protection of our forests."

Forest officials said that 257 fires were caused in B.C. last year by smoking.

Cost of quelling these blazes was more than $150,000 out of a total firefighting bill of $4,000,000.

# WHY GROW OLD?

By JOSEPHINE LOWMAN

## What Cause White Circles Under Eyes?

Q. "Please tell me what causes white circles under the eyes. I am 5 feet tall, weigh 107 pounds, bust 32 inches, waist 22 and hips 34. Are my hips too large?"

Lowman

A. Your weight is exactly correct for a small frame. Your hips are not too large. You are allowed two inches difference between the bust and the hips for a good figure.

The white look sometimes comes from puffy or stretched skin under the eyes. This appearance also can be due to florid pigmentation of the skin on the face as compared to that just under the eyes. You can hide this with a good make-up base.

Q. "I am a very troubled teen-ager, mostly because of my weight. My mom is constantly telling me to watch my diet. I know I eat quite a bit of sweets but I have tried to curb my desire for them and have almost succeeded. I do not believe I am too stout, but my mother says I am. I am 16 years old and weigh 118 pounds. My measurements are: 36-23-34."

A. You did not give me your height and therefore I cannot be sure about how you stack up. However, your weight and your measurements certainly make you sound slim. You can't be very fat with a 23-inch waist. However, if you have a very small build, you may show a tendency toward plumpness, which your mother wants you to watch.

Q. "I have a very small face. How should I wear my hair?"

A. You should wear it fluffy and soft about your face, not too high on top. However, have it shaped. Do not keep so much hair that it makes your face look even smaller than it is.

Q. "I am expecting a baby soon. I want to nurse the baby but I am afraid that it will ruin my bustline. Is there anything I can do to prevent this?"

A. Be certain to wear brassieres which were especially designed to support the increased weight of the bust. You should also do this during the months of pregnancy. Lie down when you nurse your baby. Many women who have nursed their children have beautiful breasts.

## Packages of Chip Steaks Make Quick Holiday Meals

By PENNY SAVER

The other evening I treated my family to some of the new chip steaks that are processed by a mainland firm. Believe me, they were an unqualified success! Not only are they made of pure beef but they can be cooked in just 90 seconds by any busy housewife. Steaks are molded, frozen and sliced and do not have to be thawed before cooking.

They're selling at 89 cents for a 12-ounce package containing six. Actually, the cost is only 79 cents for, as an introductory gimmick, there are 10 shiny pennies in each package! Chip steaks would make a wonderful stand-by on a fun-packed weekend.

If you're having guests for dinner during the holiday why not treat them to an ever-popular roast beef and Yorkshire pudding meal? You don't have to come from the Old Country to be able to make light feathery Yorkshire pudding, especially if you get new mix being brought out by one Canadian manufacturer.

Eight ounce package sells at 47 cents. All you have to do is to add two cups of water to mix, whip and bake.

For simple light meal use mix as a base for English pancakes. These are made by adding 2½ cups of water and two tablespoons of sugar. Pancakes are delicious when rolled and served hot with a sprinkling of brown or white sugar and a smidgeon of lemon juice.

Surprise the family with cantaloupe for dessert this weekend. They're in plentiful supply at 25 cents each. Packages containing four corn cobs sell at 39 cents. These come from Texas.

Large butter lettuce are priced at two for 45 cents, cucumbers sell at two for 15 cents and new potatoes are good value at five pounds for 35 cents.

If you would like to know where Penny shopped today give her a ring at EV 2-3131.

## Honoring Carole Slater

There has been a whirl of parties honoring bride-elect, Miss Carole Slater, whose marriage to Brian Sabiston takes place in the Church of St. George the Martyr on Saturday. A decorated hamper contained gifts at a surprise kitchen shower given by Miss Judyth Thrasher in her home on Hampshire Road. Large and small parasols decorated the room. Present were the bride-elect's mother, Mrs. G. Slater; mother of the groom-elect, Mrs. J. Elliot; Mrs. E. Curtis, Mrs. F. Gower, Mrs. W. Cross, Mrs. J. Dayton, Mrs. W. Broadley, Mrs. H. Robinson and Miss Diane Watkin.

Mrs. B. Bertoia and Mrs. R. Armstrong were hosts at a tea given in the Ardmore Drive home of the latter. Guest of honor was presented with place settings in her favorite china pattern. Others attending were the bride-elect's mother, mother of the groom-elect, Mrs. J. Downey, Mrs. R. Jay, Mrs. R. Daggitt, Mrs. M. Campbell and the Misses Donna Campbell, Joy Elliot, Kay Rae, Diane Watkin and Maureen Mackintosh.

Clues led the guest of honor to gifts of cups and saucers at a surprise party given by Mrs. Edward Curtis in her Jasmine Avenue home. Also attending were Mrs. Slater, Mrs. Elliot, Mrs. G. Cross, Mrs. L. Gower, Mrs. R. Hunt, Mrs. L. Broadley, Mrs. L. Robinson, Miss Judyth Thrasher and Miss Diane Watkin.

At another surprise shower given by Mrs. Don Martin in her Davie Street home gifts were wheeled in on a decorated tea wagon. Also present were Mrs. Slater, Mrs. Jean Tucker, Mrs. Markland, Mrs. M. Mitchell, Mrs. Rickson, Mrs. H. Amodeo, Mrs. M. Martin, Mrs. G. Stone, Mrs. D. Barker, Mrs. L. Bridgeman, Mrs. E. Moore and Mrs. P. Graydon.

There was a major breakthrough in the design of foundation garments in the late 1890's. Women were advised they could go bathing in perfect security that their corsets would not rust. Rust-proof boning had been incorporated into foundations. These days, of course, boning has practically disappeared from foundation garments.

## Is TV Giving Your Rug a Beating?

The new season's TV shows are with us again, our living-room rugs are getting a lot more use than in the days before TV. This extra use can soon take years off the normal life of your rug. Perhaps you should turn your rug so that the same areas do not receive the wear year after year. But most important is to remove the sharp, gritty particles from deep within the pile that grind away at the rug fibres. This can only be done by professional "deep cleaning" from the CARPETORIUM. The experts at the CARPETORIUM use only the finest of materials and equipment that guarantees new beauty and longer life for your rug when you phone EV 3-2861 for a FREE estimate. The cost is low, service is prompt. The CARPETORIUM, 1810 Wharf Street, EV 3-2861, your professional rug and carpet cleaner.

## OF PERSONAL INTEREST

## Friends Fete Valerie Smith

Several parties have been arranged for popular bride-elect Miss Valerie Smith, whose marriage to Mr. Donald Lyon takes place in Oak Bay United Church this Saturday. Mrs. R. Gamble and Mrs. P. Martin were co-hostesses at a shower given in the Harrop Drive home of the latter. Red-toned carnation corsages were presented to the guest of honor and her mother, Mrs. S. Smith. Also invited were Mrs. J. Scoular, Mrs. J. Bell, Mrs. A. Kennedy, Mrs. D. Gibson and the Misses Jackie Mackie and Sharon Nugent. Mrs. R. Duffy, assisted by her mother, Mrs. J. Newman, entertained at her home on Oregon Street. Gifts were contained in a miniature church. Pink rosebuds and carnations en corsage were presented to the guest of honor and her mother. Also present were Mrs. J. Richards, Mrs. C. Nugent, Mrs. C. Newman, Mrs. J. Bell, Mrs. H. Bates, Mrs. R. Bishop, Mrs. H. English, Mrs. H. Ross, Mrs. A. Smith, Mrs. W. Bowman, Mrs. Edna Bowen and Miss Sharon Nugent.

## Visiting Parents

Mr. Duncan Chisholm leaves Victoria on Sunday after spending a week visiting his parents, Dr. and Mrs. Gavin Chisholm. He will return to his home in Orleans, Ont.

## Wedding Day

Date of the wedding of Miss Annie Moller and Mr. Patrick Knud Huus has been set for Saturday, May 27, in St. Andrew's Presbyterian Church. Parents of the principals are Mr. and Mrs. C. R. Moller of Nakskov, Denmark, and Mr. and Mrs. N. V. R. Huus of Ash Road.

## HOUSEHOLD HINTS

Electric light switch plates and outlets are less conspicuous if painted with the same paint as goes on surrounding walls. It is best to remove the plates and paint them separately. Otherwise, the paint around the plates might be chipped when plates are taken off for electrical repairs.

Radiators should be painted after the heat has been turned off for the summer. Research has shown that more heat comes through flat paint than through glossy enamel. Metallic paints are quite unsuitable—they keep the heat in!

Useful cover for an ice cube container is provided by a polythene bag which may now be bought along with the container. When you shake out the cubes they'll be caught by the bag and there's no danger of them crashing to the floor.

## TODAY'S RECIPE

**FROZEN MAPLE CREAM WITH PEACHES**

One and one-half cups crushed gingersnap crumbs (about 20 small cookies), ¼ cup melted butter or margarine, 2 tablespoons sugar, 1 cup whipping cream, 2 tablespoons sugar, dash salt, ¼ teaspoon maple extract, 1 (1 lb. 13 oz.) can peach slices.

Blend crumbs, butter and 2 tablespoons sugar. Combine cream, remaining 2 tablespoons sugar, salt and maple extract; whip until stiff. Spread half of crumb mixture in bottom of refrigerator freezing tray; cover with maple cream and remaining crumbs. Freeze until firm enough to cut (about 1 hour). Serve slices of maple cream topped with well-drained peaches. Makes eight servings.

## Pad Standing Areas

It's not your arms but your feet that make ironing seem like such a weary chore. Try standing on a throw rug padded with an under layer of foam rubber. You'll whip through a basket of laundry like a breeze.

DEAR ABBY

## No One Is Too Old to Learn!

By ABIGAIL VAN BUREN

DEAR ABBY: I have a confession to make, but I haven't the courage to tell it to the person I wronged. She is my only and beloved daughter. When she was 19, she fell in love with a boy of another faith. I didn't want her to marry him and told her so. She tried to forget him, but if ever a girl was deeply in love, she was. When he went into the service, she would mail him a letter every day. Now here is the part I am terribly ashamed of. When letters would come from him, I would tear them up. It was awful to see her looking for his letters, knowing I had destroyed them.

When he returned from the service, he called the house and I told him she had married and moved away. (Not true.) He never called again.

Our daughter did meet a fine young man of her own faith. They are happily married and have a family. My conscience still bothers me. Should I tell her?

GUILTY CONSCIENCE.

DEAR GUILTY: Forget it. And hope that other mothers won't meddle in the lives of their children "for their own good." Children need to be "guided" — but well-meaning mothers cannot lead their lives for them. You are lucky, Mother. Your daughter may never have found another love.

* * *

DEAR ABBY: My husband died nine months ago and I have continued to wear my wedding ring because I would feel "lost" without it. My friends say I am no longer married and I should not wear it. Are they right?

WONDERING WIDOW.

DEAR WONDERING: Wear your wedding ring as long as you wish. Remove it only if and when you consider dating again. A ringless finger indicates "availability." It's a widow's privilege to wear her wedding ring forever if she feels like it.

* * *

DEAR ABBY: I have been married 20 years and for the past 10 years my wife has cost me a fortune in doctor bills. She claims she gets "dizzy" if she is left alone. She also says that any kind of housework or cooking make her dizzy. I have had to hire help to do everything. We have no children.

I have had her to one doctor after another, and they can't find a thing wrong with her. She has never fainted, but says if she is left alone she knows she will. I have paid people to sit with her. She goes shopping and belongs to clubs and is in the best of health and spirits, in company, but she refuses to stay alone one minute. I welcome your suggestions.

WORN-OUT HUSBAND.

DEAR WORN-OUT: If she has gone "from doctor to doctor" and they can't find anything wrong with her, depend on it—there is something wrong with her. Since the "dizziness" is in the head, that is where the trouble is. Take her to a psychiatrist.

Yes, Abby will answer your letter personally if you write to Abby, 205 Park Road, Burlingame, Calif., and enclose a stamped, self-addressed envelope.

A BIRKS DIAMOND

A diamond, cut with the proportions indicated at the left, will return to the eye of an observer the majority of rays falling upon its upper facets, as indicated at the right. These proportions are designed to produce the greatest possible amount of brilliancy.

A diamond cut either too deep or too shallow below the girdle allows an unnecessary amount of light to escape through its pavilion facets. Either stone lacks maximum "fire" and brilliancy, and therefore it is worth less, per carat.

Diamonds cut with too little weight above the girdle. Both stones exhibit less "fire" than correctly proportioned diamonds; consequently their price, per carat, is lower.

Left: A diamond cut with excessive weight above the girdle. It suffers a loss of brilliancy with a resulting decrease in value, per carat. Right: Any departure from a circular girdle in a brilliant cut diamond reduces per carat value.

Birks diamonds are scientifically examined for colour, cutting and clarity; weight is only the last factor of importance, considered after the quality has been proven. Some think of our standards of perfection as being too exacting and critical; we prefer it that way.

## Ideal Regional Plan For Nation's Capital

Victoria women had a preview of what regional planning can achieve for an area when Peter Aykroyd outlined work of the National Capital Commission at Thursday meeting of Women's Canadian Club in the Empress Hotel.

Working on a plan set down by Jacques Greber in 1950, the commission has established a green belt, 37,000 acres in size and 2½ miles wide around Ottawa, added about 4,000 acres of landscaped ground on shoreline of lakes and rivers, and are now in process of relocating all major rail lines from centre of the city into outlying districts.

"By establishing such a green belt we have achieved the ideal," said Mr. Aykroyd, director of the commission's information division. "Already, people have realized that areas within that belt are valuable property and, substandard buildings are being torn down and replaced. Model satellite towns, fed by right-of-ways from the capital, are growing up on the outskirts."

**THE MALL**

Touching on the Sparks Street Mall, started last year in Ottawa, he described it as "The first victory over the motor car in 50 years."

"We intend to repeat it again this year," he told his audience. "Most businessmen in the area reported 17 per cent increase in business during the mall season. Only 2 per cent felt that business had declined."

Decrying tendency to tear down old historic buildings, Mr. Aykroyd emphasized that important commitment of commission was to acquire such landmarks and restore them.

Gatineau Park was part of commission's plan to show visitors to Ottawa "Canada as it really is."

"We bought 75,000 acres of the Laurentian Uplands. This includes four large lakes and 52 smaller ones and establishes a wilderness park. Through it, we've built a parkway, now 22 miles in length, where visitors and residents can drive where bear, deer and beaver abound and moose can be seen in the fall."

Commission is made up of 20 men and women from all parts of Canada. There are five other officers as well as Mr. Aykroyd and a permanent staff of 600. Sum of $60,000,000 has been spent during past 60 years with this year's budget totalling over $20,000,000.

Speaker was introduced by club president, Dr. Olga Jardine, and thanked by Alderman Mrs. Lily Wilson.

## Ottawa's Mayor Vetoes Change

**One of the most modern developments in Ottawa is known by the intriguing label of "Tunney's Pasture." Peter Aykroyd, director on the National Capital Commission, told the Women's Canadian Club Thursday. Describing how the super-modern federal buildings in the area had been spaciously set in a surrounding of landscaped grounds and wide boulevards, he credited name to Ottawa's hard-hitting citizen, Mayor Charlotte Whitton. Other names for new area were vetoed by the dynamic leader. Said Mayor Whitton: "It was known as Tunney's Pasture when I was a child and the cows grazed there—and that's the way it's going to stay!"**

## Conference To Check Overlapping

TORONTO (CP) — Representatives of 20 national women's groups recommended Saturday that the citizenship and immigration department call a conference of Canadian women's organizations' citizenship and immigration committee conveners.

The recommendation was made at a meeting called by the IODE to discover whether there is an overlapping of services offered by organizations to newcomers to Canada and whether more might be done to bring the immigrant into the community.

Bessie Touzel, executive director, suggests that conferences be called in cities across Canada to look into the situation.

## Place to Store Toys

Toys that brighten a child's life have a way of getting under foot. Provide youngsters with a large box to store toys. A corrugated paper box from the store will do if you strengthen it with shellac sprayed from an aerosol can.

## OF PERSONAL INTEREST

### Parties Honor Astrid Mead

Spring blossoms decorated the table when Mrs. J. G. M. Lock entertained at a luncheon in her Fair Street home in honor of Astrid Mead, who is to be married to Mr. Scott Young on Saturday. A presentation of silver was made to the honor guest. Covers were laid for 15.

Members of the Victoria Ladies' Reading Club of which Astrid Mead was secretary for several years, gathered for a coffee party in her honor at the Henderson Road home of Mrs. G. Davidson Mead on Wednesday. A Danish glass vase was presented by the club president Mrs. Geoffrey Ellis. Others present were Mrs. S. Cuppage, Mrs. G. Davidson Mead, Mrs. John Cox, Mrs. James Bell, Mrs. H. G. Rough, Mrs. John Garrison, Mrs. W. J. Macht, Mrs. F. Langton, Mrs. H. F. Howard, Mrs. E. B. Roberts and Mrs. Jean Young of Flin Flon, Manitoba.

### At Manning Park

Several members of the Victoria Business and Professional Women's Club will travel to Pinewoods Lodge in Manning Park to attend the Provincial Conference of BPW clubs of British Columbia and the Yukon this weekend. Travelling from Victoria will be Miss Ella Brett, club president; Mrs. Florence Barlow, Mrs. Edith Forsythe, Mrs. Vera Wade, Mrs. Enid Webster, Mrs. Lillian Wright and the Misses Ruth Adams, Hilda Hesson, Elizabeth Forbes and Laurraine Steele. Miss Forbes, who is a vice-president of the National Federation of BPW, will be in Bellingham this evening to extend greetings from Canada to the Washington State conference of BWP clubs and will travel to Manning Park from there.

### Leaving Tuesday

Mr. and Mrs. A. G. Beattie, of Brighton Avenue, accompanied by Mr. and Mrs. H. E. Miller, of Calgary, will embark in the Ss. Oriana on Tuesday, en route to Sydney, Australia. The travellers will return to Victoria in June.

### From Toronto

Mrs. Astrid Mead and her daughter, Miss Deirdre Mead, have arrived from Toronto and are guests of Mr. and Mrs. G. Davidson Mead, Henderson Road.

### For Wedding

Mrs. Jean Young of Flin Flon, Man., is in Victoria at present, the guest of Mrs. Frank Langton at her home on Coronation Street. Mrs. Young's son, Mr. Scott Young, has arrived from Toronto for his wedding on Saturday to Astrid Mead. He is staying at the Colony Motel.

### At Tea Hour

Following the meeting of the Women's Canadian Club, in the Empress Hotel, Thursday after noon, the guest speaker, Mr Peter Akyroyd, and Mrs. Aykroyd, were honor guests when the club executive entertained at tea in the Palm Room. Mrs. L. J. Mulcahy and Miss M. Ashworth presided. Others present were Mrs. M. L. Tyrwhitt-Drake, Dr. Olga Jardine, Mrs. Percy B. Scurrah, Alderman Mrs. Lily Wilson, Mrs. R. G. McKee, Mrs. F. M. Corbett, Mrs. L. W. Topham, Mrs. H. H. Youson, Miss E. L. Forbes, Mrs. H. S. Grove, Mrs. F. L. Watters, Mrs. A. G. Slocomb, Mrs. H. Summers Clark, Mrs. G. Dufour, Miss Jessie Gordon and Mrs. J. R. ## PARTNERSHIP BETTER THAN COMPETITION

MONTREAL (CP)—A New York City social planner had some blunt criticism of what she called the competition between the sexes.

Martha Selig, speaking in Montreal at the Fifth Women's Community Conference, said this sort of competitiveness, be it conscious or unconscious, "wastes human resources and creates for many women unnatural barriers to fulfilment."

"The fulfilled woman has no need to compete with her husband. She complements him, either in the home or outside it."

And she need have no fear of taking a place outside it, said Mrs. Selig.

"If a woman takes a job because she wants to, and has the training, let us not propagate the fiction that she is depriving her husband and her family."

By the same token, she said, it is not true that a man participates in household activities, he is less of a man. "We have lived too long with that nonsense."

Fulfilment for a man or a woman is "a constant seeking and searching, a learning and changing, a continuous process of growth, adjustment and maturity."

It is not found in isolation, she said.

Every woman has an obligation to give something of her energies, her time, her capacity and her money to the community of which she is a part.

# Voice of Women Movement Urges Peace Through Understanding

The Voice of Women movement, that in the past year has spread across Canada, has as its main objective to focus attention on other ways of resolving differences than force, Mrs. Helen Tucker, national president, says.

In Victoria Thursday during a 10-day visit to western Canada, Mrs. Tucker addressed a meeting in Dulcie's Hall.

Pointing out that VOW was born "on the crest of a strong emotional wave following failure of the Summit Conference and through increased fear of nuclear warfare," Mrs. Tucker added that "as women earnestly believe warfare, as a means of settling world problems, is unthinkable and insane, it was natural that they formulate some way of getting down to the root of the matter and to fight against pride, ignorance, disease and want."

**SPEAK LOUDLY**

"Voice of Women may not be a big mouth," the speaker said seriously, "but it can be a loud mouth to extol the work of those agencies within the United Nations that work quietly for peace and yet receive little publicity."

This can be done through VOW's three-point program: Individually by correspondence with women in other countries of the world and through visits to these countries; on national issues "by writing to commend our leaders for stands taken to bring about lasting peace" and internationally "by working to bring about a Summit Conference of our own through bringing together outstanding women humanitarians from around the world at a fact-finding gathering somewhere in Canada."

*Helen Tucker*
*national president*

"This we hope to do by 1962," Mrs. Tucker said.

Speaking strongly against the accusation that infiltration occurs in many movements for peace, she added: "In a democracy such as ours it is an insult to feel that its citizens do not have sufficient wisdom and idealism to defend the principals of freedom and justice, through movements such as ours."

In connection with creating understanding through visits to other countries, Mrs. Tucker spoke of the several UNESCO missions she has headed, including those to Japan and Mexico and Jamaica, where UNESCO gift coupons were presented for a children's library at Hiroshima, for educational training, and for rural education.

A fourth mission is in course of preparation now—to Africa in July—where coupons will be presented to build chalets at a training college for women in Ghana.

## GOVERNMENT DEPARTMENT FOR PEACE

**Helen Tucker, national president of Voice of Women, goes back to Toronto headquarters with a brand new idea for the next federal election. A member in Edmonton suggests that V.O.W. should demand that parties stand for a peace department of government with its own minister and with a budget of 1 per cent of the defence budget.**

**"It's a sound suggestion," says Mrs. Tucker.**

## Victoria Woman Named Grand Lodge Officer

Mrs. A. Bell, Victoria, was elected junior deputy mistress, at 39th annual session of Provincial Grand Lodge of the Ladies' Orange Benevolent Association, held recently in New Westminster.

Other officers are: Mrs. A. I. Sharpe, New Westminster, grand mistress; Mrs. L. Osborne, Vancouver, immediate past grand mistress; Mrs. M. Slater, Kamloops, deputy grand mistress; Mrs. B. Lester, Vancouver, secretary; Mrs. R. Roe, Port Coquitlam, treasurer; Mrs. M. Cadden, Prince George, chaplain; Mrs. G. Martin, Vancouver, deputy secretary; Mrs. L. Auditors are Mrs. N. Pelly, Chilliwack; Mrs. I. Webb, Kamloops, and Mrs. J. Humphreys, Vancouver. On the Loyal Protestant Home board are Miss M. Johnston, Mrs. P. Howe, Mrs. A. E. Wells and Mrs. A. Main, all of Vancouver. The Restholme project for senior citizens committee is Mrs. I. Beaton, Mrs. E. Wells, Mrs. P. Robinson and Mrs. P. Stein, all of Vancouver.

# CLUBWOMEN'S NEWS

**Guest Speaker**—Mrs. J. W. Jamieson of Centennial United Church was guest speaker at meeting of the Afternoon Auxiliary of the Woman's Missionary Society of First United Church held recently. Mrs. A. H. Sheard presided. Mr. Jamieson assisted his wife by operating a tape recorder illustrating her talk on Angola. Mrs. Alistair Campbell led devotions and Mrs. Lois Fraser was soloist, accompanied by Mrs. E. J. Capling. Tea hostesses were Mrs. A. Campbell, Mrs. J. Stephens, Mrs. J. B. Corley and Mrs. D. L. Peterkin.

**Donate Books**—Members of Navy League Chapter, IODE, voted to donate two books and a framed adoption certificate to their adopted school at Two Rivers at meeting held in IODE headquarters and chaired by regent Mrs. W. F. Norman. It was reported by Mrs. P. E. George, services at home and abroad, that woollen knitted sets and mitts had been donated by members.

**Municipal Chapter**—Services at home and abroad convener, Mrs. B. T. Shaw, reporting at meeting of Municipal Chapter, IODE, said $87.25 had been spent during the past month to assist four local welfare families. Mrs. Peter Bell presided. Educational secretary Mrs. J. A. Dunn reported on final plans for the annual Commonwealth Day service at the Parliament Buildings on Friday morning; the service of intercession at Church of Our Lord on Sunday and the Remembrance service at the Cross of Sacrifice in Ross Bay Cemetery, also on Sunday.

**Flower Arranging** — Miss Kate Ede gave a presentation of Oriental floral arrangements at meeting of Victoria Dental Assistants. Mrs. G. Fulton presided and reported on the annual convention at Kelowna.

**New Floor**—At meeting of Anglican Woman's Auxiliary of St. George's Church, Salt Spring Island, a sum of $50 was donated to St. Mary's Guild to assist in installing a new floor. Mrs. G. H. Holmes presided and took devotions. Tea was served by Mrs. J. Byron and Mrs. E. Dickinson.

**For the Church**—At meeting of the Salt Spring Island Catholic Women's League it was decided to purchase two vases and an alb for the church. Mrs. A. E. Marcotte was named to direct a procession in honor of the Blessed Virgin, with children taking part. Mrs. H. Bonar presided; Fr. P. Hanley repeated the league prayer, and refreshments were served by Mrs. H. Milner and Mrs. A. W. Marcotte.

EARLY-AGING SIGNS!

It's dry skin that puts crow's feet, little lines and flaky patches on a woman's face. Yet it's difficult to avoid the drying effects of modern life: indoor heating, low-fat diets, heavy makeup, etc. That's why you need POND'S DRY-SKIN CREAM. This famous cream, now with Allantoin, starts to repair dry skin in just 10 minutes! Allantoin floats off lifeless surface skin cells, speeds penetration of Pond's rich moisturized lanolin into parched tissues far below. Almost overnight, your skin takes on new tone, looks smoother, softer, *younger*. Pond's special formula will re-moisturize even the driest complexion. Get POND'S DRY SKIN CREAM . . . use it regularly. In jar or tube, wherever cosmetics are sold. Advt.

## HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other instructive prizes? Then ask Andy.

Andy will answer questions submitted by child readers and those who submit the questions he selects to answer will receive worthwhile prizes.

The youngster who asks the first question answered each day receives a 20-volume set of the World Book Encyclopedia and of the second question a Hammond Atlas or Globe.

Address your questions to "Ask Andy," Victoria Daily Times.

Andy sends a complete, 20-volume set of the **World Book Encyclopedia** to Robert Bailey, age 11, of Wichita, Kan., for his question:

### Why Doesn't Lightning Travel In a Straight Line?

A flash of lightning is a discharge of electricity between two parts of a cloud, between two clouds or between a cloud and the ground. The vivid streak of blazing gold seems to follow a zigzag path, often forked with many ragged branches. Actually, the fiery blaze may sweep back and forth along the trail many times in a tenth of a second. When we glimpse something for a mere fraction of a second, the evidence of our eyes is often misleading. This is so in the case of the flashing lightning.

It is true that the path of the lightning is not a straight line and the main path is often forked with branches. But the path is not zigzagged with sharp angles. Split second photographs show that the lightning follows a path of small, wavy curves. It is forced from a straight line by the damp air of the cloud through which it cuts.

The violent fury of the lightning is triggered by a conflict between charges of positive and negative electricity. The earth usually has a surplus of electron particles. Compared with the air above it, this gives it a charge of negative electricity. In the stormy cloud, electrons are wiped off in the windy warfare between masses of warm and cool, damp and dry drafts of air. Some patches of cloud get a surplus charge of positive and some get a surplus charge of negative electricity.

The energy created by this electrical imbalance in a thunderhead may be as great as the energy let loose by an atomic bomb. When the lopsided electrical condition reaches a peak, a charge of electricity is released in a sudden discharge of direct electrical current—a flash of lightning. The energy of the flash may be 30 million volts of electricity.

## Air Offers Strong Resistance

The flashing lightning tries to cut a straight path through the seething cloud. With all its energy, we are naturally amazed that it cannot do this.

But ordinary air offers a strong resistance to any electrical current. The searing flash is traveling faster than the speed of sound. At that speed, the molecules of air cannot get out of the way to let it through. The same thing happens when a jet tries to break the sound barrier.

The moist, windy air of the cloud is a turbulent patchwork and some areas let the lightning pass more readily than others. In a fraction of a second, the blazing flash weaves a path through the easy areas and around the hard ones. The same path may be used back and forth again and again during the split second while we are seeing a single flash.

# IT HAPPENED LAST NIGHT

### By EARL WILSON

NEW YORK — A fellow named Arthur Bates, who runs a Dallas restaurant, wants to bet me several free dinners that I can't find any new restaurant jokes.

That's a sneaky way to get publicity. But Lee Segall, owner of KIXL, Dallas, who put him up to it, is a sneaky character.

"I'll furnish four free dinners to each individual sending Earl Wilson a restaurant joke that sounds new to him," solemnly swears Arthur Bates. Naturally, you have to go to Dallas to collect the four dinners.

Back in the late 1940s when the food in London was still ersatz, a customer asked a waitress to bring him "bacon, toast, two eggs, and a kind word." When she gloomily slapped down the order, he said, "What about the kind word?"

"Don't eat the eggs," she whispered.

So don't mail me that widely printed one. Nor Myron Cohen's gem about a customer demanding of a waiter, "What's that fly doing in my soup?"—and the waiter, after a moment of gazing at the fly, replying, "A backstroke."

Don Murray and Hope Lang got the final separation papers . . . TV star Anthony George is flying in from L.A. to see Margaret Whiting, now at the Blue Angel.

Freedomland, the amusement centre in the Bronx, is advertising in Paris papers . . . Joey Adams'll do a musical, "Let George Do It" (written by ex-Gov. Furcolo of Mass.) . . . The wireless microphone sets used by Mike and Elaine in their B'way show can be picked up by Manhattan police cars . . . Tony Richardson withdrew as director of the Richard Adler-Sally Ann Howes musical, "Kwamina" . . . Carol Lawrence was offered seven Gary Moore TV guest shots next season . . . Pretty Dee Drummond, whose new record is "Like This," bought a $5,000 wardrobe for her cafe act.

Busty Monique Van Vooren says she'll stick to acting, do no more cheesecake posing: "My measurements (40-20-36) add up to 96; my IQ is 153. The higher number usually wins" . . . Robert Mitchum's been busy — "The Last Time I Saw Archie" is his 99th film in 17 years . . . Sarah Vaughan's next album will be titled "Sarah-Nade in Blues" . . . Marie MacDonald wants the role opposite George Gobel in his B'way musical, "Let It Ride."

## History Painter George Southwell Dies at 96

VANCOUVER (CP) — George Southwell, dean of B.C. painters and illustrator of provincial history, died at his home in upcoast Pender Harbor last weekend. He was 96.

Famous as a teacher as well as a painter, Mr. Southwell, was active with his brush and palette until about 2½ years ago when he left here for Pender Harbor.

The work of which he was proudest now adorns the legislature building in Victoria. On commission from the provincial government he painted eight large murals, depicting scenes from the historical development of the province.

## BRIDGE LESSON

By OSWALD JACOBY

Playing at four spades South will have an anxious moment if West underleads his ace of clubs, but it will be a brief anxious moment; he will see that he can't do any good by playing low from dummy so he will go up with the king.

NORTH 19

♣ 8 7

Both vulnerable

| West | North | East | South |
|---|---|---|---|
| 1 ♦ | Double | Pass | 2 ♠ |
| Pass | 4 ♠ | Pass | Pass |
| Pass |  |  |  |

Opening lead—♦ K

Then he will be able to pull trumps; discard his second club on dummy's fourth heart and make five odd instead of a mere four.

There is very little to the bidding. North has a nice double of West's opening heart bid and South should reply to the double by a jump to two spades.

This jump on a mere eight high card points and a good five-card suit may look a trifle drastic but it is the correct bid. Experience has shown that when your partner doubles an adverse opening bid you should use the jump to show the balance of power, not a rock crusher.

Since the opening bid and the double will usually account for at least 26 high card points, eight to 10 points will account for this balance of power and you jump to show it.

This jump is not a forcing bid, but North can afford to go right to game anyway. West is marked with most of whatever high cards are going to be missing so that finesses are going to work and North does have mighty good support for spades.

## Arthur Godfrey Entertains With Hour-Long Special at 9.30

By PHIL LEE, Times TV Editor

**I HOPE YOU** stayed up to join Jack Paar on the NBC-TV network, Tuesday night, following the Emmy Awards show. It was very gay.

Or perhaps "gay" isn't the word. What with Charley Weaver kicking up his heels higher than Mt. Idy, Jonathan Winters sobbing quietly in a corner because no one would let him tell his joke, Art Carney looking as dignifiedly upset as a Harvard professor caught at a burlesque show, and Shelley Berman making more faces than a chimp with his first mirror, Paar, at times, looked about as ineffective as Capt. Bligh being lowered into the boat by Mr. Christian and his men following the mutiny on the Bounty.

The ruckus started soon after Winters began telling his complicated tale about how he and his wife were catapulted out of bed at six that morning in order to catch their jet aircraft.

"Can't you speed it up? We're running behind time," Paar tried to hasten him.

Winters replied rather sulkily that he would tell the yarn in his own good time, at the same time insinuating that after all he was the guest of honor and everyone should be polite to him. He started out again but this time Charley Weaver got into the act and was told to "shut up" by Paar. Then it was Carney's turn, then Berman's. Everyone began shouting and running past the camera so you couldn't tell the principals for their jackets that blocked out the lens.

Fortunately it was time for a commercial.

But when the cameras returned to the scene it was wild, something the Marx Brothers might have envied in their heyday when they were making the "Cocoanuts" and "Animal Crackers." In desperation Paar shouted at Winters, who was still trying to carry on with his story, "Shut up. We've heard enough of that story."

It was at this point that Winters broke into tears and we were into another commercial that were commencing to fly about thicker than flies in the jam factory in a heat wave. As a matter of fact it often was difficult to hear the commercial for the noise being generated in the background.

Eventually, however, Paar managed to restore some sort of order by persuading Winters to act out his yarn, using two studio chairs to represent the side-by-side seats of an aircraft. One by one the others took their place in the "window" chair and let the comedian ad lib, their duty being but to feed him material that a straight man might offer.

What came out of all this was not only first-rate comedy complete with clever repartee but the fact that Paar and his guests are gentlemen equipped with their fair share of grey matter, at all times being fluid, facile and quicker on the verbal trigger than a medicine man making excuses for the famine that he had prognosticated to have been a bumper crop.

The more you watch these "names" of the show business world the more you are convinced that they didn't arrive at the top by accident, or by being a relative of the producer or through blackmail. They are at the top because they are extremely talented persons who, taking Carney as an example, can act either in comedy or in drama, sing a little, dance passably and do well on unrehearsed shows of this nature.

Owing to the lateness of the evening I don't usually sit up for Paar's show but I'm pleased that I did for this. It was a dandy.

**BY NOW I SUPPOSE** most of you have seen by the news story that the CBC and General Motors have fallen out over the play chosen for next Sunday's "GM Presents" program.

The motor boys let it be known Tuesday that they would be unable to sponsor the vehicle entitled "Conquest of Cobbletown" that satirizes Canadian nationalism and also, in the company's opinion, would place GM in the unhappy position of seeming to plead a case for the U.S. ownership of Canadian companies.

The result? "Conquest of Cobbletown" goes next Sunday, says the CBC firmly. The only difference being that instead of it going under "GM Presents" it will be seen under "CBC Presents."

## 111 TRAILERS and TRAILER PARKS

AMIGO!

22 years' experience behind Victoria's own travel trailer. They compare favorably in appearance, price, quality and design with anything now being hauled into Victoria from out of the province and every penny of our payroll is spent right here in Victoria. Our Victoria and Canadian craftsmen are superb workmen who feel a responsibility to build to their best ability and every part including what is in the wall (and what you don't see) is honest construction. Before you buy see Victoria's own travel trailer, 12 and 15 ft. Amigo built by Blue Bonnet Coach Mfg. Ltd., direct factory sales. 100% Canadian owned. Not connected with any other sales lot or finance company. Private financing and bank money available. Your best buy Amigo. Also vacation rentals. Propane gas—trailer parts—hitches installed—complete modern factory facilities. Corner of Millstream and Trans-Canada Highway. GR 8-2514.

# BOY SAVES TOT'S LIFE; BEATS BEAR TO DEATH

TIMMINS, Ont. (UPI)—Edward Shannon, 14, was credited today with possibly saving his six-year-old cousin's life by beating a bear to death with a stick.

Police said the year-old bear was fighting with six-year-old Dalton Shannon's dog Thursday and Dalton ran toward the bear to save his pet.

Dalton's cousin, Edward Shannon, 14, jumped from a tractor and chased the younger boy and the dog away from the two-foot-high bear.

The bear knocked Edward to the ground, but the youngster jumped up clutching a stick and killed it with two blows.

### Phone Company Ignores Public, Members Charge

(From Times News Service)

OTTAWA — Two government supporters in the Commons Thursday criticized the Bell Telephone Company of Canada—complaining of an arrogant monopoly and a shortage of information operators.

The day was devoted to the 1961-62 budget of the transport department with its far-flung interests in shipping, airlines, railways, ports and communications. Study continues today.

The bitterest Bell Telephone attack came from Louis Joseph Pigeon (PC — Joliette-L'Assomption-Montcalm) who accused the company of ignoring the public interest.

He called for both an inquiry and legislative amendments to the company charter bringing it under closer scrutiny of the board of transport commissioners which regulates its rate-increase applications.

There were multiple contributions to the debate—mingled requests and criticism of transport department services.

Ferguson Browne (PC — Vancouver, Kingsway), connected with trucking interests, spoke against long-term rail subsidies and said a strike of truck and rail lines might cripple ground transportation if the rail companies obtained a monopoly of all ground transport and certain union certifications resulted.

### World's Greatest Port, Vancouver?

The Port of Vancouver, already the largest grain shipper in the world, could become the world's biggest and best port, Douglas Jung (PC—Vancouver Centre) said.

He urged the National Harbors Board to take the initiative in organizing a new Greater Vancouver port council, including municipal representatives of Vancouver, North Vancouver and New Westminster.

It should also have Board of Trade representatives and spokesmen for the provincial and federal governments, the railways, airlines and shipping interests, as well as representatives of management, labor, farm groups and consumers.

Working together they could make long-range plans for harbor development.

The president of CBC said the national television service would be gradually destroyed if the proposed private second TV network were allowed to draw off the CBC network's private affiliate stations.

J. Alphonse Ouimet told the Commons broadcasting committee that in developing the second network there must be great care not to "build it up out of the bricks and mortar of the first network."

He was replying to James McGrath (PC-St. John's East), who suggested that private interests are now capable of providing a national TV service without cost to the publicly-owned CBC.

On another point, Mr. Ouimet said the corporation has plans for color television "but we have no date tag to it yet."

### COMMONWEALTH DAY

# Young Victoria Attends Service

Queen Victoria, whose reign during the 19th century marked the foundation of the British Commonwealth of Nations, was honored today by more than 900 young Victorians at a ceremony in front of the Legislative Buildings.

The colorful children's ceremony touched off Victoria Day celebrations which will be observed over the weekend by thousands of citizens participating in an entertainment program packed full of fun and thrills.

The Commonwealth Day service of the Imperial Order, Daughters of the Empire, was held on the flag-bedecked front steps and lawn of the main Legislative Building.

**SIGNIFICANCE**

The ceremony, unique in Canada, has special significance for the city named after Queen Victoria.

A fanfare of trumpets announcing the march of standard bearers to the tune of "Land of Hope and Glory" played by the Lansdowne Junior High Scool Band, marked the start of the service.

Willard Ireland, provincial librarian, addressing the large gathering of school children, said Queen Victoria was being honored because of the ideals she stood for during her long reign.

**FAITH IN GOD**

These were:

1. Cherish faith in God.
2. Loyalty to ideals, such as the ideal of freedom.
3. Dedication to purpose.

He urged his young audience to uphold these ideals throughout their lives.

"These same ideals are still being upheld by the Queen's great, great granddaughter, Queen Elizabeth," he said. "We should continue and cherish these ideas."

Mrs. Peter W. Bell, regent, Municipal Chapter of Victoria, IODE, also addressed the school children, while Chaplain Horatio Todd, president of the Greater Victoria Ministerial Association, said a prayer.

Participating in the ceremony held under a clear, sunny sky were hundreds of Girl Guides, Brownies, Sea Cadets, Army Cadets, Air Force Cadets, St. John Ambulance Cadets, Boy Scouts and Cubs.

The ceremony drew to a close with the placing of floral offerings by small children at the base of Queen Victoria's Monument.

Among those present were Mayor Percy Scurrah and Mrs. Scurrah, members of the Greater Victoria School Board and Victoria College officials.

# Typhoon Hits Hong Kong

HONG KONG (AP)—The season's first typhoon struck Hong Kong a relatively mild blow today and whipped across the coast to buffet the southern provinces of the China mainland.

Scientists reported Typhoon Alice's backlash may yet cause serious damage to this British Crown colony.

### POPS INTO MOSCOW TRADE FAIR

# Jovial K Thanks Britain For Soccer, Steel, Scotch

MAULDING
. . . hosted Khrushchev.

MOSCOW (Reuters)—A jovial Nikita Khrushchev made a two-hour tour of a newly-opened British trade fair here today, inspecting everything from wool to whisky.

The Soviet premier turned up unexpectedly with his wife, granddaughter and seven leading members of the Soviet hierarchy on the first day of the 17-day exhibition which Britain hopes will attract 1,000,000 Russian visitors.

Khrushchev was taken on a tour of the fair by British Trade Minister Reginald Maudling and pronounced himself impressed at many of the exhibits.

But Khrushchev cut short one British official who started explaining how Scotch whisky was made.

**KNOWS HIS STUFF**

The Soviet premier laughed and said: "You can't teach me anything about making that sort of thing."

Then, before leaving the distillers' stand, Khrushchev smiled broadly and remarked: "Scotch whisky is good, very good. In fact, I rate it among the best."

Khrushchev's conversation with Maudling ranged from steel to soccer as they walked around the fair. The Soviet premier laughed when Maudling referred in his opening speech to British contributions to the world ranging from penicillin to soccer.

Then, as they inspected an iron and steel exhibit, Khrushchev remarked: "The English make good steel. They taught us how to make it just as they taught us football (soccer)."

Maudling: "We are still teaching you, Mr. Chairman. Our team Aston Villa had a splendid victory over your Soviet combined team the other night."

Khrushchev: "But I think we won the other two games against you."

Maudling: "I agree, you did."

Khrushchev: "In any case sometimes one wins and sometimes one loses. I am all for competition, providing its honest and fair."

At the wool textile corporations' stand Khrushchev was given a length of jersey fabric. He handed the cloth to Deputy Premier Anatas Mikoyan and quipped: "Don't go and sell it, otherwise you will find yourself in trouble."

At an exhibit by the Rootes Motor Corporation Khrushchev spent several minutes chatting with Sir Reginald Rootes about the performance of a Hillman Minx.

Khrushchev wanted to know its speed, its weight and its gasoline consumption.

Before he left the stand he was presented with a miniature Minx.

When Khrushchev left one of the pavilions en route for another he was treated to a display of marching and counter marching by pipes and drums of the Argyll and Sutherland Highlanders.

He led the applause at the end of the display and was then introduced to the pipe major, who towered over him in his tall bearskin.

Some 677 British firms laid out their goods in an effort to woo official state buyers into ordering shoes, clothing, machinery, textiles and a variety of other products.

### LOTTERIES BANNED IN HAVANA

HAVANA (Reuters) — The Havana municipal authority has banned all lotteries and games of chance with money prizes.

A law passed in February, 1959, was enforced for the first time, arousing speculation that the days of the Havana casinos—run in half a dozen hotels here—may be numbered.

Several other Cuban towns recently banned cockfighting—a favorite pastime—as "unbefitting the revolutionary conscience."

The Cuban government has now taken control of all private clubs still operating in Havana and its suburbs.

An announcement published Tuesday said the clubs will be converted into social centres for Cuban workers. Many beaches throughout Cuba are also being nationalized and given to "the people."

# Science Fiction Source Criticized Atomic Plan

OTTAWA (CP) — A prominent Canadian physicist said Thursday night that the source of a statement by a Montreal engineer sharply critical of Canada's atomic power program was an American magazine entitled Astounding Science Fiction.

Dr. G. C. Laurence, director of the reactor research and development division of Atomic Energy of Canada Limited, made the statement to the Commons research committee in discounting warnings by Winnett Boyd of Montreal about the safety aspects of Canadian-designed atomic power plants.

Mr. Boyd, in a brief to the committee Tuesday, referred to an accident in 1951 in the NRX reactor at Canada's Chalk River, Ont., atomic establishment. A surge in the power of the reactor released radioactive contamination throughout the reactor building and the reactor had to be rebuilt.

In his brief Mr. Boyd said "the inside of the building was badly contaminated and measurable amounts of radiation escaped outside which were reported to have been detected as far away as upper New York State."

**RADIATION CONFINED**

After the accident officials of Atomic Energy of Canada said the contamination released was almost entirely confined to the reactor building.

Dr. Laurence said the source of his information that radiation was detected in upper New York State was a story in The Star Weekly magazine April 2, 1960.

Dr. Laurence said phrases used in the Toronto weekly magazine were the same as those used in Astounding Science Fiction in a story in April, 1954, on the NRX reactor accident. There was no question, he said, that the original source of Mr. Boyd's statement was Astounding Science Fiction.

Dr. Laurence said that his discovery was made by a member of the staff of Atomic Energy of Canada who keeps a sharp eye on stories written about Canada's nuclear energy program.

Mr. Boyd contends that the Canadian approach to economic nuclear power is a waste of money besides posing a safety problem. He advocates that Canada study a system he proposes.

Atomic Energy of Canada is using natural uranium as a fuel in atomic power plants and heavy water to make the fission process possible and transfer heat from the reactor to raise steam to drive turbines.

Mr. Boyd advocates that helium gas and graphite be used in place of heavy water and the fuel be enriched uranium carbide.

J. L. Gray, president of Atomic Energy of Canada Limited, said many statements by Mr. Boyd were "completely misleading"

At its night sitting the committee decided to subpoena two witnesses who declined to appear at the committee's request. They are R. C. Golding, editor of the Maclean-Hunter publication Modern Power and Engineering, and Dr. K. F. Tupper of the engineering consulting firm of Ewbank and Partners Canada Limited, Toronto.

# View Royal Log Boom Decision Due Soon

Lands and Forests Minister Ray Williston said Thursday he expects a decision "very soon" on whether a group of lumber companies will be allowed to put more log booms into Esquimalt Harbor.

View Royal residents strongly protested the proposal at a public hearing last October.

The Greater Victoria Mill Owners' Association seeks a lease on foreshore property partly owned by the provincial government. As the area involved also is partly under federal jurisdiction, Ottawa has a say in the decision.

Mr. Williston said he has received "indirect word" of this decision, but he will not announce it until he gets a formal, final notification.

View Royal residents complain that more logs in the harbor will completely ruin its already limited recreational opportunities.

# 3 Charged In Flaarant Bank Fraud

NEW YORK (AP)—A federal grand jury indicted three former bank officials Thursday, charging they misapplied $1,562,000 of funds of the Capitol Hill Bank of Oklahoma City.

The three were identified as James Freeling, 36, former president of the bank, John Houlihan, 48, and Martin Legere, 47.

U.S. Attorney Robert Morgenthau termed the case "one of the most serious and flagrant cases of the misapplication of bank funds by a bank officer to come to official attention."

Examiners for the federal deposit insurance corporation uncovered the case and because of it the bank was forced to close last July 29, Morgenthau said. He added that it has subsequently resumed operations under new management.

## Freeway Next Year

VANCOUVER (CP)—Highways Minister Gaglardi said Tuesday he expects to have the Deas Island freeway completed to the United States border in time for the Seattle Century 21 Exposition next year.

He made the statement at the annual meeting of the British Columbia Chamber of Commerce here.

# OAS Hopeful Canada May Join

WASHINGTON (AP)—The Organization of American States took informal note Thursday of the fact that Canada is considering joining it.

Fernando Lobo, of Brazil, chairman of the OAS council, concluded Thursday's session by noting that "news reaching him" indicated the matter is under consideration in Ottawa.

**TALKS GOOD NEWS**

This is happy news, he said. He apparently was referring to talks begun during the recent visit to Ottawa of President Kennedy.

Meanwhile, a movement was reported in OAS diplomatic circles to ask that Canada be specially invited to the July 15 inter-American economic conference in Uruguay.

Canada so far has only agreed to the role of observer at OAS conferences.

If Canada should join the OAS a move which Kennedy indicated he would like to see, membership might cost her over $1,000,000 a year.

The budget for the OAS proper is just over $9,000,000 of which the United States pays $6,000,000.

The quotas are determined by a formula based on contributions to the United Nations, where payments are said to be based on population and wealth.

Canada's contribution observers here say, probably would run above those of the two biggest South American nations — Brazil and Argentina.

# 'Trouble Spot' Aid Program Not Enough

OTTAWA (CP) — The government's plan for assistance to surplus labor areas fails to provide adequate aid and is too restrictive, the Canadian Labor Congress said here today.

The labor organization's executive council meeting here feels the government should take the initiative designating surplus labor areas, CLC President Claude Jodoin said.

Automobile watchers report:

*LARKS ARE EVERYWHERE!*

You too, have probably noticed the growing number of Studebaker Larks on the road—sedans, hardtops, station wagons, taxis—325,000 of them in North America.

Any Lark owner can give you many reasons why *he* or *she* selected the Lark—over so-called big cars, little cars, Canadian or foreign. You'll get comments like these: "I like the roominess and comfort. Nothing else I tried came close." "This Lark 6 sure has get-up-and-go. It's nice to feel you've loads of power to spare." "I'm convinced the Lark has better materials and workmanship—thicker gauge body metal and superior interior finish for instance." "From my very first demonstration I had a real feeling of confidence in the Lark, easy steering, sure braking—a solid feel." "The Lark is a car I can live with—its established style will never 'date' it." "I liked what my dollars would buy in initial cost and operating costs. And this Lark V-8 is surely a front-runner." Lark owners will also tell you "be sure to arrange a demonstration ride"—and that's good advice!

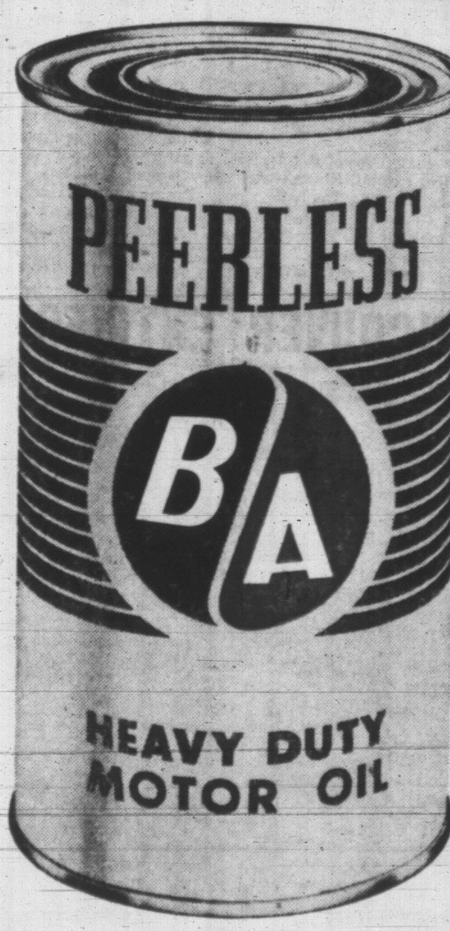
YOU STILL CAN'T BUY A BETTER MOTOR OIL!



As part of its pledge to offer only the finest petroleum products to the motorists of Canada, B-A developed new Peerless "MS" Heavy-Duty Motor Oil, to protect your car under all the conditions in which you have to drive!

Modern improvements have made today's cars more efficient and much easier to look after. For instance, you can now drive farther between oil changes under normal conditions. But the fact is that the conditions under which most of us drive are *anything but normal!* Stop-and-go city driving, ever-changing weather, and extremes of heat and cold make more frequent oil-changes essential for your car's protection. That's why B-A makes this *safe and sensible* oil-change recommendation:

**Change your motor oil every 30 days in cold weather, every 60 days in warm weather—and never exceed 2,000 miles between changes.**

And remember, modern Canadians choose B-A Peerless "MS" Heavy-Duty Motor Oil for the finest in engine protection.

# Continuing Commission Studies Transit Problem

Greater Victoria intermunicipal committee Thursday set up a continuing transit commission and ordered its technical officials to meet with B.C. Electric Tuesday.

Commission will be composed of the mayor and three reeves and their alternates as well as a BCE official.

The first meeting, between civic engineers and the company officials, will delve into the BCE proposal to cut back services this summer.

But the commission, if councils approve, will become a permanent body meeting several times a year to help solve transit problems and give the municipalities intimate knowledge of the system as the 1968 franchise expiry approaches.

Saanich Reeve George Chatterton said it would be a calamity for the municipalities to be faced with a sudden decision forcing the system onto them.

BCE vice-president William Mearns said the company is having an increasingly difficult time with the transit operation here but it has "not given up hope yet" that it will be able to stabilize losses and continue the service.

Committee recommended the four councils consent to transfer of a 1958 centennial celebration surplus of $13,300 to the Greater Victoria Art Gallery.

The money had been put into a trust fund to help with planning of a civic auditorium but the trust committee recommended the transfer to create an endowment fund for the gallery.

Ald. A. I. Curtis was the only opponent to the transfer, contending the proposal should be tabled for study in case other organizations had some claim to the fund.

Standardization of police entry qualifications, promotion exams and training was proposed by the committee.

It asked the councils to refer the problem to the respective police commissions for joint study.

Esquimalt Reeve A. C. Wurtele, who raised the subject, said police training and testing was "pretty much a hit and miss affair" in his municipality and he thought the provincial government should lay down regulations to cover the situation.

Oak Bay Coun. Alan Cox said recent assize court trials had revealed "not incompetence but lack of training" among some police witnesses.

*HISTORIC STEP*

## 'Border' Crossed For Parley

Greater Victoria intermunicipal committee took an historic step out of City Hall Thursday.

That's how committee members pictured the event when they met in Oak Bay municipal hall, for the first meeting in one of the outlying municipalities since the committee was formed several years ago. Next meeting will be in Esquimalt.

Oak Bay Reeve George Murdoch, welcoming delegates who were served coffee and cake, said despite press reports of occasional civic squabbles the Greater Victoria municipalities could set an example for peace in the world by their amicable settlement of differences at the conference table.

He said the decision to hold meetings in the smaller municipalities was an instance of harmonious relations.

"All passport restrictions are henceforth removed," quipped Oak Bay Coun. Alan Cox.

"I was just going to say that the border crossing was very easy today," rejoined Ald. A. I. Curtis.

## Canada 'Gives Thought' To OAS Participation

OTTAWA (CP)—The possibility of Canada joining the Organization of American States remains under consideration, Prime Minister Diefenbaker said today, and he indicated Canada will be represented at the Inter-American Economic Conference in Uruguay in July.

Mr. Diefenbaker, giving the Commons a report on his talks with President Kennedy, told Gordon Aiken (PC—Parry Sound-Muskoka) that he discussed the economic meeting with Mr. Kennedy as well as the whole question of Canadian participation in OAS.

Mr. Diefenbaker said he anticipated an invitation to Uruguay for the July 15 meeting and anticipated also that Canada would be represented. It remained to be determined whether Canada would sit as an observer or active delegate.

He said Canada made no commitment about joining OAS as Mr. Kennedy had urged in public and private conversations.

The prime minister was asked whether the Canadian decision about OAS would be taken before July 15.

"That will be determined in due course," said Mr. Diefenbaker.

But Canada's position has not changed since late last month, he said, when External Affairs Minister Green told the House that "the decision should be taken only when it is fairly clear that the majority of people are in favor of this being done."

Mr. Diefenbaker added today:

"It is still in that category and of course no commitments were made or would be made without Parliament being made aware in advance of any decision."

**RED CHINA ISSUE**

The question of Red China's admission to the United Nations was discussed with Mr. Kennedy in private and there was agreement to "consult further over the next few months," Mr. Diefenbaker said. He noted that the issue will not come up in the UN until September.

Mr. Diefenbaker said today's announcement of a Vienna meeting June 3 and 4 between Mr. Kennedy and Soviet Premier Khrushchev raises hopes for amelioration of the world situation.

It was hoped there would be "a degree of agreement which so often has been the expectation and hope of mankind since 1946."

### Pearson Backs Link With OAS

WESTPORT, Ont. (UPI)—Opposition leader Lester B. Pearson today backed President Kennedy's call for increased Canadian participation in Latin American affairs.

Pearson, starting a swing through three eastern ridings at stake in the May 29 byelections, said the time has come for Canada to "consider very sympathetically" joining the Organization of American States.

"If we are going to increase our contacts with these Latin American nations, we should be ready to increase our assistance to the underdeveloped countries among them," Pearson said.

The former external affairs minister and Nobel Prize winner said he could not comment on Kennedy's remarks in regard to a NATO nuclear force "until we can find out what he meant by control." Pearson added, however, that he felt strongly that "we should not disperse nuclear weapons any more widely than at present."

## WIRE BRIEFS

### Lookout for Satellite

HALEAKALA, Hawaii, (UPI)—An observatory here was under request today to help track a "suspected, unpredicted, bright satellite." Clifton Marsh, head of the observatory, said the Smithsonian Institution had alerted its network of high powered, telescopic cameras to spot and photograph the mystery satellite, if it exists.

### Rangers Bid on Harvey

MONTREAL (UPI) — The New York Rangers today requested and were granted permission by the Montreal Canadiens to re-open negotiations with defenceman Doug Harvey for the coaching job of the Rangers.

### Leonard Warned

SAN FRANCISCO (UPI) — Arnold Palmer, Gary Player and Stan Leonard were warned today they would be fined $500 and suspended from the PGA tour for six months if they skipped the Memphis Open golf tourney in favor of the Canada Cup matches.

### Sugar Ban Studied

WASHINGTON (CP) — The United States may withhold a total import quota of about 3,800 tons of Canadian sugar this year because of a new American law which forbids imports of Cuban sugar either directly or indirectly through some third country.

### NEW PARTY FIGHT LOOMS

## Argue to Run For Leadership

(Times News Services)

OTTAWA—National CCF Leader Hazen Argue formally announced today that he will be a candidate for leadership of the New Party at its founding convention here this mid-summer.

Argue told a news conference he was "encouraged" to stand for the top office by between 400 and 500 unsolicited letters which he has received in recent weeks, many of them from trade unionists and farm leaders, although none from labor organizations or farm organizations as such.

Many of the Saskatchewan letters, Argue said, expressed the view strongly that Premier T. C. Douglas, who also will contest the New Party leadership, should not be allowed to leave the province.

Queried on how he felt about winning over Douglas, Argue told newsmen frankly:

"It's going to be a hard fight. But I have been in five election fights and I have never found any one that was easy—and I have won them all. I believe I have a good fighting chance."

Asked if he would serve under Douglas if the New Party should return the Saskatchewan premier as leader, Argue said he would.

Mr. Argue said he will go to British Columbia next week, stopping in Edmonton on the way, and visit the Maritime provinces the following week. Detailed plans for his campaign have not been made and depend on his work in the Commons, he added.

**RESIGNS**

## Advance Voting Opens Saturday

Advance polls of the Esquimalt-Saanich Federal byelection open Saturday at 9 a.m. in three locations.

Polls will be open until 9 p.m. at St. Luke's Church, St. Martin's-in-the-Field Church, for voters on the urban lists, and at Sanscha Hall, Sidney, for rural voters.

Anyone who expects to be absent from the Esquimalt-Saanich riding on voting day, May 29, is eligible to cast his ballot in the advance poll.

Returning officer S. S. Penny said today he had received one complaint from Shawnigan Lake loggers about location of the rural advance poll, which serves the entire rural voting list, scattered from coast to coast on southern Vancouver Island.

Mr. Penny said regulations of the Canada Elections Act specify that rural advance polls must be held in an incorporated village.

Sidney is the only incorporated village in the riding.

The three advance polls will be open again Monday from 9 to 9.

Mr. Penny said there had been complaints from some of the political parties that Monday is a holiday—Victoria Day.

"That was the date specified by the chief electoral officer," he said "and I telephoned him to check on it."

Mr. Penny said that the two urban polling stations are open today for revision of the voters lists.

Anyone who isn't on the lists can register either today or Saturday.

Voters in rural areas who are not on the list do not need to register. They can qualify to vote on voting day by obtaining a certificate in which any registered voter vouches for them.

## Meet in Vienna On June 3, 4

WASHINGTON (AP) — President Kennedy and Premier Khrushchev will meet in Vienna June 3 and 4 for a "general exchange of views" on major world issues, the White House announced today.

The announcement ruled out any effort to reach agreement on "the major international problems that involve the interest of many other countries."

"The meeting will, however, afford a timely and convenient opportunity for the first personal contact between them and a general exchange of views on the major issues which affect the relationship between the two countries," the announcement said.

The announcement of the meeting was made simultaneously in Washington, Moscow and London.

It disclosed officially what had been rumored for some time—that after a meeting with President de Gaulle in Paris May 31 to June 2 the president will go directly to Vienna.

White House press secretary Pierre Salinger said Kennedy will make the trip on the morning of June 3.

Some time on June 4—Salinger did not know the hour—the president will fly from Vienna to London for a visit with Mrs. Kennedy's sister and her husband, Prince Stanislas Radziwill.

### Opportunity for Talks With Mac

This London stopover gives the president an opportunity to meet with Prime Minister Macmillan after the talk with Khrushchev. The White House statement disclosed that meeting will occur at a luncheon June 5.

Buckingham Palace in London announced that President and Mrs. Kennedy will dine with the Queen that day.

Kennedy, the statement said, "will depart London for Washington late in the evening" of June 5, while Mrs. Kennedy will remain with her sister in London for several days.

The announcement said the agreement between Kennedy and Khrushchev to meet in Vienna followed "discussions through diplomatic channels which began last March and an exchange of communications."

Diplomatic officials say privately Kennedy's primary interest in having a talk with Khrushchev at this time is to try through direct personal diplomacy to save the Geneva negotiations on a nuclear weapons test ban. The talks among the United States, Britain and Russia have been deadlocked for many weeks.

In addition, the president is said to feel that it would be useful for him at this time to make clear to Khrushchev that despite the reverses to U.S. interests in the Cuban and Laotian crises the United States is determined to stand by various commitments to prevent free nations from being taken over by international communism.

Salinger said Thursday that Kennedy does not plan to stop off at Bonn, West Germany. There had been some speculation that he might stop briefly at Bonn to talk with Chancellor Konrad Adenauer.

### SUMMIT REACTION

## Allies Approve, Not Too Hopeful

LONDON (UPI) — America's allies around the world expressed guarded approval today of the idea of a meeting between President Kennedy and Premier Nikita Khrushchev but warned against any expectation that it would produce notable results.

Russia and its satellites were expected also to welcome the idea on the theory that the Communist world had nothing lose and might perhaps gain something from such a meeting.

U.S. allies in Europe were publicly optimistic about the Kennedy-Khrushchev talks, but expressed private concern over the possibility that they would be bypassed in "Big Two" dealings with world affairs.

French President Charles de Gaulle, who believes he is entitled to a decisive share in shaping western policy, was believed to be cool to the idea of the meeting.

**APPREHENSIVE**

Allied officials in Geneva and at Atlantic pact headquarters in Paris were apprehensive about the possibility that a Kennedy-Khrushchev meeting could lead to similar individual approaches to the Kremlin by other western leaders, giving the Russians a chance to undermine western unity.

Country by country, the reaction was:

Britain — Foreign undersecretary Joseph Godber said such a meeting would provide an "opportunity of clearing the air." Some top-level officials were disappointed by the fact that Prime Minister Macmillan would not attend.

Russia — One newsman thought it was "too early for such a meeting," but added that "we've always maintained . . . that top-level meetings can help solve outstanding problems."

West Germany—Chancellor Adenauer told a visiting American publisher Wednesday that he regards it as "necessary and good."

Spain—The Spanish foreign office expressed general approval.

Italy—Italian reaction was generally favorable.

Scandinavia — Officials in Sweden, Denmark and Norway agreed that the meeting might provide a useful opportunity to remove "misunderstanding and mistrust."

Austria—In Vienna, where the two men are to meet, Chancellor Gorbach said Austria "strongly advocates" the idea of the conference.

### MOTHER BLAMES 'RELIGION'

## Maniac Stabs 2 to Death

HOUSTON, Tex. (UPI) — Mrs. Velma White blames a "religious missionary" for driving her son out of his mind.

Charles E. White, 36, described by those who know him as a "nice guy," had a mental collapse at work Wednesday and was taken to Methodist Hospital. That night he went berserk.

Somehow, he had smuggled a knife into the hospital and he ran amok with it. He killed two people, wounded four others, and two of them were still in serious condition today. All the while he quoted scriptures and sang hymns.

Police and the hospital kept a heavy guard on him. When he came out from under sedation Thursday, he was in another rage and doctors had to subdue him and put him back to sleep with more drugs.

Mrs. White said she knew for days that something was wrong with her son but did not believe he would become violent, however.

"He showed signs . . . when a religious missionary got him all confused about being saved," she said. "He told me he had to be saved. That's what went wrong with him.

"The last time he slept was Sunday . . . and the veins were standing out on his head."

Police Thursday filed two charges of murder against White, and four charges of assault to murder. A homicide lieutenant said he doubted, however, that White would ever stand trial for his actions.

James E. Newton, 61, an orderly, was killed instantly when White attacked him. Mrs. Gladys Lucille Foreman, 50, a nurse, went to see what was wrong and White plunged the knife into her chest. She was able to spread the alarm before she died.

## BUSINESS VIEWS

# Pacific Pete Out to End Red Ink

**By GORDON BELL**
**Times Business Editor**

**Gordon Bell**

Determination of the new Pacific Petroleums Ltd. management to turn the long-standing red ink on the account books into black is reflected in the statement of president John Getwood in the annual report that "Pacific will reach a profit position in the current fiscal year."

After more than a decade of rapid expansion which has put this largest Canadian independent into second rank among Canadian gas producers and eighth in production of crude oil, as well as showing sizeable yearly deficits, it is apparent that a great consolidation movement is taking place.

It has been no secret that many shareholders, particularly those south of the border, have been growing more impatient each year with a situation which has brought about continued growth but no return on shareholder investment.

With the acquisition by Pacific of the Phillips Petroleum and Sunray Oil Canadian properties and the placing of Mr. Getwood a Phillips man in charge, the change in direction of the company was started.

**HIGHEST IN HISTORY**

Report for the fiscal year ended Feb. 28 showed a 66 per cent increase in the company's cash income which rose from $11,428,450 in 1959-60, to $18,972,287 last year. Cash earnings increased 85 per cent and were the highest in company history while net loss was reduced 37 per cent from $3,921,895 to $2,856,604.

Oil production is expected to be considerably boosted when the new crude oil and products line is completed from the Peace River to Vancouver and intensive drilling will be done this summer to develop the company's oil holdings in B.C. Initial Pacific deliveries when the new pipeline is in operation are expected to be 4,000 barrels daily.

Proved reserves as of Feb. 28 were 112 million barrels of crude and natural gas liquids and 1.3 trillion cubic feet of natural gas compared with 76 million barrels of oil and .5 trillion cubic feet of gas.

Mr. Getgood served notice that Pacific intends to expand its manufacturing and marketing operations which are now mostly confined to the Peace River area and along the Alaska Highway.

**PRODUCTION UP**

The company reported substantial increases in production. At the end of the fiscal year daily average gas production was at the rate of 156,400,000 cubic feet, more than double that of the preceding February. Crude oil production was up 31 per cent at 14,398 barrels. Much of the increase, of course, was accounted for by the Phillips and Sunray properties.

Even with increased sales, gas and oil reserves were both increased substantially during the year.

Report from All-Canadian Dividend Fund and All-Canadian Compound Fund in Vancouver shows an increase of 20 per cent in net value per share for the first four months of 1961.

According to D. W. Mitchel, vice-president and managing director of Capital Management Ltd., manager of the two funds, the performance so far this year points to increased dividend income predicated, of course, on continuing recovery of the North American economy.

Although none of the West Coast grain elevator operators are anxious on their own to increase capacity to handle the Red China wheat deal, there seems to be a chance that the federal government will step in and boost capacity by as much as 25 per cent on its own hook—using public revenues of course.

The operators apparently are not convinced that the long-term outlook for the grain trade warrants additional investment in terminal facilities, particularly in view of the fact that no firm contract for grain to China exists beyond the end of this year.

Some of the present mainland elevators were built by the National Harbors Board and leased to private operators and it is on these facilities that expansion will likely take place.

A boost of 25 per cent in capacity would give a total capacity of about 29 or 30 million bushels.

Interim report from Westates Petroleum Company for the first quarter of this year shows an increase of 10 per cent in earnings compared with last year's first quarter.

Net was $201,073 or about 3½ cents per common share after provision for preferred stock.

The report says Westates plans to participate in an expanded program of exploratory drilling and plans to acquire additional undeveloped acreage.

## MARKET SUMMARIES

# Toronto, Wall St. Witness Recovery

Both Toronto and Wall Street markets recovered today from Thursday's decline as the result of profit-taking.

On the plus side at Toronto, General Motors rose ¾ to 48 as did Canadian Bank of Commerce to 67. Bank of Montreal gained ½ to 65.

Trading was moderate at New York as Dupont was up 4 and Consolidated Denison around 2. Ford rebounded from Thursday's setback and rose about 2. Steels were mostly higher.

**AT TORONTO** mining trading was heavy. Falconbridge fell ⅝ to 56⅝, and Denison ¼ to 10¼. Consolidated gained ⅛ to 26¼ and Gunnar 20 cents to $8.70.

Gold trading was light with few major changes.

In western oil trading, Calgary and Edmonton rose ⅛ to 17½, while Dome fell 15 cents to $7.95 and Central Del Rio five cents to $6.85.

**AT NEW YORK** among Canadian issues, Walker Gooderham was off ½, Granby Mining ¼ and Hudson Bay Mining ⅜. International Nickel gained ½.

American exchange prices advanced in fairly active trading. Jupiter Oils and Brazilian Traction were up ⅛ and Canadian Marconi was off the same fraction in a narrowly mixed Canadian list.

**AT MONTREAL** pipe lines and refining oils jumped ahead on the stock exchange today in active trading. Other sections improved fractionally.

**AT LONDON** the stock market ended the week with generally unsettled conditions. Losses in equities were light but fairly widespread.

Industrials were generally lower but losses were mostly small. Interest in gilt-edged securities remained low.

**AT VANCOUVER** mines were varied and prices mixed during the morning. Oils showed some activity. Industrials were quiet. Charter moved at $1.17. Vantor was at 22. Bralorne went to $6. Pacific Nickel traded at 85. Trojan went at 16½. Massey-Ferguson sold at $13.75.

# TODAY'S GRAIN

WINNIPEG (CP) — Flax prices were firm in moderately active trade today on the Winnipeg grain exchange.

Trading was on a domestic basis on the oats and barley markets.

The sale of 600,000 bushels of wheat to Austria was also reported.

Overnight export loadings of Canadian wheat: China 905,000, Czechoslovakia 800,000, Norway 175,000, United Kingdom, a small lot.

Lakehead prices for class two, IWA and domestic wheat were all unchanged from Thursday.

## BLUE-WATER SHIPS FROM GREECE, BRITAIN, ITALY VISITORS TO ISLAND DOCKS

International nature of shipping activity in Victoria area is highlighted by representatives of Greece, Britain and Italy. At Government Graving Dock in Esquimalt Harbor is giant Princess Sophie, pride of the Niarchos tanker hierarchy, undergoing annual scrape, paint and survey by Victoria Machinery Depot Ltd. Photo looking aft from bridge shows about two thirds of 860 foot length; beam of 115 feet left only 18 inches clearance at each side as ship was docked. Princess Sophie was built in Quincy, Mass., for $24,000,000, is of 71,282 tons, carries 550,000 barrels of oil from Persian Gulf to California refineries. Photo at right shows Royal Mail Lines' luxury freighter Loch Loyal, regularly employed in the U.K.-Pacific Northwest trade, and one of the newest Italian ships, Antonio Pacinotti, at Ogden Point. While both are primarily freighters, they are equipped with luxury passenger accommodation for those who enjoy leisurely voyaging. (Times Photos by Strickland and Halkett.)

## MONTE ROBERTS

Having been associated with the newspaper business for a year or two, or possibly even more, it is only natural that I am approached from time to time by young people asking:

**"What do you think about entering the newspaper business?"**

In each and almost every case, I reply as follows:

"Why not?"

However, I am told this reply is not sufficient to qualify me as a career counselor, so possibly I should elaborate—especially as College Graduates are now coming off the assembly line, loaded with knowledge, culture, and ambition.

My further, considered advice to those young people who think they would like to become associated with the newspaper business, is:

Specialize.

Learn a lot about a little, and you'll go a long way on short work.

**Just as one example, it is a little known fact that newspapers employ a specialist whose only job is to keep a keen eye out for heat waves.**

This may sound easy, at first glance, but it requires a great deal of perseverance combined with alertness and speed both of foot and of typing fingers.

The heat wave specialist on this newspaper, for instance (I will not name him, as anonymity is his stock in trade) must be trigger-fast to detect a heat-wave and get it into the paper before the rains come.

As this is written, the day before today, it seems entirely possible that our heat-wave editor will have to spring into action and record the hottest May 19 ever to fall on a Friday since records were kept except for the year the head meteorologist spilled his morning coffee on the thermometer.

This is an exacting, demanding job, yet I recommend it to young people interested in the newspaper business because it is so rewarding:

There is nothing quite so exciting as reading an eight column headline CITY SWELTERS IN RECORD HEAT over a story researched and written by you, yourself.

**Mind you, the next day you'll be putting on your rain hat, tying up your galoshes, and wishing for storm windows.**

But you will have the satisfaction of a job well done—the detection of a heat wave in time to record it in the public prints before it (the heat wave) goes away.

The heat wave editor has an enviable job—not too much to do other than pouncing quickly when the stats demand.

The only shortcoming to this job is a recent trend to make a heat wave editor double as the cold-snap editor.

**But this can be overcome by taking your holiday in the winter.**

A handbag containing approximately $155 has been stolen from a city woman's home.

City police said Mrs. B. M. Brown, 308 Montreal, reported the loss Thursday afternoon and thinks someone got into the house while she was gardening earlier in the day.

There was some $120 in a folder and $35 in a wallett. The handbag was in Mrs. Brown's bedroom.

**Mayor Percy Scurrah today said he hopes council will take speedy remedial action to correct downtown blight.**

**He said a recently-released urban renewal report on the area showed "things were much worse than anyone realized."**

**"As soon as we get the final report and recommendations this summer, I hope remedial action will be taken by council as far as our finances will allow."**

## WATERS 'COMBED' FOR PAIR

### Many Search In Boat Mystery

A squadron of 14 boats and one aircraft today combed the waters adjacent to Sidney Island and other islands east of North Saanich, for signs of a Victoria couple missing and feared drowned.

They were identified by RCMP as Robert M. Neaves, 24, a Liquor Control Board employee, and his wife, Helen, 19, of 123 South Turner Street.

Wednesday at 3 p.m. they left Randle's Landing on Shoal Harbor in a boat belonging to a friend, but powered by Neaves' outboard. At 8.30 p.m. it was spotted from the air by Lieut.-Cmdr. David Slader, commanding officer of VC922 reserve naval air squadron, who was attracted by the wake from the tight circles it was describing.

**VOLUNTEERS**

Taking part in the search today were the RCMP boats Victoria and Sidney, and the Victoria's high-speed tender which hunted along the shorelines; the RCMP Goose aircraft from Patricia Bay, and 11 private boats whose owners volunteered for the search.

According to Randle Mathews, proprietor of the landing, Neaves was a skilled cod fisherman who used to go fishing regularly with a friend, but he could not swim.

Mr. Mathews had given the couple two life jackets when they left, and they were found in the boat, along with salmon fishing gear and their seven-month-old German shepherd dog.

**SPORT FISHING**

Mr. Neaves and his friend built identical boats for their cod fishing — square-ended punts," Mr. Mathews explained. "The Neaves were planning on some sport fishing and took the friend's boat because it was drier."

It is believed that one of them went overboard, and the other was lost in trying to give help. Mr. Neaves was a good boatman, according to neighbors, and while his wife did little fishing, he had recently given her a trout rod.

Mr. Neaves' father, Charles, is at Bralone. His grandmother, Mrs. Eliza Neaves, was born on San Juan Island.

His wife was the daughter of Mr. and Mrs. Edward Klat, 915 Market, and worked at Henry Birks & Sons Ltd. on Yates Street. They were married last Oct. 1.

## HEAT WAVE ENDING IN SIGHT

**Temperatures soared to 80 in downtown Victoria at noon today, and the "modest" official thermometer on Gonzales Hill registered 74 for the second straight day, a record for this time of year.**

**But the end is in sight, temperature-wise.**

**Official forecasting from Victoria's weather man, William Mackie, indicates that the heat wave will gradually subside into more usual temperatures for May, and there may even be some clouds around if you get up early enough over the weekend.**

**Nevertheless, Victorians can look forward to good sunny weather over the holiday, with clear skies at least until everyone is safely back at work.**

## Premier Bennett Goes 'On Stage' In Campaign

Premier Bennett speaks tonight in an attempt to "whoop up" the Esquimalt-Saanich by-election campaign.

He is the star attraction at the type of rally which he holds in provincial elections—with band music and entertainment.

The meeting is a Belmont High School, Colwood. Doors open 7.30, entertainment to 8.30, then the premier and candidate George Hahn.

Another political meeting tonight at 8, will feature Dewdney MLA Dave Barrett and New Party candidate Glen Hamilton. It is at Mount Tolmie CCF Hall.

Don Poirier, the Socialist Party of Canada candidate, has meeting also at 8 at Luxton Hall.

## Quadra Preferred Over Blanshard

Strong opposition to proposed extension of Blanshard Street was voiced today in a surprise move by public works chairman Ald. Geoffrey Edgelow.

He expressed fears the project might sink almost $1,000,000 of city money into a development that benefitted a Saanich shopping centre more than it helped Victoria.

Ald Edgelow said Quadra Street was a much more logical artery for development as an alternate, main, route into the city.

"We need a new look at this whole Blanshard Street proposal for several reasons," he said.

**NO ACTION**

The proposal received generally favorable reaction from aldermen when it was first raised but council did not take any action on it at budget sessions. It was deleted from the budget recommendations of public works committee with the suggestion that the money should be raised by a money bylaw.

"I think there are a number of serious disadvantages to the Blanshard plan and several advantages to substituting Quadra," said Ald. Edgelow.

"First, the Blanshard extension would join Douglas alongside the Dominion Construction shopping plaza in Saanich and I don't think we should spend almost $1,000,000 to attract motorists and tourists there instead of to the city."

**DISADVANTAGES**

Ald. Edgelow said other disadvantages were:

It would cause serious congestion at the Patricia Bay Highway-Trans Canada Highway-Douglas Street terminal; it was too close to Douglas Street; it would jeopardize S. J. Willis Junior High School and Topaz Park grounds, and it would create a financing problem.

"Saanich council's policy decision to widen and develop Quadra changes the picture entirely," he said. "They've already begun a program of widening their side of Quadra and we are doing our side."

**LOGICAL CHOICE**

Ald. Edgelow maintained Quadra was the logical artery for development of a second main entrance to Victoria because the government ferries have made Patricia Bay Highway the main route to the area instead of the Trans-Canada Highway.

"The provincial government already has begun widening a portion of the highway near the Quadra intersection to four lanes so it would be natural to peel off two two-lane roads at that point — one going down Douglas and the other down Quadra."

He pointed out the city would have practically nothing more to spend on developing Quadra into a second entrance and Saanich could qualify for substantial provincial government assistance for its portion of the development.

## Fewer Forest Fires This Year

Warm weather is gradually pushing up the fire hazard in B.C.'s forests, but damage and costs still are far below 1960's.

The B.C. Forest Service reported today that 34 fires across the province this week cost $2,660. There have been 119 fires since May 1, costing $9,220 compared with 208 fires costing $22,973 at this time last year.

The fire hazard today is low to moderate in the Vancouver, Prince Rupert and Prince George districts. Elsewhere it is low.

There are 31 fires still burning, but all are minor.

Although a warm weather forecast will increase the danger of fires, it is expected to be at least two weeks before the situation could become serious in any area.

## Second Party Of Perjury Case Continues Today

A preliminary hearing into a charge of conspiring to perjure was still in progress in city police court at press time today.

Sandor and Winnifred Domokos, 670 Battery, are jointly charged with conspiring to perjure in the case of an alleged assault by Mr. Domokos against W. A. Scott, 1062 Newport, which was dismissed in city police court in March.

Charged with the same offence, in the same case, Mrs. Beryl Ann Fisher, 544 Simcoe, was committed for trial in a higher court Tuesday after a preliminary hearing last week.

## World-Wide Peace Posters Winners Here

Three Victoria area elementary pupils have won prizes in a world-wide poster contest on the theme of peace, it was learned today.

They are: Ryan Watt, a provincial correspondence pupil, who won a first prize in the grades one, two and three group;

Doris Jensen, another correspondence pupil, who took second in the grades four, five and six group;

And Mary-Lou Unwin, an Esquimalt Junior High School pupil, who took third in the grades six, eight, and nine group.

The contest, which drew some 30,000 entries from 24 countries in various groups ranging from elementary to university students, was sponsored by the Latham Foundation of Stanford, Calif., which was established to foster humane education.

All three will receive cash prizes and certificates of merit.

Addresses of the correspondence pupils were not immediately available. Miss Unwin, 14, lives at 727 Front.

## ASK The TIMES

Q. Would you please correct grammatically the following sentence: "He hasn't been there, I don't believe." A. F.

**A. Because the two clauses of the sentence are inverted, i.e. are not in their customary order, the grammatically undesirable double negative has the appearance of being correct. If it were put back into the more usual form, the mistake is at once obvious, so that the sentence must read, "I believe that he was not there," hence, "He wasn't there, I believe."**

Q. If one wanted to write to a man on the U.S.S. Tingey, how would one go about it? I know the man's name and his ship? I. F.

**A. Write to him c/o Fleet Mail Office, U.S. Navy Yard, Bremerton, Washington.**

**Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask the Times" Editor. Questions and answers will be published daily.**

**All questions should deal with matters of fact and be of general interest. The Times does not undertake to solve conundrums or legal problems. Nor will it attempt to put a value on old coins, stamps or antiques. These should be submitted to a dealer.**

### GOVERNMENT NO-TOBACCO DAY LIGHTS HOT REACTION

## Where There's Smoke Ban There's Fire

A B.C. government proclamation which encourages people not to smoke today ignited some hot reaction.

The proclamation says that May 31 shall be non-smoking day. A cabinet order approved it today.

"The order said the government was encouraging the aims of the Non-Smokers' Association of Canada, a Vancouver group of which Health Minister Eric Martin became the first member last year.

"It is deemed expedient to recognize the benefits that can be derived from non-smoking and to support the endeavors of the NSAC," says the order.

The proclamation goes further. It is "to designate May 31 non-smoking day in B.C. and to encourage non-smoking thereafter."

"It seems an extraordinary thing for the provincial government to interfere with any private industry," commented pipe-smoking Walter E. Hitchcox, manager of a Victoria tobacconist's.

"The federal government is very happy to get $30,000,000 to $40,000,000 a year in excise on tobaccos."

He said he expected that tobacco firms will retaliate, probably with advertising.

But apart from that, he said that smoking is a personal thing.

"I shall smoke my pipe if my wife doesn't mind," he added.

As for his business:

"I shall have to find some black crepe to hang on the door May 31."

The cabinet order says that the non-smokers' association recognizes "the benefits to be gained in the enjoyment of good health and for the sake of the protection of our forests."

Forest officials said that 257 fires were caused in B.C. last year by smoking.

Cost of quelling these blazes was more than $150,000 out of a total firefighting bill of $4,000,000.

### Longshoremen's Deadline Lifted

OTTAWA (CP)—The Canadian Labor Congress has *temporarily lifted a suspension deadline against the* International Longshoremen's and Warehousemen's Union, it was reported today.

*The longshoremen's union had been given until Sat*urday to clear up its jurisdiction dispute with the International Woodworkers of America (CLC) over shiploaders at Tahsis, B.C.

### Senator Wants U.S. Brass Fired

**WASHINGTON (UPI) — Sen. Albert Gore (D-Tenn) said today the joint chiefs of staff should be removed and replaced with "new, wiser and abler men" in view of the failure of the Cuban exile invasions.**

**Gore made the statement after leaving a closed door meeting of the Senate foreign relations subcommittee on Latin-America at which Gen. Lyman L. Lemnitzer, chairman of the joint chiefs, was being questioned about the Pentagon's role in the ill-fated invasion attempt.**

### PGA Turns Down Leonard's Bid

(See Page 11)

MEMPHIS, Tenn. (UPI)—Canadian pro golfer Stan Leonard asked for a "release" today from playing in the $30,000 Memphis Open here in order to play in the International Cup matches in Puerto Rico, but was turned down. Leonard had sent a telegram to tournament sponsors here. The reply said:

"In answer to your wire, we regret to inform you that after due consideration by our committee we cannot grant your request."

## U.S. Astronaut To Go June 20

WASHINGTON (UPI)—*The United States plans* to rocket a second astronaut down the Atlantic missile range June 20 and follow with a third around Aug. 1.

The astronauts, John H. Glenn, Jr., and Virgil I. Grissom, will repeat the May 5 performance of Alan B. Shepard, Jr., who rode a Mercury capsule briefly into space from Cape Canaveral, Fla.

Meanwhile, the space task group of the National Aeronautics and Space Administration (NASA) is preparing a second attempt to put a Mercury spacecraft into orbit around the earth with an Atlas missile.

The capsule will carry a "crewman simulator" which, in effect, will breathe, sweat, and talk like an astronaut. The "simulator" consists of a couple of oblong boxes containing equipment, including recorders which will transmit *previously taped voice messages from space.*

The first attempt to put a Mercury capsule *in orbit* was made April 25. It failed when the Atlas veered off course and was destroyed by ground command. The second attempt will be made some time after next month's suborbital manned flight.

The plan is to fire the capsule once around the earth at 17,400 miles an hour and bring it down in a recovery area near Puerto Rico in the Carribbean.

If this attempt works, NASA then will schedule one or more orbital launchings with a chimpanzee on the pilot's couch. If these preliminary flights are successful, a Mercury astronaut will be launched into a 100-mile-high orbit for a trip carrying him three times around the earth in 4½ hours.

This could come in the fall. *But in view of past difficulties* with the Atlas, it is possible that the preliminary flight pro*gram will stretch into 1962.*

In his May 5 flight, Shepard

### NEW PARTY FIGHT LOOMS

## Argue to Run For Leadership

(Times News Services)

OTTAWA—National CCF Leader Hazen Argue formally announced today that he will be a candidate for leadership of the New Party at its founding convention here this mid-summer.

Argue told a news conference he was "encouraged" to stand for the top office by between 400 and 500 unsolicited letters which he has received *in recent weeks, many of them* from trade unionists and farm leaders, although none from *labor organizations or farm or*ganizations as such.

Many of the Saskatchewan *letters, Argue said, expressed* the view strongly that Premier T. C. Douglas, who also will contest the New Party leadership, should not be allowed to leave the province.

Queried on how he felt about winning over Douglas, Argue told newsmen frankly:

"It's going to be a hard fight. But I have been in five election fights and I have never found any one that was easy and I have won them all. I believe I have a good fighting chance."

Asked if he would serve *under Douglas if the New* Party should return the Saskatchewan premier as leader, *Argue said he would.*

Mr. Argue said he will go to British Columbia next week, stopping in Edmonton on the way, and visit the Maritime provinces the following week. Detailed plans for his campaign have not been made and depend on his work in the Commons, he added.

## Big Two Summit Set for Vienna

WASHINGTON (AP) — President Kennedy and Premier Khrushchev will meet in Vienna June 3 and 4 for a "general exchange of views" on major world issues, the White House announced today.

The announcement ruled out any effort to reach agreement on "the major international problems that involve the interest of many other countries."

"The meeting will, however, afford a timely and convenient opportunity for the first personal contact between them and a general exchange of views on the major issues *which affect the relationship* between the two countries," the announcement said.

The announcement of the meeting was made simultaneously in Washington, Moscow and London.

It disclosed officially what had been rumored for some time — that after a meeting with President de Gaulle in Paris May 31 to June 2, the president will go directly to Vienna.

White House press secretary *Pierre Salinger said Kennedy* will make the trip on the morning of June 3.

*Some time on June 4*—Salinger did not know the hour—the president will fly from Vienna to London for a visit with Mrs. Kennedy's sister and her husband, Prince Stanislas Radziwill.

### Opportunity for Talks With Mac

This London stopover gives the president an opportunity to meet with Prime Minister Macmillan after the talk with Khrushchev. The White House statement disclosed that meeting will occur at a luncheon June 5.

Buckingham Palace in London announced that President and Mrs. Kennedy will dine with the Queen that day.

Kennedy, the statement said, "will depart London for Washington late in the evening" of June 5, while Mrs. Kennedy will remain with her sister in London for several days.

The announcement said the agreement between Kennedy and Khrushchev to meet in Vienna followed "discussions through diplomatic channels

## Advance Voting Opens Saturday

Advance polls of the Esquimalt-Saanich Federal byelection open Saturday at 9 a.m. in *three locations.*

Polls will be open until 9 p.m. at St. Luke's Church, St. Martin's-in-the-Field Church, for voters on the urban lists, and at Sanscha Hall, Sidney, for rural voters.

Anyone who expects to be absent from the Esquimalt-Saanich riding on voting day, May 29, is eligible to cast his ballot in the advance poll.

Returning officer S. S. Penny said today he had received one complaint from Shawnigan Lake loggers about location of the rural advance poll, which serves the entire rural voting list, scattered from coast to coast on southern Vancouver Island.

Mr. Penny said regulations of the Canada Elections Act *specify that rural advance* polls must be held in an incorporated village.

*Sidney is the only incorp*orated village in the riding.

The three advance polls will be open again Monday from 9 to 9.

Mr. Penny said there had been complaints from some of the political parties that Monday is a holiday—Victoria Day.

"That was the date specified by the chief electoral officer," he said "and I telephoned him to check on it."

*Mr. Penny said that the two* urban polling stations are open today for revision of the voters lists.

Anyone who isn't on the lists can register either today or Saturday.

Voters in rural areas who are not on the list do not need to register. They can qualify to vote on voting day by ob*taining a certificate in which* any registered voter vouches for them.

### Pearson Backs Link With OAS

WESTPORT, Ont. (UPI)—Opposition leader Lester B. Pearson today backed President Kennedy's call for increased Canadian participation in Latin American affairs.

Pearson, starting a swing through three eastern ridings at stake in the May 29 byelections, said the time has come for Canada to "consider very sympathetically" joining the Organization of American States.

"*If we are going to increase* our contacts with these Latin American nations, we should *be ready to increase our assist*ance to the underdeveloped countries among them," Pearson said.

The former external affairs minister and Nobel Prize winner said he could not comment on Kennedy's remarks in regard to a NATO nuclear force "until we can find out what he meant by control." Pearson added, however, that he felt strongly that "we should not disperse nuclear weapons any more widely than at present."

### Rangers Bid on Harvey

MONTREAL (UPI) — The New York Rangers today re*quested and were granted per*mission by the Montreal Canadiens to re-open negotiations with defenceman Doug Harvey for the coaching job of the Rangers.

## Canada 'Gives Thought' To OAS Participation

OTTAWA (CP)—The possibility of Canada joining the Organization of American States remains under consideration, Prime Minister Diefenbaker said today, and he indicated Canada will be represented at the Inter-American Economic Conference in Uruguay in July.

*Mr. Diefenbaker, giving the* Commons a report on his talks with President Kennedy, told Gordon Aiken (PC—Parry Sound-Muskoka) that he discussed the economic meeting with Mr. Kennedy as well as the whole question of Canadian participation in OAS.

Mr. Diefenbaker said he anticipated an invitation to Uruguay for the July 15 meeting and anticipated also that Canada would be represented. It remained to be determined whether Canada would sit as an observer or active delegate.

He said Canada made no commitment about joining OAS as Mr. Kennedy had urged in public and private conversations.

The prime minister was asked whether the Canadian decision about OAS would be taken before July 15.

"That will be determined in due course," said Mr. Diefenbaker.

But Canada's position has not changed since late last month, he said, when External Affairs Minister Green told the House that "the decision should be taken only when it *is fairly clear that the major*ity of people are in favor of this being done."

Mr. Diefenbaker added today:

### MOTHER BLAMES 'RELIGION'

## Maniac Stabs 2 to Death

HOUSTON, Tex. (UPI) — Mrs. Velma White blames a "religious missionary" for driving her son out of his mind.

Charles E. White, 36, described by those who know him as a "nice guy," had a mental collapse at work Wednesday and was taken to Methodist Hospital. That night he went berserk.

Somehow, he had smuggled a knife into the hospital and he ran amok with it. He killed two people, wounded four others, and two of them were still in serious condition today. All the while he quoted scriptures and sang hymns.

Police and the hospital kept a heavy guard on him. When he came out from under sedation Thursday, he was in another rage and doctors had to subdue him and put him back to sleep with more drugs.

Mrs. White said she knew for days that something was wrong with her son but did not believe he would become violent, however.

"He showed signs . . . when a religious missionary got him all confused about being saved," she said. "He told me he had to be saved. That's what went wrong with him. "The last time he slept was Sunday . . . and the veins were standing out on his head."

Police Thursday filed two charges of murder against White, and four charges of assault to murder. A homicide lieutenant said he doubted, however, that White would ever stand trial for his actions.

James E. Newton, 61, an orderly, was killed instantly when White attacked him. Mrs. Gladys Lucille Foreman, 50, a nurse, went to see what was wrong and White plunged the knife into her chest. She was able to spread the alarm before she died.

# BOY SAVES TOT'S LIFE; BEATS BEAR TO DEATH

TIMMINS, Ont. (UPI)—Edward Shannon, 14, was credited today with possibly saving his six-year-old cousin's life by beating a bear to death with a stick.

Police said the year-old bear was fighting with six-year-old Dalton Shannon's dog Thursday and Dalton ran toward the bear to save his pet.

Dalton's cousin, Edward Shannon, 14, jumped from a tractor and chased the younger boy and the dog away from the two-foot-high bear.

The bear knocked Edward to the ground, but the youngster jumped up clutching a stick and killed it with two blows.

## Phone Company Ignores Public, Members Charge

(From Times News Service)

OTTAWA — Two government supporters in the Commons Thursday criticized the Bell Telephone Company of Canada—complaining of an arrogant monopoly and a shortage of information operators.

The day was devoted to the 1961-62 budget of the transport department with its far-flung interests in shipping, airlines, railways, ports and communications. Study continues today.

The bitterest Bell Telephone attack came from Louis Joseph Pigeon (PC — Joliette-L'Assomption-Montcalm) who accused the company of ignoring the public interest.

He called for both an inquiry and legislative amendments to the company charter bringing it under closer scrutiny of the board of transport commissioners which regulates its rate-increase applications.

There were multiple contributions to the debate—mingled requests and criticism of transport department services.

Ferguson Browne (PC — Vancouver, Kingsway), connected with trucking interests, spoke against long-term rail subsidies and said a strike of truck and rail lines might cripple ground transportation if the rail companies obtained a monopoly of all ground transport and certain union certifications resulted.

## World's Greatest Port, Vancouver?

The Port of Vancouver, already the largest grain shipper in the world, could become the world's biggest and best port, Douglas Jung (PC—Vancouver Centre) said.

He urged the National Harbors Board to take the initiative in organizing a new Greater Vancouver port council, including municipal representatives of Vancouver, North Vancouver and New Westminster.

It should also have Board of Trade representatives and spokesmen for the provincial and federal governments, the railways, airlines and shipping interests, as well as representatives of management, labor, farm groups and consumers.

Working together they could make long-range plans for harbor development.

The president of CBC said the national television service would be gradually destroyed if the proposed private second TV network were allowed to draw off the CBC network's private affiliate stations.

J. Alphonse Ouimet told the Commons broadcasting committee that in developing the second network there must be great care not to "build it up out of the bricks and mortar of the first network."

He was replying to James McGrath (PC-St. John's East), who suggested that private interests are now capable of providing a national TV service without cost to the publicly-owned CBC.

On another point, Mr. Ouimet said the corporation has plans for color television "but we have no date tag to it yet."

COMMONWEALTH DAY

# Young Victoria Attends Service

Queen Victoria, whose reign during the 19th century marked the foundation of the British Commonwealth of Nations, was honored today by more than 900 young Victorians at a ceremony in front of the Legislative Buildings.

The colorful children's ceremony touched off Victoria Day celebrations which will be observed over the weekend by thousands of citizens participating in an entertainment program packed full of fun and thrills.

The Commonwealth Day service of the Imperial Order, Daughters of the Empire, was held on the flag-bedecked front steps and lawn of the main Legislative Building.

**SIGNIFICANCE**

The ceremony, unique in Canada, has special significance for the city named after Queen Victoria.

A fanfare of trumpets announcing the march of standard bearers to the tune of "Land of Hope and Glory" played by the Lansdowne Junior High Scool Band, marked the start of the service.

Willard Ireland, provincial librarian, addressing the large gathering of school children, said Queen Victoria was being honored because of the ideals she stood for during her long reign.

**FAITH IN GOD**

These were:

1. Cherish faith in God.
2. Loyalty to ideals, such as the ideal of freedom.
3. Dedication to purpose.

He urged his young audience to uphold these ideals throughout their lives.

"These same ideals are still being upheld by the Queen's great, great granddaughter, Queen Elizabeth," he said. "We should continue and cherish these ideas."

Mrs. Peter W. Bell, regent, Municipal Chapter of Victoria, IODE, also addressed the school children, while Chaplain Horatio Todd, president of the Greater Victoria Ministerial Association, said a prayer.

Participating in the ceremony held under a clear, sunny sky were hundreds of Girl Guides, Brownies, Sea Cadets, Army Cadets, Air Force Cadets, St. John Ambulance Cadets, Boy Scouts and Cubs.

The ceremony drew to a close with the placing of floral offerings by small children at the base of Queen Victoria's Monument.

Among those present were Mayor Percy Scurrah and Mrs. Scurrah, members of the Greater Victoria School Board and Victoria College officials.

SUMMIT REACTION

# Allies Approve, Not Too Hopeful

LONDON (UPI) — America's allies around the world expressed guarded approval today of the idea of a meeting between President Kennedy and Premier Nikita Khrushchev but warned against any expectation that it would produce notable results.

Russia and its satellites were expected also to welcome the idea on the theory that the Communist world had nothing lose and might perhaps gain something from such a meeting.

U.S. allies in Europe were publicly optimistic about the Kennedy-Khrushchev talks, but expressed private concern over the possibility that they would be bypassed in "Big Two" dealings with world affairs.

French President Charles de Gaulle, who believes he is entitled to a decisive share in shaping western policy, was believed to be cool to the idea of the meeting.

Allied officials in Geneva and at Atlantic pact headquarters in Paris were apprehensive about the possibility that a Kennedy-Khrushchev meeting could lead to similar individual approaches to the Kremlin by other western leaders, giving the Russians a chance to undermine western unity.

Country by country, the reaction was:

Britain — Foreign undersecretary Joseph Godber said such a meeting would provide an "opportunity of clearing the air." Some top-level officials were disappointed by the fact that Prime Minister Macmillan would not attend.

Russia — One newsman thought it was "too early for such a meeting," but added that "we've always maintained . . . that top-level meetings can help solve outstanding problems."

West Germany—Chancellor Adenauer told a visiting American publisher Wednesday that he regards it as "necessary and good."

Spain—The Spanish foreign office expressed general approval.

Italy—Italian reaction was generally favorable.

Scandinavia — Officials in Sweden, Denmark and Norway agreed that the meeting might provide a useful opportunity to remove "misunderstanding and mistrust."

Austria—In Vienna, where the two men are to meet, Chancellor Gorbach said Austria "strongly advocates" the idea of the conference.

which began last March and an exchange of communications."

Diplomatic officials say privately Kennedy's primary interest in having a talk with Khrushchev at this time is to try through direct personal diplomacy to save the Geneva negotiations on a nuclear weapons test ban. The talks among the United States, Britain and Russia have been deadlocked for many weeks.

In addition, the president is said to feel that it would be useful for him at this time to make clear to Khrushchev that despite the reverses to U.S. interests in the Cuban and Laotian crises the United States is determined to stand by various commitments to prevent free nations from being taken over by international communism.

Salinger said Thursday that Kennedy does not plan to stop off at Bonn, West Germany. There had been some speculation that he might stop briefly at Bonn to talk with Chancellor Konrad Adenauer.

## . . . CANADA

Continued from Page 1

"It is still in that category and of course no commitments were made or would be made without Parliament being made aware in advance of any decision."

The question of Red China's admission to the United Nations was discussed with Mr. Kennedy in private and there was agreement to "consult further over the next few months," Mr. Diefenbaker said. He noted that the issue will not come up in the UN until September.

Mr. Diefenbaker said today's announcement of a Vienna meeting June 3 and 4 between Mr. Kennedy and Soviet Premier Khrushchev raises hopes for amelioration of the world situation.

It was hoped there would be "a degree of agreement which so often has been the expectation and hope of mankind since 1946."

RESIGNS

Last vestige of official resistance to rule of army junta which seized power in South Korea Tuesday vanished today with the resignation of President Yun Po-sun. Premier Chang and his cabinet are already under arrest. Meanwhile the new military bosses began a sweeping roundup of suspected leftists and imposed a strict censorship. (AP Wirephoto.

## . . . ASTRONAUTS

Continued from Page 1

was boosted to an altitude of 115 miles by a Redstone rocket. He came down at sea 302 miles from the Cape after a 15-minute ride.

**CHANGES SUGGESTED**

Shepard suggested that three minor changes be made before Glenn or Grissom repeats his hop. They were that:

—The pressure gauge on the astronaut's space suit be moved from its present location on the left forearm to a place where it would be easier to see.

—The pilot be given more time for looking at sky and earth through his periscope and portholes by cutting down on the number of chores assigned to him during the brief trip. These chores, to check his performance, include manipulation of various buttons and switches and watching sundry dials and lights.

—The time spent by the astronaut in the capsule before scheduled launching time be reduced. Shepard crawled into the capsule an hour and 40 minutes before scheduled shot time.

# 'Unworthy' Suggestion —Fleming

**OTTAWA (CP) — Finance Minister Fleming denied today that he is delaying the 1961-62 budget until after four federal byelections May 29.**

**He was asked in the Commons by Paul Martin (L—Essex East) whether he would agree with the widely held view that he is delaying the budget on this ground.**

**"I do not agree," Mr. Fleming said. "The suggestion is unworthy of any member of this House."**

## Lookout for Satellite

HALEAKALA, Hawaii, (UPI)—An observatory here was under request today to help track a "suspected, unpredicted, bright satellite." Clifton Marsh, head of the observatory, said the Smithsonian Institution had alerted its network of high powered, telescopic cameras to spot and photograph the mystery satellite, if it exists.

# $15 Million In Mortgages Offered

OTTAWA (CP) — Central Mortgage and Housing Corporation will make an initial offering of $15,000,000 worth of mortgages on or about June 1, Works Minister Walker announced in the Commons today.

CORPORATION OF THE TOWNSHIP OF ESQUIMALT
LOCAL IMPROVEMENT NOTICE OF INITIATION

NOTICE IS HEREBY GIVEN THAT:

The Municipal Council of the Corporation of the Township of Esquimalt, in pursuance of the powers contained in Section 589 of the "Municipal Act," intends to construct under local improvement a concrete sidewalk five feet wide on both sides of Munro Street from the easterly boundary of Fraser Street to the westerly boundary of Lampson Street, at an estimated cost of $7,483.00 the whole of which will be assessed upon the properties abutting on the said work.

Repayment of the portion of the cost of the works to be assessed upon the lots abutting on the said works may be paid in cash without interest within thirty (30) days after the special assessment rolls have been certified by the Court of Revision or with interest in 15 annual instalments.

Persons desiring to petition against undertaking the said work must do so on or before 4.00 p.m. on June 19th, 1961.

J. W. ALLAN,
Municipal Clerk.
